1 PROCEEDINGS 2 August 31, 2022 9:29 a.m. 3 CHAIR TURNER: Welcome to our California 4 Redistricting Commission Business Meeting. And we will 5 open with roll call, please. 6 MS. MANOFF: Good morning, Commissioners. 7 Commissioner Vazquez. No? Commissioner Yee? 8 9 COMMISSIONER YEE: Here. MS. MANOFF: Commissioner Ahmad? 10 11 Commissioner Akutagawa? 12 VICE CHAIR AKUTAGAWA: Here. 13 MS. MANOFF: Commissioner Andersen. 14 COMMISSIONER ANDERSEN: Here. 15 MS. MANOFF: Commissioner Alic -- Fernández? COMMISSIONER FERNÁNDEZ: Presente. 16 MS. MANOFF: Commissioner Fornaciari? 17 18 COMMISSIONER FORNACIARI: I am here. 19 MS. MANOFF: Commissioner Kennedy? 20 COMMISSIONER KENNEDY: Here. 21 MS. MANOFF: Commissioner Le Mons? 22 COMMISSIONER LE MONS: Here. 2.3 MS. MANOFF: Commissioner Sadhwani? COMMISSIONER SADHWANI: Here. 24 25 MS. MANOFF: Commissioner Sinay?

1 COMMISSIONER SINAY: Here. 2 MS. MANOFF: Commissioner Taylor. 3 COMMISSIONER TAYLOR: I am present. MS. MANOFF: Commissioner Toledo? 4 5 COMMISSIONER TOLEDO: Here. MS. MANOFF: And Commissioner Turner. 6 7 Thank you. I am here. And with CHAIR TURNER: 8 that, I'm going to turn it over to the Vice Chair. 9 MS. MANOFF: And we have a quorum. 10 CHAIR TURNER: All right. Thank you, everyone. 11 thanks for joining us. It's nice to see everyone after 12 so long. Let's see. Just we are called to order. 13 going to go ahead and start with the executive director's 14 report. 15 MR. HERNANDEZ: Good morning, Commissioners. 16 been a while since I've seen you last, so I'm excited to 17 see everyone here. So thank you. Let me start off by 18 letting you know that at the last commission meeting, you 19 approved the hiring of a staff service manager. Today, I 20 would now like to formally introduce to you our new SSM 21 I, staff service manager I, Corina Leon. 22 She started her role on August 3rd and has been 23 working with staff to learn different activities we are 24 working on that will transition over to her in January.

That includes accounting, budgeting, contracts, and other

25

administrative activities. She brings with her a wealth
of state service experience and project management
experience from the IT world. She has a great can-do
attitude and always looks for alternative solutions to
problems. Please join me in welcoming Corina Leon as our
new SSM I.

And Corina, would you like to share just a few

And Corina, would you like to share just a few words?

MS. LEON: Oh, yes. Thank you. Thank you, Alvaro. I would just like to thank everyone for this opportunity. I'm very excited to bring my years of IT and accounting and managerial experience to this role. And Alvaro and Raul and Terry (ph.), all the staff, have been very generous and committed to making sure I'm -- I have what I need to support you when they offboard.

So anyway, I wanted to thank all of you for this opportunity, and I very much look forward to working with you all.

MR. HERNANDEZ: Great. Thank you, Corina. I'm going to go ahead and move on. You will find on our handouts -- or under our handouts today, hiring time lines. Commissioner Kennedy had requested them to include in his Lessons Learned report, but I thought it'd be useful to share it with everyone, so it is available as a handout.

It has executive level hirings, and it shows kind of the time line when the hirings took place. We also have the administrative staff and the hiring time frames for that. And then finally, the outreach staff and the time frames for that. So I won't share that because we do have other things that we want to get to, but if you have any questions, please feel free to send me an email or ask during this meeting as you get a chance to take a look at that information.

2.3

Moving on, I wanted to talk a little bit about some outstanding -- or just updates on some issues. For example, our transcripts. We've received most of our transcripts that were -- have not been transcribed.

There may be a few that are missing that we're just cleaning up. All of our 2020 has been completed and our vendor is going through our meeting videos and actually listening through our videos for those that were missing from 2021.

So we'll be going through the website, making sure that they're posted. There's a handful that are not yet posted. We're going to clean that up and make sure that we're not missing any of them. So just wanted to give you an update on that. Move that along.

As far as the website, Martin has been working on building the 2020 website in the new state templates to

transition our NationBuilder platform to the CA.gov platform. So that is moving along. He's done most of the work and transitioned it over. He'll be working with the Website Committee to review, take a look at that information for them to then presented to the commission.

