CA

Dear 2011 Redistricting Commis California:

Dear Members of the California Redistricting Commission and Staff:

Thank you for your time and dedication to helping draw the lines that help ensure the necessary and appropriate representation of all Californians for the next decade to come. I would like to take this opportunity to share with you some thoughts regarding the proposed districts as they relate to the Armenian American community.

Most maps drawn in the current draft respect the ties that bind the various neighborhoods and interests of the Armenian community, especially in southern California. For example, generally speaking the California State Assembly district covering the greater Glendale area ties together the communities of Burbank and Little Armenia in Hollywood.

The Congressional district covering the greater Glendale area also connects the main artery of the Armenian American communities from Burbank through Glendale to Little Armenia.

However, in terms of the greater Glendale area there are a couple areas of concern. Both Congressional and State Assembly district maps cut out a portion of Glendale, separating it from the rest of the community. Also, the California State Senate seat in the area creates a corridor between Burbank, Glendale, and Pasadena but completely cuts out the Little Armenia neighborhood in Hollywood.

In the San Fernando Valley, the proposed Congressional district generally connects the Armenian American communities of the west and south San Fernando Valley - who share multiple Armenian schools, churches, and youth as well as social service organizations specific to the San Fernando Valley.

However, it is unforutnate to note that this same community is completely fractured when it comes to the California State Assembly and State Senate districts.

The California State Senate district that binds the community of Montebello, Pico Rivera, and Whittier - which is served by a church, a school, and an Armenian Center - is unfortunately split in the State Assembly district (losing Whittier) and in the Congressional district

(losing parts of Montebello).

There are definitely positive aspects to the current draft maps, but we hope that the concerns outlined above can be satisfactorily addressed as the communities being split are bound on a number of levels including the residences of small business owners and their enterprises residing within these communities, schools and churches serving the communities, youth and scouting organizations operating within the communities, and centers and social service organizations tending to the needs of these communities.

Thank you for taking the time to consider my concerns.

Sincerely,

Arman Ghazanchyan

Subject: West Hollywood, Congress

Message Body:

West Hollywood has much more common needs with its current sister communities of Beverly Hills and Santa Monica than we do with the proposed new northern borders with Burbank and Sun Valley.

In fact, between Mount Washington, Burbank, West Hollywood, Sun Valley, and upwards to the county line - you couldn't have picked a group of more-difficult-to-reach communities from each other - every single one requires traversing both mountains and freeways - you are making a single representative for any of these regions virtually impossible.

I humbly request that proposed District 28 NOT INCLUDE West Hollywood. Besides, we are VERY HAPPY with our current representative of Henry Waxman, whom reaches out to his constituents about their needs.

Re: La Habra Heights July 19th Visualization

Dear Members of the Committee:

I strongly encourage you to stick with what you had put together in the first draft maps. I was stunned to see La Habra Heights stuck in with Orange County in the latest Congressional District maps.

Assembly District: It is good that you have put some of the La Habra Heights/Whittier/Puente Hills together as a community of interest regarding the Wildlife corridor. I don't believe that La Puente and South El Monte have anything in common with the hills or Southeast L.A. County/Northwest Orange County.\

Senate District: Nice job in capturing much of the Southeast L. A. County community of interest. Here I would exclude Buena Park.

Congressional District: I don't understand why you have excluded La Habra Heights and Hacienda Heights from the communities in the Southeast District of L.A. County. La Habra Heights has always had high community interest with Whittier to our west and the communities in L. A. County. We would like the Congressional District recast, including La Habra Heights with Whittier, Cerritos and Downey.

Thank you for the opportunity to share my views on this important subject. We must stay in our community of interest, and Orange County is not where our destiny should be as a Congressional District.

Sincerely,

Jean Good Lietzau

**Michael D. Antonovich
Los Angeles County Supervisor
Via e-mail:**

Re: ARCADIA – Redistrict into LASGF (Assembly/State/Congressional)

Dear Supervisor Antonovich:

Please read my attached letter concerning the apparent illegal "packing" of Arcadia into the redistricting of uncommon legislative lines and non-contiguous populations.

