Good afternoon Mr. Jacobs,

Thank you for submitting your comments to the Citizens Redistricting Commission.

Your email has been forwarded to the Commissioners and will be posted on our website under the public comments section.

In regards to your inquiry about the noticed location in Mexico on September 1st: Our primary meeting location is in Sacramento, CA. One of our Commissioners will be on vacation in Mexico on September 1st. While she will not be able to travel to Sacramento, she has arranged to interrupt her vacation to participate in the meeting via teleconference. A second commissioner is unable to travel to Sacramento and will be calling in from Capitola. They have both arranged to participate from a publicly accessible location, as is required by California's Bagley Keene law and Citizens Redistricting Commission policy. All locations where Citizens Redistricting Commissioners participate must be publicly accessible and noticed in advance. This is in keeping with the Commission's commitment to transparency. You can learn more about the requirements of Bagley Keene here: http://ag.ca.gov/publications/bagleykeene2004_ada.pdf

While we would love to hold additional meeting locations open across the state, our budget does not allow for the staffing that would require. We hope you can join us in Sacramento.

Sincerely,

Christina Shupe

Dear Ms. Shupe:

My question would be, how many people are projected to attend the meeting in Guanajuato, MX? Probably none, which is probably the reason that place was selected. I remember many years ago I worked for an establishment that was being subjected to forced unionization and the owner had meetings in cities far away to discourage the union members from attending. It worked as I suspect the satellite meeting in Guanajuato is to do the same! Is it normal to have a satellite meeting in a foreign country or just when attendance is discouraged?

I see there is no representation from the northern third of Kalifornia and I am wondering why, considering the hearing is for residents of that part of the state, that is! Please notice that the State of Jefferson movement is from the northern part of our state and it would seem somewhat fair to have them represented unless the point is just the opposite! Why is there no representation from the northern part of the state???

Would appreciate your response to my concerns.

Regards,

Standley A. Jacobs