2.3

We are trying to make sure that it has a similar color scheme as we currently have and the layout is as much what it currently is as possible so that it helps us and the public transition to the new template. Our main goal is to ensure that the content is available and reflects the work of this commission to create the maps. It's kind of a place in history, all the things that were done to complete the maps. We will continue to work with the Website Subcommittee to provide updates and additional information as they become available.

Moving on to the database, as I had mentioned at the previous meeting, we are looking at long-term database solutions beyond Airtable to store our public testimony that we received and to improve access for the use of the public. We met with the Cybersecurity Subcommittee to discuss data storage, our possible security issues, possible solutions, and next steps to move forward.

Our goal with the proposed solution is to provide secure storage for CRC data in one location. That includes the public testimony and the commission videos

among others. The maintenance and security of the data is another concern, and its access to be easy for the data that we currently have in Airtable. So those are the things that we're kind of focusing on. With that, I'm going to defer to the Cybersecurity Subcommittee to share more information on our discussion and our proposed solutions.

Moving on to State Archives, I wanted to share that staff has been communicating with State Archives regarding our website files and other files, and we are ready to send to them. We are waiting to figure out the best way in which to send them or transfer the files. We have a large volume of files, and they're not easily transferable via email. So we're looking at possible options to transfer that information, including our videos.

Currently, those videos are stored within our videographer services, and they're large files. So we're trying to figure out how to do that. Our proposed solution for the data storage would allow for those videos to be housed potentially within that data storage solution and make it much easier and accessible to everyone from there. So that's part of the reason that we're looking at those solutions.

We did ask for a listing of materials from the 2010

1	from the State Archives and received some information.
2	This morning, I posted three different documents. One of
3	them is the instructions on how to use the State Archives
4	to access the 2010 CRC information. And then the other
5	two documents are just report details of the CRC 2010
6	information for you to use or reference moving forward.
7	Let's see. Are there any questions? I think I see
8	Commissioner Kennedy.
9	VICE CHAIR AKUTAGAWA: Okay. Commissioner Kennedy,
10	I see your hand up.
11	COMMISSIONER KENNEDY: Thank you very much. One
12	further question on this. You know, I'm very happy to
13	hear that all of this has been happening in the
14	background, and it seems like we're making good progress.
15	One of the items that a number of people had
16	inquired about, and I would certainly endorse, is finding
17	a way to also include the content from the recruitment
18	website, the what was it? The California State
19	Auditor's website that was set up for the recruitment of
20	this commission because that really and truly is an
21	integral part of this cycle's redistricting process.
22	And I do believe that also needs to be available
23	since it's already been taken, Shape California's Future.
24	So since it's already been taken down from its original
25	location, I would hope that we can find a way to include

1 | it in this new iteration of our website. Thank you.

MR. HERNANDEZ: Thank you, Commissioner Kennedy.

3 | We'll look into that. I know that the documents -- many

4 of the documents that were posted, we do have those, and

5 | we'll be including those as part of our archived

6 information. But we'll reach out to State Auditors to

7 | get more information if we don't have what they were

posting or what they had on their website at the time.

So thank you for that.

VICE CHAIR AKUTAGAWA: Just for clarification,

Commissioner Kennedy, are you also suggesting that the

website as it stood when the recruitment was happening

should also be part of the, I guess, data or documents or

material that should be also either transferred to the

archives along with our website?

COMMISSIONER KENNEDY: I mean, I think it would be CSA's responsibility to ensure that that is transferred to the archives. I'm talking about the public access, and there does seem to be interest out among the public in having ongoing access to the Shape California's Future website.

You know, while we're on that, I've also, you know, consistently advocated for restoring as much of the 2010 website as possible. You know, I am fully supportive.

I've advocating for, you know, the rights to people with

- 1 disabilities for more than a decade. But I don't think
- 2 | that website accessibility standards should preclude us
- 3 from ensuring that what existed as far as the 2010
- 4 | Commission's website before we took office remains
- 5 available to people.
- 6 Again, that's an important part of the historic
- 7 record, and I think we need to find a way with the State
- 8 to say, this is not a living website, this is an historic
- 9 resource, and people have a right to have ongoing access
- 10 to that historic resource. Thank you.
- 11 VICE CHAIR AKUTAGAWA: Thank you, Commissioner
- 12 | Kennedy. Executive Director Hernandez, do you have
- 13 anything else that you want to report on?
- MR. HERNANDEZ: Yes, I have a few more things to
- 15 report on.
- 16 VICE CHAIR AKUTAGAWA: Okay.
- 17 MR. HERNANDEZ: And thank you, Commissioner Kennedy.
- 18 | We'll make note of that. I wanted to update you on the
- 19 | fund request. We met with legislative staff and JLBC
- 20 | in -- two weeks ago to discuss our request for funds and
- 21 our legal services contract. We just met with the
- 22 Department of Finance yesterday, and we are continuing to
- 23 | work through and make sure that all the T's and I's are
- 24 crossed.