Arcadia has been gerrymandered out of its 'Communities of Interest' from the northern Foothill Mountain area (LASGF) without recourse. The California Citizens Redistricting Commission (CCRC) has virtually disenfranchised our voting power by creating race-based districts. This challenges the state constitution and is wrong.

Have attached mapping derivatives, appeals, and alternatives to challenge the CCRC's final decision prior to their August 15th deadline.

Please file an appeal with the CCRC to redraw Arcadia's lines within the LASGF district and swap with San Dimas & Upland. Would appreciate your feedback. Thank you.

Dear Commission Members:

On behalf of the City of Arcadia, we are writing to express our opposition to any redistricting that would separate Arcadia from its neighboring foothill communities in the San Gabriel Valley.

One of the criteria that must be taken into consideration when drawing the new boundaries is that districts must represent, respect and minimize the division of "communities of interest." Separating Arcadia from other foothill communities and placing it with cities further south, west and east with which Arcadia has significantly less in common shows clear disregard for this requirement of the Voters First Act. For example:

- Arcadia shares critical transportation interests with other foothill communities through the construction of the Gold Line Foothill Extension, the operation of the 210 Freeway, and heavily-traveled east-west thoroughfares.
- Arcadia has shared arrangements and agreements with other foothill communities for important public services such as law enforcement, fire protection, water and health care.
- Our connection and similarities with foothill communities extends to educational and employment opportunities, media and communication resources, environmental matters, economic development issues, recreation and cultural activities, and demographics.

It is critical that the unity and strength of the San Gabriel Valley foothill communities – Arcadia included - be preserved. We are a group of involved, connected and collaborative "communities of interest" and to separate our city from those with which we have the most in common is divisive and, frankly, wrong.

Respectfully submitted,

Gary A. Kovacic

Message Body:

I am a lifelong resident of the Westchester/Playa del Rey area of Los Angeles. I would strong recommend that we be redistricted with our coastal neighbors to the south (El Segundo, Manhattan Beach) or to our north (Venice/Santa Monica). It makes no sense to be clustered with communities to our east with which we share so little. Thank you.

Subject: new district

Message Body:

I'm confused, to say the least about my new district. I live at 435 Hamilton Ave in Pasadena and am now on the border of two districts. While I strongly agree with undoing the jerrymandering how is it any better to lump my community in with parts of Santa Clarita and Acton...two communities that couldn't be more different than my own. This makes no sense whatsoever!

Subject: ReZONING El Segundo away from the beach cities

Message Body:

My name is Joe Svezia and I am a long time Resident of El Segundo.

I am not sure who the person or group of folks are thinking they can take away El Segundo from the South bay, but I can tell you, this Rezoning proposal have pissed a lot of

folks off. Not sure why you want to lump us with the inland cities. El Segundo and We the people of El Segundo petition that no zoning changes shall take place.

If in fact this occurs, there will be much heated anger and legal action will prevail and unwanted discussions to make this unnecessary

El Segundo is the first "beach city" south of LAX, and that's not going to change. I hope you understand.

Do not attempt to lump us with Lennox, inglewood or hawthorne. We want to stay zoned as part of the Beach city communities.

If you have any questions, feel free to contact me directly at [REDACTED]

Have a nice day

cheers,

joe

Subject: Configuration of East San Gabriel Valley District

Message Body:

It's doubtful that any one district in LA County has seen more re-configurations than what was the 57th Assembly District this one.

The first draft was logical in retaining the integrity of cities and areas of mutual interests and traffic patterns.

The final draft of what may be the 48th Assembly District is the worse example of gerrymandering that I have seen in more than 40 years of my involvement in politics.

If your duties were to create districts of mutual interests you have failed miserably.

The final draft splits apart four cities, Monrovia, West Covina, El Monte and Montebello. Where the first three cities may have some mutual interests Montebello has nothing in common with any of the others.

If this was to "create" a minority district at the expense of the cities that have been torn apart I think you must go back and reconsider what is a very bad decision.

