The SwORD tool was used for statewide census planning. It has a wealth of information housed in an ArcGIS database with interactive maps, planning samples, HTC outreach, self-response rate factsheets by region, and so much more. If you are interested, you can request an account by opening a ticket here: https://cacensus.supportsystem.com/

Open a new ticket > fill in contact information > Help Topic: SwORD New Account Request

It is unclear when the CA Census office plans to shut down the site, so try to get a chance to look at it before then!

Artificial Intelligence used to draw voting districts
