Subject: Congressional districts and ZIP codes

Message Body:

To whom it concerns,

I left a voice mail on Friday, August 26th on the toll free line. I called because I work for a company named Karl Storz, which employs people in El Segundo and the surrounding areas. One of our representatives is putting together a report, and we are trying to see which districts are most represented in our staff.

However, our computer system only stores the first five digits of our employees' zip codes. Do I need to have all nine digits to find the exact district to match each ZIP code?

Any information would be greatly appreciated. Thank you.

Alexandra Wojciechowska  
Karl Storz Endoskope, Assistant