Subject: URGENT REQUEST TO RECONSIDER LINES AFFECTING COASTAL COMMUNITIES

Message Body:

I EMPHATICALLY urge you to reconsider the district lines you are proposing and encourage you to vote against the map proposal that is on the table. My community involvement in Malibu over the past 20 years includes founding a Boys&Girls Club, working with Heal the Bay and serving on many committees for the Santa Monica Malibu School District. Malibu shares many common interests in education, natural resources and public safety with other coastal and mountain areas including Santa Monica and Oxnard. To divide us threatens our ability to respond to the needs of our citizens in so many areas of our lives. The common interests of citizens of these districts will not be represented under the proposed plan.

Subject: More gerrymandering...AWFUL JOB!

Message Body:

I'm terribly disappointed in your new versions of districts. My San Fernando Valley home in Porter Ranch has the CD line zigzag around it so it has been blatantly and clearly been cut out of its logical home in new CD30 and instead gerrymandered into new CD25 for Santa Clarita and Palmdale. This is much worse than our current situation; now, we will not be able to elect a Congressman to represent our interests as SF Valley residents.

This mail is sent via contact form on Citizens Redistricting Commission

Subject: Communities State Redistricting Proposal

Region 4:
Los Angeles

Dear Commissioners:

I am writing to request that the following communities be included in the same district:

Kagel Canyon - Lake View Terrace - Shadow Hills - La Tuna Canyon - Sunland-Tujunga - La Crescenta - Montrose - La Canada-Flintridge - Glendale - Burbank

Our communities share the same demographics and interests which include, but are not limited to:

**Historic Preservation - Environment - Protection of Open Space -
The Rim of the Valley - Angeles National Forest - San Gabriel Mountains - Verdugo
Hills - Wildlife - Watershed - Hiking and Equestrian Trails - Income - Education -
Housing - Transportation - Two Nearby Colleges -
The 210 Freeway for Our Economic and Transportation Corridor -
Medical - Shopping - Jobs - Entertainment**

The current boundary proposal has my community joined with the mid-Valley flatland area, an area my community has little in common with. It is important that the redistricting proposal be redrawn so that my community is joined with other communities that share our demographics and interests:

Kagel Canyon - Rural, Equestrian, Mountains; Lake View Terrace - Rural, Equestrian, Mountains and Hansen Dam Recreation Center; Shadow Hills - Rural, Equestrian, Mountains; La Tuna Canyon - Verdugo Hills, Rural, Equestrian; Sunland-Tujunga, La Crescenta, Montrose, La Canada-Flintridge - Rural, Equestrian, Suburban, Located Between Two Mountain Ranges (Verdugo Mountains and San Gabriel Mountains); **Glendale and Burbank - Rural, Suburban and share the Verdugo Mountains, Shopping and Business**

These communities have commonalities and interrelationships that are uniquely interwoven and linked in ways that make them indivisible and requires they be joined together in the same California State Voting District.

I respectfully request that you consider these long-established community relationships when redrawing the current districts.

Thank you for your consideration.

Sincerely,

Thomas Lynch

Subject: ARCADIA – Redistrict into LASGF

August 1, 2011

Michael D. Antonovich

Los Angeles County Supervisor

Via e-mail:

Re: ARCADIA – Redistrict into LASGF (Assembly/State/Congressional)

Dear Supervisor Antonovich:

Please read my attached letter concerning the apparent illegal "packing" of Arcadia into the redistricting of uncommon legislative lines and non-contiguous populations.

Arcadia has been gerrymandered out of its 'Communities of Interest' from the northern Foothill Mountain area (LASGF) without recourse. The California Citizens Redistricting Commission (CCRC) has virtually disenfranchised our voting power by creating race-based districts. This challenges the state constitution and is wrong.

Have attached mapping derivatives, appeals, and alternatives to challenge the CCRC's final decision prior to their August 15th deadline.

Please file an appeal with the CCRC to redraw Arcadia's lines within the LASGF district and swap with San Dimas & Upland. Would appreciate your feedback. Thank you.

Dear Commission Members:

On behalf of the City of Arcadia, we are writing to express our opposition to any redistricting that would separate Arcadia from its neighboring foothill communities in the San Gabriel Valley.