25

This process is very different from what happened in

1	2010, and so this is new ground that we're treading. And
2	so we want to make sure that we have all our T's and I's
3	taken care of. So more information will come on that.
4	We're still pursuing it, and it is still in the works.
5	I also wanted to bring up this issue for you to
6	consider a full-on agenda item and discussion at a future
7	commission meeting, not today. We have other things to
8	discuss today. But as you know, moving forward, the
9	commission has very limited funds available to work with.
10	And so beginning on fiscal year '23/'24 and thereafter,
11	the Commission was only funded for four commission
12	meetings per year. That does not include any of the
13	subcommittee work or anything like that.
14	So I want to bring it up for the discussion and to
15	start thinking of how and what the Commission is going to
16	be doing for the next eight years. So I just wanted to
17	uplift that as a conversation for later.
18	And with that Chair and Vice Chair, I that
19	concludes my report unless there's any questions.
20	VICE CHAIR AKUTAGAWA: I see that Commissioner
21	Fernández has a question for you.
22	COMMISSIONER FERNÁNDEZ: Sorry. I have to get used
23	to this, where which button I push. Just a couple of
24	things. Thank you for the updates on the fund request.

I am concerned that it's been, I guess, probably two

25

months since we submitted that request. So I'm -
hopefully with the chair's permission, I think I would

need to track this closely within the next two weeks

because it's obviously taken too long, and we do need to

know what our status is with our request.

2.3

And then secondly, with limited funds, I'm just going to ask Executive Director Hernandez, is now the time that we should talk about submitting a budget change proposal? Sorry I've been out of the process for a while, but I do know that we did submit a budget change proposal for this year. We did get some funding, and for future years it wasn't approved. I kind of understand why because the timing of it. So is now the appropriate time for us to start that process again?

MR. HERNANDEZ: It is the time to start working on that information. I don't have the specific time frames. I believe it was January, February when we had to submit that. I'll have to circle back on that time frame for you to make sure, but we want to make sure we start getting all our information together.

And that's why I think it's important to start having those discussions moving forward, you have a Plan A and also a Plan B. And also the fact that the majority of the staff will be offboarding in December. And so you have us now. Let's try to work it out as much now before

we're offboarded.

2.3

VICE CHAIR AKUTAGAWA: Commissioner Fernández, are
you -- is this something that you would do as part of the
Finance and Administration Committee?

COMMISSIONER FERNÁNDEZ: I think we did it as a long-term planning, didn't we? I don't remember. I'd have to ask Commissioner Fornaciari, but I think it was part of the Long-Term Planning --

VICE CHAIR AKUTAGAWA: Oh yes.

COMMISSIONER FERNÁNDEZ: $\mbox{--}$ because we looked at the future years.

VICE CHAIR AKUTAGAWA: Yes.

COMMISSIONER FERNÁNDEZ: And in terms of the budget change proposal, it is correct that we did work on it in January, February. That's kind of -- it's a different process and time line than other state agencies. Other state agencies actually start working on it now so that it's included in the governor's budget -- hopefully including the governor's budget in January. So if you wouldn't mind looking into that to see if maybe we can get on that timetable instead of trying to do it at the end. Thank you so much.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner Fernández. Commissioner Kennedy?

COMMISSIONER KENNEDY: Thank you, Chair. You know,

working on the Lessons Learned report, it's clear and it will be clear to everyone when we have a draft out later in the year, there are a lot of things that we believe we can do to help prepare for the 2030 Commission's work that would leave them in much better shape when they get started, especially given that they're going to have a shorter time frame, or we expect them to have a shorter time frame.

So you know, and I'm -- we're almost finished with the -- I'm almost finished with the coding of the input so that if there is a need for a listing of tasks that we see for ourselves, beginning more or less five years from now, going up to -- leading up to the handover to the 2030 Commission, I'd be happy to produce that kind of list so that that can be part of the justification if we're looking at funding, you know, for that period that would start probably in 2027. Thanks.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner
Kennedy. Any other questions? Okay. Seeing none. All
right.

Okay. Just for clarity, I just want to make sure. So Commissioner Fernández, is your -- is it best to start this budget change process conversation as part of -- I just want to make sure. I hear what you said. Some of the conversation did take place as the Long-Term Planning

1 because we were looking further out.

On this specific budget change process, I think that

3 was included separately as Finance and Administration

4 | Committee. So I think just for clarity and transparency,

5 is this something that you would do under Finance and

6 Administration? So I guess that would include

7 | Commissioner Fornaciari. Or would it be something that

would be done under Long-Term Planning, which would then

9 be you and I?

