

WE DEFINE OUR COMMUNITY, WE DRAW THE LINES

Every ten years, after the U.S. Census, California must redraw the boundaries of its Congressional, State Senate, State Assembly, and State Board of Equalization districts to reflect new population data and shifting populations. The Voters FIRST Act gave this power to California citizens, ensuring that new and fair districts are drawn free of special interests, politics, or political influence.

The California Citizens Redistricting Commission will hold public meetings and accept public comment. This is your chance to become a part of creating fair and transparent district boundaries that serve the best interests of the people of California. The Commission will have one year to determine and approve the district maps before the final maps are presented to the Secretary of State for certification.