One of the criteria that must be taken into consideration when drawing the new boundaries is that districts must represent, respect and minimize the division of "communities of interest." Separating Arcadia from other foothill communities and placing it with cities further south, west and east with which Arcadia has significantly less in common shows clear disregard for this requirement of the Voters First Act. For example:

- Arcadia shares critical transportation interests with other foothill communities through the construction of the Gold Line Foothill Extension, the operation of the 210 Freeway, and heavily-traveled east-west thoroughfares.
- Arcadia has shared arrangements and agreements with other foothill communities for important public services such as law enforcement, fire protection, water and health care.
- Our connection and similarities with foothill communities extends to educational and employment opportunities, media and communication resources, environmental matters, economic development issues, recreation and cultural activities, and demographics.

It is critical that the unity and strength of the San Gabriel Valley foothill communities – Arcadia included - be preserved. We are a group of involved, connected and collaborative "communities of interest" and to separate our city from those with which we have the most in common is divisive and, frankly, wrong.

Respectfully submitted,

Gary A. Kovacic

Subject: q2 senate final draft is BAD for Santa Monica and Malibu

Message Body:

Dear Commissioners:

In my earlier message, I applauded your second round revisions of the senate lines for the Santa Monica-Malibu area because you had removed the artificial separation you created between Santa Monica and Malibu. Your 2011-07-28 q2 map has reverted to the earlier, bad idea of splitting up our community. Santa Monica and Malibu share a way of life, school district, a watershed, and an ocean. All of these are criteria to be considered when drawing the lines. Santa Monica shares only politics with West Hollywood. Malibu shares nothing with Simi Valley. Your commission is supposed to be about the people, not politics. However, your unreasonable breakup of Santa Monica and Malibu appears to be strictly political. I am thoroughly disappointed that the commission can do no better than the same old gerrymandering. Shame on you!

Subject: Separating Santa Monica and West Los Angeles Makes No Sense

From: Tom Sorter <[REDACTED]>

Date: Mon, 1 Aug 2011 22:07:36 -0700

To: [REDACTED]

I find it incomprehensible that the Congressional district for City of Santa Monica has been lumped with various other beach communities for miles down the coast, as if being on the water is the defining aspect of our community. I live in Santa Monica; I work, shop, and own property in West Los Angeles. The border between the two areas is invisible. I go back and forth between them constantly. I never visit or have anything to do with Manhattan Beach and all those other "Beaches" to the south. What made you think that a long, skinny district extending for miles down the coast constituted a "community"?

Phyllis Johnston Sorter

Subject: Communities State Redistricting Proposal

**Region 4:
Los Angeles**

Dear Commissioners:

I am writing to request that the following communities be included in the same district:

Kagel Canyon - Lake View Terrace - Shadow Hills - La Tuna Canyon - Sunland-Tujunga - La Crescenta - Montrose - La Canada-Flintridge - Glendale - Burbank

Our communities share the same demographics and interests which include, but are not limited to:

**Historic Preservation - Environment - Protection of Open Space -
The Rim of the Valley - Angeles National Forest - San Gabriel Mountains - Verdugo Hills - Wildlife - Watershed - Hiking and Equestrian Trails - Income - Education - Housing - Transportation - Two Nearby Colleges -
The 210 Freeway for Our Economic and Transportation Corridor -
Medical - Shopping - Jobs - Entertainment**

The current boundary proposal has my community joined with the mid-Valley flatland area, an area my community has little in common with. It is important that the redistricting proposal be redrawn so that my community is joined with other communities that share our demographics and interests:

Kagel Canyon - Rural, Equestrian, Mountains; **Lake View Terrace** - Rural, Equestrian, Mountains and Hansen Dam Recreation Center; **Shadow Hills** - Rural, Equestrian, Mountains; **La Tuna Canyon** - Verdugo Hills, Rural, Equestrian; **Sunland-Tujunga, La Crescenta, Montrose, La Canada-Flintridge** - Rural, Equestrian, Suburban, Located Between Two Mountain Ranges (Verdugo Mountains and San Gabriel Mountains); **Glendale and Burbank** - Rural, Suburban and share the Verdugo Mountains, Shopping and Business

These communities have commonalities and interrelationships that are uniquely interwoven and linked in ways that make them indivisible and requires they be joined together in the same California State Voting District.