8

10 COMMISSIONER FERNÁNDEZ: I think, either way. I

11 | don't know if Commissioner Fornaciari would like to just

12 | jump on board. We do have the information already from

13 the Long-Term Planning. That is what we submitted. So

14 | we do have what our request would be unless it's changed

15 | in some way. So I mean, at this point I'm kind of in the

16 | middle.

25

17 So if I work with you, Commissioner Akutagawa, or

18 Commissioner Fornaciari, either way is a win for me, so

19 | you two can fight it out.

20 COMMISSIONER FORNACIARI: I'll do whatever

21 | Commissioner Fernández wants me to do.

22 COMMISSIONER FERNÁNDEZ: Do you think Finance and

23 Admin, maybe? Should we move it over? I'm sorry. I'm

24 directing it to Executive Director Hernandez.

VICE CHAIR AKUTAGAWA: He looks like he wants to

comment, too.

COMMISSIONER FERNÁNDEZ: Yes. Thank you.

MR. HERNANDEZ: Yes. No, I just got confirmation from Terry that the Department of Finance has already bookmarked us for late September, early October for the initial submission. Obviously, it takes a lot of back and forth from that point forward, but that's the time frame that we're looking at now, September and early October, for it to go formal in January.

VICE CHAIR AKUTAGAWA: All right. Thank you. I think I'm going to take the prerogative, and I'm going to say that since the previous budget change process was worked out between Finance and Administration, I'm going to ask Commissioner Fornaciari, he looked like he was ready to go and help out.

So Commissioner Fernández, I'm going to -- I'm going to delegate this to the Finance and Administration

Committee. Thank you, both, for working on this for us.

All right. All right. So let's go to the next -Chief Counsel's report. And then I believe, after that,
Commissioner Turner -- or Chair Turner is ready to take
back over. I do want to just state so that everybody is
aware, after Chief Counsel does his report, we will vote
on accepting the reports. I did also -- it's been a
while. I did forget to ask for announcements. So after

- Chief Counsel gives his report, then we'll come back to announcements, and then we'll turn it over to Chair
- 3 Turner.

12

15

16

17

- And Commissioner Sinay, I see that you have your hand up.
- 6 COMMISSIONER SINAY: I wanted, just so that it's
 7 public, that I still am missing some of my reimbursement
 8 checks -- travel reimbursement checks, especially my
- 9 September one, which was my biggest one. I have spoken to Corina, but it's just kind of ridiculous that it's
- 11 taken over a year. And I just wanted to check if anybody
- VICE CHAIR AKUTAGAWA: So far, it doesn't look like it.

else was still missing some.

- Executive Director Hernandez, perhaps you could just follow up and help facilitate this for Commissioner Sinay. Thank you.
- 18 CHAIR TURNER: I'm missing some as well. But part
 19 of that is, you know, something that I may not have
 20 followed up on. But yeah. I'm missing some as well,
 21 Commissioner Sinay.
- VICE CHAIR AKUTAGAWA: Okay. Great. Thank you.

 And I believe Commissioner Taylor may also be missing

 some reimbursements as well, too. So Executive Director

 Hernandez, we have at least three that need to be

1 followed up on as well, too, so. 2 All right. Let's go to -- let's go to Chief 3 Counsel. Is anybody else missing? Anybody wants to say? 4 Commissioner Yee, are you also missing 5 reimbursements, too? COMMISSIONER YEE: Yeah. Going back to November. 6 7 VICE CHAIR AKUTAGAWA: Okay. So we now have four. 8 And it looks like Commissioner Toledo? 9 COMMISSIONER TOLEDO: Yes. I am, too, but it's 10 not --11 VICE CHAIR AKUTAGAWA: All right. 12 COMMISSIONER TOLEDO: -- a rush. 13 VICE CHAIR AKUTAGAWA: Okay. We're up to five now. 14 Okay. So quite a few have missing reimbursements. 15 we'll try to -- Executive Director Hernandez, I hope that 16 we can get these resolved sooner rather than later, 17 especially given that staff is going to be offboarding up 18 for you very soon, and we would prefer not to have to 19 transfer that over to our new SSM manager. 20 Okay. Let's go back to our Chief Counsel's report. 21 MR. PANE: Thank you, Chair. Good morning, 22 everyone. Good to see everyone. One issue I did want to 23 bring up, and it's not particularly significant, more of 24 the typical State Department bureaucracy. The next 25 meeting -- not this meeting, but next meeting, Chief

