

## Welcome FROM THE CHAIR

Jane Andersen  
Chair, California Citizens Redistricting Commission

Welcome to the December edition of the California Citizens Redistricting Commission newsletter. Commissioners, staff and vendors have been putting in overtime to get through the diverse communities of California as we continue the redistricting process. Our map iterations have morphed daily and will continue to do so. We urge you to continue to check our website and join our meetings if your schedule permits, to follow the process as it plays out.

What's next? We intend to finish all maps on December 20, 2021, letting the maps sit for three days for public review as is required by law. We hope to formally approve the maps on December 26, 2021 and deliver the maps to the Secretary of State (SoS) on December 27, 2021. The maps are enacted at the time the Commission certifies them to the SoS, but they would not become effective until after the 90-day referendum period. The Constitution also takes into consideration a 45-day period in which the maps could be legally challenged.

Thank you to those who have and those who will participate in this process. It has been a pleasure serving the people of California.

## Iterations

During the final weeks, Commissioners will create map iterations as a result of deliberations during meetings. Iterations are based on feedback given to the line drawing team by the commissioners as well as public input received. These will be fine-tuned until we reach final maps. When we complete an area we will post those iterations on our website.

Assembly iterations for December 8, 2021, are now posted on our website under handouts in shapefile and equivalency file formats. They have also been uploaded to our map viewer as a layer.