I respectfully request that you consider these long-established community relationships when redrawing the current districts.

Thank you for your consideration.

Sincerely,

Diane Binder

August 1, 2011

Michael D. Antonovich

Los Angeles County Supervisor

Via e-mail:

Re: ARCADIA – Redistrict into LASGF (Assembly/State/Congressional)

Dear Supervisor Antonovich:

Please read my attached letter concerning the apparent illegal "packing" of Arcadia into the redistricting of uncommon legislative lines and non-contiguous populations.

Arcadia has been gerrymandered out of its 'Communities of Interest' from the northern Foothill Mountain area (LASGF) without recourse. The California Citizens Redistricting Commission (CCRC) has virtually disenfranchised our voting power by creating race-based districts. This challenges the state constitution and is wrong.

Have attached mapping derivatives, appeals, and alternatives to challenge the CCRC's final decision prior to their August 15th deadline.

Please file an appeal with the CCRC to redraw Arcadia's lines within the LASGF district and swap with San Dimas & Upland. Would appreciate your feedback. Thank you.

Gail McNamara

RECEIVED

AUG 01 2011

Per _____

California Citizens Redistricting Commission
901 P. Street Suite 154-A
Sacramento, Ca. 95814

Dear Commissioners,

I am representing my area and the community in which I live and I am submitting this letter to you with great concern of dissolution of boundaries and representation that I have come accustomed to and enjoy. My state and local council representation serves our community as a whole with the current diversity in mind and keeps us abreast of which issues and concerns we should get involved with and assist their constituents with many resources and information.

I am interested in keeping our representation of our current seats that currently consist of two senators, three congressional seats and four assembly seats. The unity map would represent the African American community at large as it is drawn currently.

I would also like to have the area of the 33rd District as it was prior to the establishment of the commission for the redrawing of the lines to include Hollywood, Los Feliz, and Silver Lake back as contiguous sites connected to Los Angeles for purpose of inclusivity and diversity to maintain well deserved and needed resources.

Sincerely,
Veda Neal.

Resident of Los Angeles County

Beachwood Canyon is part of the Santa Monica Mountains community of interest. We suggest the attached boundary changes.

