

CRC Chair Rotation Policy – Changing Options (12/22/20)

We currently have 12 commissioners in the rotation: 5 Rep, 4 NPP, 3 Dem (Sadhwani late May or later)

- Problems:
1. Keeping political representation even makes the workload uneven (some will chair 2x before others have chaired 1x)
 2. With the current policy, almost all Chair + VC pairs have ended up single-gender (8 of 9 so far!)

After Le Mons + Taylor, then Taylor + ...

OPTION A: Current policy (strict political rotation + alphabetical)	OPTION B: Gender mixed, politically mixed, workload mostly evened	OPTION C: Politically mixed + workload spread out evenly from Aug.'20	OPTION D: Strict political rotation with alternating genders