1 Counsel's report will be providing an update, and we'll probably be seeking your approval to pursue an amendment 3 to the Department's -- or the Commission's conflict of 4 interest code. 5 Just as a heads up, the change is not going to affect disclosure status for any of the commissioners. 6 7 It is simply a change to staff as to the level of 8 disclosure and the appropriate categories. But we are 9 going to seek approval for you to delegate to the 10 Executive Director to make that change, and we'll want to 11 make sure that we have that approval first before we 12 start that process. 13 With that, that's all I have, but I'm happy to 14 answer any questions anybody has. 15 VICE CHAIR AKUTAGAWA: Thank you, Chief Counsel. 16 Okay. I'm not seeing any hands raised. Okay. Let's go 17 ahead and let's -- we need to take a vote to accept the 18 And also we -- or not accept the reports. 19 need to take public comment, sorry. Not votes. Public 20 comment. 21 So I will ask, Katy, if you could, if you could call 22 for public comment before we move on. 2.3 PUBLIC COMMENT MODERATOR: Yes, Chair.

24

25

- 1 and enter the meeting ID number 81282239720. Once you have dialed in, please press star nine to enter the comment queue. The full call-in instructions -- oh. 3 No, 4 no, no. I apologize. And for those that had called in 5 at the start of the meeting, if you do wish to make comment at this time, please press star nine. This will 6 7 raise your hand. At this time, Chair, we do not have any raised hands 9 or new callers. We'll give them a few minutes. VICE CHAIR AKUTAGAWA: Katy, has the instructions 10 11 also finished scrolling on the screen? 12 PUBLIC COMMENT MODERATOR: The instructions have 13 completed, Chair. And we still do not have any raised 14 hands. VICE CHAIR AKUTAGAWA: Okay. Thank you very much. 15 16 All right. We will go ahead and move back up. It's been 17 a minute for me, so I did forget to call for any 18 announcements or sharing from the commissioners at the 19 very top of the agenda. So I will call for any sharing
- or announcements, anything that the commissioners want to -- want to share with all of us and the public. And then after this, I will turn it over to Chair Taylor.
- Okay. Commissioner Sinay.
- COMMISSIONER SINAY: I'll start it off, but three of us, Commissioner Kennedy, Commissioner Sadhwani, and I

attended -- I call it the democracy conference, but I
forgot the full name. So I'm sure Commissioner Kennedy
can fill you in on the right name. But it was fun to
meet a lot of the democracy advocacy groups, the
individuals that had been calling in, meeting them faceto-face, even though we were all wearing masks, and just
talking to them and hearing from them.

I think one of the panels that all three of us attended that was kind of surreal for me as having been more on the other side my whole career was one on where organizations shared how they did outreach during redistricting. And it was a mixing of redistricting at the local level and at the state level.

2.0

So sometimes we had to parse it out, but it was interesting how they focused on us and how did -- how did we let the state commissioners know what we were thinking. And there's some lessons learned in just hearing from them that, you know, things that we can apply in our reports and such.

One of the things was we created certain -- and I've said this over and over again, but it was confirmed by being at this conference that we created certain processes, but we didn't create the policy. So for instance, we said the way to communicate to the commissioners was through the database.

And we created the forms and all the -- and to call in and stuff. And we were very clear from the very beginning. We were trained that we can't take redistricting information via different -- other venues. But the public noticed, oh, some commissioners are online. Some commissioners are on Twitter and this. And so they were purposely sending out saying, hey, these are the best strategies. And so I think for 2030, they all just need to create a policy and an agreement and stick to it.

I think the other piece -- and life is going to be different in 2030 than it was in 2020. And as we talked at the very beginning, you know, in the world of social media and technology, you know, we're continuing to muddle through it, but sharing our lessons learned is important.

There was a lot of excitement about democracy.

There was a lot -- I think one big piece that kept coming up was what was really difficult for everybody was that the state redistricting efforts were happening at the same time as the local redistricting efforts.

And usually, the state is mid-August and local is mid-December, so there's time to parse it out. But that groups were really stretched and had to choose to either do one or the other. So just to keep that in mind in the

conversations we have later about time lines and deadlines and stuff like that.

2.0

They had some great conversation around evaluation and how they're all doing evaluation that could be helpful. And one point I really liked was redistricting is a jackhammer to status quo. And that was from the Dolores Huerta Foundation. And I love it because I've been doing a lot of work with different clients around systems change, and we usually try to make tweaks to the system.

And the reality is the redistricting commission was actually throwing out the old system and creating a whole new system. And sometimes that's what you need to do.

And it was just a reminder to continue to embrace how innovative the folks who created that redistricting commission and that legislation -- and legislature and all that were. And that, in the work that we do outside of the redistricting commission, to sometimes remember that you need to take a jackhammer to systems and just rebuild them.