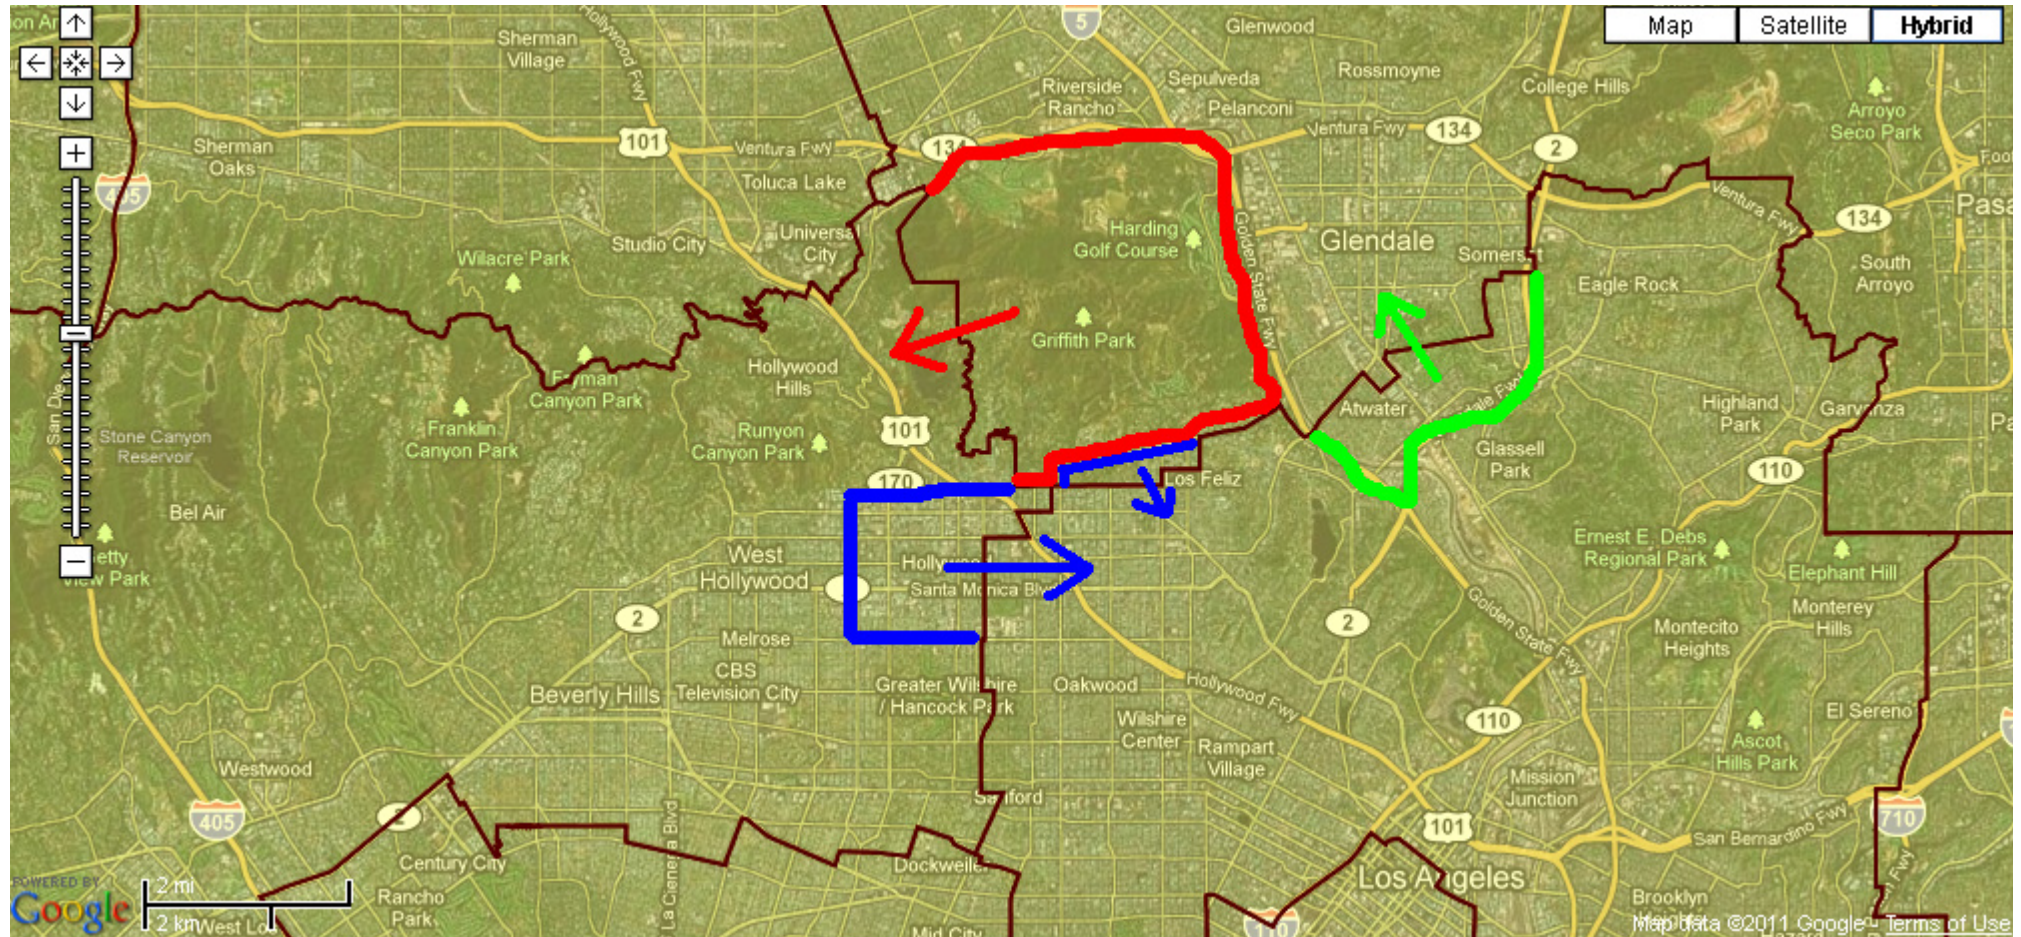

George Abrahams

Director, Beachwood Canyon Neighborhood Association

BCNASuggestedBoundaryAdjustments8-1-11.pdf

Beachwood Canyon Neighborhood Association Suggested State Senate Boundary Changes August 1, 2011

