The redistricting commission has violated the voters right act in the 31st and 35th congressional districts. David Yao, commissioner for redistricting allowed politics to motivate his push for a foothill and 210 freeway community of interest. I have heard that he wants to provide a relatively safe district for Congressman David Drier, his friend and fellow Republican. But by doing so the voter rights act has been violated and in no way do the two districts represent communities of interest. In the case of the San Bernardino district this action has diluted a Latino majority and diluted their numbers significantly. Also many cities are split and in one district joining San Bernardino and Redlands with Rancho Cucamonga and part of Upland makes no sense at all.

*You must change the maps for the 31st and 35th congressional district. The commission has violated the Voters Right Act by diluting the majority of Latinos in the Congressional 31st district by moving most of Fontana to the 35th CD. *

**

THE COMMISSION WAS NOT TO ALLOW POLITICS ENTER IN THE PROCESS. DAVID YAO HAD VIOLATED THIS MOST IMPORTANT GUIDELINE. THIS IS OUTRAGEOUS!!!!