I'm going to stop there because I'm sure I've got tons and tons of notes. One thing that people kept saying is, we found your conversations around communities of interest and the playbook very helpful. They found that us struggling with things was very helpful to watch

1 that in public because then that increased their trust and understanding of what we were doing and helped them 3 in their thought process. And I will leave it there. 4 VICE CHAIR AKUTAGAWA: Thank you, Commissioner 5 Sinay. I see Commissioner Fornaciari. COMMISSIONER FORNACIARI: Thank you, Vice Chair 6 7 Akutagawa. Let's see. Three of us, myself, Commissioner 8 Akutagawa, and Commissioner Sinay, I believe, were 9 contacted by a consultant, Kathryn Hazelton (ph.). 10 is writing a report for Philanthropy California, giving 11 them feedback on funding for nonprofit work specifically 12 for redistricting. 13 And so I don't know. Commissioner Sinay and I spoke 14 with her for a couple of times for an hour each time or 15 so, maybe. So the first time was even a couple of hours, 16 but just giving her our thoughts and feedback. And she's 17 drafted a report with some feedback, and I think, some 18 really good insights and approaches for the next time 19 around, and some lessons learned. So just wanted to let 20 you all know that we participated in that. I'm not sure 21 when the report will be coming out, but I think she's 22 doing a nice job. 2.3 VICE CHAIR AKUTAGAWA: Thank you for sharing that. I do know that it's in the current draft phases and 24

are -- she is doing her fact-checking to make sure that

25

what we said was properly represented as well, too. I'm
not sure when it's intended to be released, though.

Commissioner Sadhwani, I see you next.

COMMISSIONER SADHWANI: Thank you. And hello to all. Great to see you all. I'm back after a summer not doing a whole lot of work, which was really nice for once. But I did want to share a little bit.

I think, as I had mentioned previously this fall,
I'm on leave from Pomona College, not teaching, and I
will be a visiting professor at Stanford University's
Bill Lane Center for (indiscernible) with Bruce Cain,
who's a political scientist and a longtime, you know,
person involved in redistricting here in the State of
California.

And so a part of that work, we're still kind of hammering out the details of what exactly that will entail. Some of what we have discussed is an assessment of not just California's redistricting process but of commissions nationally, and doing some writing and possibly even a survey of that. Though I know that — and I believe most of you have already talked with Christian Grose from USC who is, of course, also writing a report, I believe, in behalf of Common Cause on the redistricting cycle as well.

My understanding is that there's conversations

1 between Professor Grose and Professor Cain to have some sort of joint meeting or conference. I think all of those details are still being worked out, and I'm not 3 4 terribly involved in them. But I think that there is 5 some interest in doing some sort of joint meeting for that, and certainly probably someone else will let you 6 7 all know. But if I hear anything, I will certainly let 8 you know as well because I'm not really organizing all of 9 that. But I think there's -- there are assessments 10 underway here in the state as well as nationally. 11 I've also, quite some time ago, I had had a 12 conversation even with Megan Gall, who of course, had 13 been crunching a lot of the numbers behind the scenes 14 from our VRA work, and talking about what is that process 15 and what might we be able to add to the scholarly 16 literature about that process. 17 So many conversations underway but not a lot yet that's formalized, but I'll be happy to kind of report 18 19 back and involve anyone who wants to be engaged in that 20 process. 21 Beautiful. Thank you, Commissioners CHAIR TURNER: 22 Sadhwani, Fornaciari, and Sinay. And are there any other announcements before we move? 2.3 24 VICE CHAIR AKUTAGAWA: Actually.

Vice-Chair Akutagawa.

Yes.

25

CHAIR TURNER:

VICE CHAIR AKUTAGAWA: Yeah. I'll just make one announcement, myself. And I'm glad that you took over because then it doesn't make it so awkward. I just wanted to share with the full commission. I did share this with Chief Counsel Pane about a email that I received. It was just one of those blast emails from the Census.

2.0

They're taking public comment now around the 2030 census, and my thought in sharing it with him and whether or not it should be shared with the full commission was about what we, individually or as a commission, want to make any comments about the inclusion of federally incarcerated people numbers in the 2030 census so that, then, when the 2030 Commission receives numbers, it will, you know, possibly already be incorporated into the numbers.

I may be representing it wrong, but that was just generally my intent for sharing that email about the public notice of taking comments for 2030. Thank you.

CHAIR TURNER: Thank you. Commissioner Fornaciari?

COMMISSIONER FORNACIARI: Yeah. I just wanted to

comment on Commissioner Sadhwani's idea of working with

Megan Gall to, you know -- I guess my comment is anything

we can do to sort of open the veil on the analysis for

VRA, I think would be helpful and let people help

everyone understand a little bit more what is going on behind the scenes there. So thank you for that.