To LAPVB(26) Santa Monica Mountains community of interest

To LAELA(24) Hollywood community of interest

To LASGF(25) Glendale community of interest

The final draft State Senate boundary divides three communities of interest. It cuts Beachwood Canyon in half. It also divides us from all of the other Santa Monica Mountains communities. These boundary adjustments will also join Hollywood together and the area north of the Hwy 2 and I-5 in the Glendale area.

Subject: Please respect the ties that bind our Armenian American community!

2011 Redistricting Commis California
CA

Dear 2011 Redistricting Commis California:

Dear Members of the California Redistricting Commission and Staff:

Thank you for your time and dedication to helping draw the lines that help ensure the necessary and appropriate representation of all Californians for the next decade to come. I would like to take this opportunity to share with you some thoughts regarding the proposed districts as they relate to the Armenian American community.

Most maps drawn in the current draft respect the ties that bind the various neighborhoods and interests of the Armenian community, especially in southern California. For example, generally speaking the California State Assembly district covering the greater Glendale area ties together the communities of Burbank and Little Armenia in Hollywood.

The Congressional district covering the greater Glendale area also connects the main artery of the Armenian American communities from Burbank through Glendale to Little Armenia.

However, in terms of the greater Glendale area there are a couple areas of concern. Both Congressional and State Assembly district maps cut out a portion of Glendale, separating it from the rest of the community. Also, the California State Senate seat in the area creates a corridor between Burbank, Glendale, and Pasadena but completely cuts out the Little Armenia neighborhood in Hollywood.

In the San Fernando Valley, the proposed Congressional district generally connects the Armenian American communities of the west and south San Fernando Valley - who share multiple Armenian schools, churches, and youth as well as social service organizations specific to the San Fernando Valley.

However, it is unforutnate to note that this same community is completely fractured when it comes to the California State Assembly and State Senate districts.

The California State Senate district that binds the community of Montebello, Pico Rivera, and Whittier - which is served by a church, a school, and an Armenian Center - is unfortunately split in the State Assembly district (losing Whittier) and in the Congressional district

(losing parts of Montebello).

There are definitely positive aspects to the current draft maps, but we hope that the concerns outlined above can be satisfactorily addressed as the communities being split are bound on a number of levels including the residences of small business owners and their enterprises residing within these communities, schools and churches serving the communities, youth and scouting organizations operating within the communities, and centers and social service organizations tending to the needs of these communities.

Thank you for taking the time to consider my concerns.

Sincerely,

asbet issakhanian

Dear 2011 Redistricting Commis California:

Dear Members of the California Redistricting Commission and Staff:

Thank you for your time and dedication to helping draw the lines that help ensure the necessary and appropriate representation of all Californians for the next decade to come. I would like to take this opportunity to share with you some thoughts regarding the proposed districts as they relate to the Armenian American community.

Most maps drawn in the current draft respect the ties that bind the various neighborhoods and interests of the Armenian community, especially in southern California. For example, generally speaking the California State Assembly district covering the greater Glendale area ties together the communities of Burbank and Little Armenia in Hollywood.

The Congressional district covering the greater Glendale area also connects the main artery of the Armenian American communities from Burbank through Glendale to Little Armenia.

However, in terms of the greater Glendale area there are a couple areas of concern. Both Congressional and State Assembly district maps cut out a portion of Glendale, separating it from the rest of the community. Also, the California State Senate seat in the area creates a corridor between Burbank, Glendale, and Pasadena but completely cuts out the Little Armenia neighborhood in Hollywood.

In the San Fernando Valley, the proposed Congressional district generally connects the Armenian American communities of the west and south San Fernando Valley - who share multiple Armenian schools, churches, and youth as well as social service organizations specific to the San Fernando Valley.

However, it is unforutnate to note that this same community is completely fractured when it comes to the California State Assembly and State Senate districts.
