Registered voter.

I am signing this petition regarding the
No vote on redistricting by Commissioner
Michael Ward of Orange County to make
public his reasons for voting no on all
four (4) maps. Hopefully this will halt
the gross imbalance of power that will
occur if this redistricting is accepted!

Petition for Ward

Calling All Citizen Activists!

Commissioner Michael Ward-R/Orange County is being muzzled by the Commission.

According to our sources, commission lawyers have told Ward NOT to make public his reasons for voting NO on all 4 maps, congressional, senate, assembly and Board of Equalization.

What is the commission hiding? Why has this principled conservative commissioner been muzzled?

ONE RESPONSE TO PETITION FOR WARD

Matt Heavey | August 10, 2011 at 6:02 pm | Reply

I commend Mr. Ward for standing up to the well entrenched and organized progressive machine that is the California state government. Like Wisconsin we need to show courage and strength over the long hall to try and bring common sense and sanity back into all levels of governance. This process is started by drawing fair lines in the redistricting process.

Conservatives will support your no vote if you feel the lines are not based on the mandates. Joining different communities of interest across the mountain range that is the east bay hills (in the congressional district) was the main concern of many and the fact the commission continues to ignore the hundreds who spoke out against this obvious wrong clearly gives credence to having an impartial body implement fair districts. I am tired of being represented by a communist congressman. Please vote no if this injustice continues.

Conservatives need support our leaders who risk much to bring Constitutional government back invogue. What a mess the progressives have made of our civil society.

Mr. Ward: Please stand up and speak out for the conservative principals that made this Country great!