2.0

CHAIR TURNER: Thank you. And Commissioner Kennedy?

COMMISSIONER KENNEDY: Thank you, Chair. Two things in relation to -- first of all, in relation to what

Commissioner Akutagawa had mentioned. There's not only the issue of the federally incarcerated population. I fully support the Commission, as a whole, taking a position and submitting it to the Census Bureau in -- as part of this process.

One of the Lessons Learned inputs that I had noted was that the Commission was interested also in having some input regarding the treatment of populations originally from the Middle East and not treating those as simply white, allowing for a greater understanding of our population through making a change such as that. So on both of those counts, I would very much support the Commission taking a position and sharing it with the Census.

I also wanted to share that there was a recent posting on Sam Wang's newsletter entitled Gerrymandering on the Decline. Sam is with the Princeton Gerrymandering Project, and I read the posting but had a few comments to share. And I basically ran my thoughts through to Chief Counsel Pane, and so have -- I have posted a comment to

the -- to that article in Sam Wang's newsletter basically saying, you know, it's not just the fact of having a citizens commission that, you know, can resolve a lot of the problems with gerrymandering. It's the actual

parameters that are set for the redistricting process.

And that my own sense is that our shared understanding of and deep commitment to the parameters set out in the State constitution was the key factor in our success, not just the fact that we were a citizens commission. Thank you.

CHAIR TURNER: Excellent. Thank you for that, Commissioner Kennedy.

Okay. So with that, on the balance of our day, we will, to just kind of set expectation for those that are listening in -- thank you for that -- we will attempt to go to break by 11:00. We're going to go into our subcommittee updates. We'll be breaking, of course, by 11.

And I do want to announce that, after lunch, which we're striving for lunch about 12:45, we will go into closed session so that we can prepare for that. And we're expecting our closed session to last about an hour, hour and a half or so. And then we'll be back to complete our subcommittees. So we will, at this time, start with our subcommittee updates, and we will begin

```
1
    with Cybersecurity. So Commissioner --
 2
         COMMISSIONER KENNEDY:
                                Taylor?
         CHAIR TURNER: -- (indiscernible) Commissioner
 3
    Fornaciari --
 4
 5
         COMMISSIONER KENNEDY: Commissioner Taylor, do you
    want me to go or you? I'll go. That's fine. Is that
 6
 7
    okay? Or do you want to go?
         COMMISSIONER TAYLOR: No. Go ahead, Neal.
 8
 9
         COMMISSIONER KENNEDY: Okay.
10
        COMMISSIONER TAYLOR: I'm here for support, always.
                                       Thank you. So let's
11
        COMMISSIONER KENNEDY: Okay.
12
    see. As Director Hernandez mentioned in his report,
13
    we're working on identifying a database. They have
14
    identified a database in which to store our data to get
15
    it out of the Airtable and into a database. There's a
16
    state -- let's see. Snowflake is a database that is
17
    supported by the State. You know, the folks who are
18
    going to put our website and help -- or help manage our
19
    website now.
20
         And so the plan would be to move the data out of the
21
    Airtable into Snowflake, which again, is already on
22
    contract with the State and supported by the state
23
    entities. And so, you know, and it's fairly reasonably
24
    priced. So but what we need to do is put forward a
25
    contract for -- put out a request for proposals for a
```

contract to put together the -- to have somebody put together the user interface.

2.0

So the idea would be to have a similar user interface -- or similar capabilities that we have now for folks who search the database, the COI data, and you know, by all the various fields. Look at the maps, look at the shapefiles, you know, et cetera. Whatever can be done now, we want to have that capability for the future.

So we wanted to put forward a motion to authorize the staff to go ahead and put together that request for proposals. So I'll pause. I see we have a question at this point.

COMMISSIONER TAYLOR: If I can interject just a little bit. I think one of the key components that we have to say is that -- is that Snowflake will have the manpower to man this while we're off. Knowing that we're going to -- that we're going to scale down our staffing, Snowflake has the staff to manage this as we move forward in the next cycle.

CHAIR TURNER: Beautiful. Thank you. Commissioner Yee?

COMMISSIONER YEE: Thank you, Chair. Just curious. So with Airtable, what is the limitation or why the need to migrate out of it? Thanks.

