To Whom It May Concern:

Is it proper to inquire as to WTF is going on with the voter-approved California Citizens Redistricting Commission? It is my understanding that Commissioner Michael Ward is being muzzled by the Commission and is being deterred from having his Minority Report see the full light of day after several stealth Commissioners and unethical staff have tinkered with the mandated maps. Some of the maps, e.g., the Board of Equalization district that now stretches 730 miles from Yreka to El Centro, is laughable and the late Elbridge Gerry is probably praying for reincarnation so that he could clap for it. If my information is correct the CA CRC is acting in direct contravention of our wishes when we voted for both Propositions 11 and 20 and daring to call our bluff that a Supreme Court challenge is warranted. Your compliance with the rule of law, especially the laws which have been approved by us voters, is essential to maintain a truly civilized society.

I do trust that fundamental fairness and common sense will prevail so that California, once the Golden State and a worldwide leader in ethics in government with its CA Fair Political Practices Commission, etc., will not further confirm its steady demise into becoming the Sorry State instead.

If you have any questions whatsoever please feel free to contact me. I have always been high on life and have no use for snakes in the grass, especially those in government, and I hope that a reptilian assault on us fair-minded California voters has not been undertaken under color of law.

Power to the People!

Sincerely,

Gregory Lane Hunter