COMMISSIONER KENNEDY: So it's not -- so Snowflake

- 1 is supported by the Department of Technology right now.
- 2 | It's part of a -- it's under state contract, and there
- 3 are people who work for the State who can support it.
- 4 Airtable is not. And so we will have, you know,
- 5 resources that we can reach back to, to make upgrades and
- 6 modifications. And if something breaks, they can fix it.
- 7 CHAIR TURNER: Executive Director Hernandez?
- 8 MR. HERNANDEZ: Yes. The other thing about Airtable
- 9 is the cost. I mean, the cost is considerable, and the
- 10 cost for this other solution is a lot less. And they do
- 11 | a lot of the maintenance. Whereas, here with Airtable,
- 12 | we need to have a technical person to be able to go and
- 13 | change anything or modify anything. And again, it's just
- 14 | a table, a database.
- The other thing, as we're transitioning over to more
- 16 of an archive, Airtable's not that product. And right
- 17 | now, it's just static information, but it's linking to
- 18 different sources. We have AWS storage. We have
- 19 Microsoft -- our Office 365 where we have some of the
- 20 documents that are linked to. So centralizing all the
- 21 | information in one location would be ideal and also
- 22 allowing us to put the links to the videos there is what
- 23 | we're looking at.
- 24 And Snowflake, the vendor that we're looking at, has
- 25 | the capability. We have a tremendous amount of files.

- 1 And you know, I don't know the terabytes, gigabytes, it's
- 2 | a large volume of that. And so we need to have somewhere
- 3 to store all of that information in one location versus
- 4 having it in multiple locations.
- 5 CHAIR TURNER: Thank you. Commissioner --
- 6 COMMISSIONER TAYLOR: And --
- 7 CHAIR TURNER: -- Fernández?
- 8 COMMISSIONER TAYLOR: I'm sorry.
- 9 CHAIR TURNER: Oh, I'm sorry. Go ahead,
- 10 | Commissioner Taylor.
- 11 COMMISSIONER TAYLOR: No. My understanding, too,
- 12 from the research done by staff, is that the cost to us
- 13 | will be somewhere between \$300 to \$600. And that's not
- 14 | counting what may be the cost to build a unit -- a UI
- 15 interface, correct, user interface?
- 16 CHAIR TURNER: Is that correct, Executive Director
- 17 Hernandez? He's asking.
- 18 MR. HERNANDEZ: That is correct. Sorry.
- 19 CHAIR TURNER: Okay. Thank you.
- 20 | Commissioner Fernández? Nope. That's what you
- 21 | wanted?
- 22 COMMISSIONER FERNÁNDEZ: I was going to ask about
- 23 the cost --
- 24 CHAIR TURNER: Yep.
- 25 | COMMISSIONER FERNÁNDEZ: -- so thank you.

Τ	CHAIR TURNER: Yep. Beautiful.
2	Commissioner Andersen?
3	COMMISSIONER ANDERSEN: Yeah. I was actually asking
4	about the cost as well. Is that annually or is this a
5	one-time deal, this 300, 600? And you know, there's an
6	ongoing cost. Is that to us or, you know, every year,
7	i.e. items we need to put in our budget for yearly, or is
8	this something that the State pays for? If you could
9	give us a bit more information on that, please.
10	MR. HERNANDEZ: So if I may, Chair. Sorry.
11	CHAIR TURNER: Um-hum.
12	MR. HERNANDEZ: The cost is annually for the
13	Snowflake. Right now, we're paying monthly approximately
14	\$700 for Airtable. And there's other add-ons that we
15	have included in there that probably up to \$1,000 that
16	were we're paying for. It would be part of the
17	Commission funds. We have included those costs in our
18	estimates, and they were included as part of the BCP, the
19	funds that we have received.
20	The other part of it, for the UI, we don't know what
21	the exact amount is going to be, but we do have funds
22	available for that as part of our website transition.
23	CHAIR TURNER: Thank you. Commissioner Kennedy?
24	COMMISSIONER KENNEDY: Thank you, Chair. Just want
25	to make sure that when this RFP goes out, that USDR is

1 among those that would receive it. I mean, we received such strong support from USDR in getting to where we are, and you know, their mission is to support entities such 3 4 as us in carrying out our mandate. So I would think 5 that -- and they do so much of their work on a pro bono basis that that might be a low-cost solution for getting 6 7 a user interface developed for the Snowflake backend. 8 Thank you. 9 CHAIR TURNER: Beautiful. And with that, there is a motion on the floor that we would look for second. Can 10 11 you repeat the motion, Commissioner Fornaciari? 12 COMMISSIONER FORNACIARI: Yeah. Sure. Let me get 13 it. I didn't actually say that there was a -- the 14 motion. 15 CHAIR TURNER: Oh. You just said needed one. 16 thought you --17 COMMISSIONER FORNACIARI: We need a motion, yeah. So here's the motion. I motion to approve staff to 18 19 pursue contracting for data storage services for the 20 website and COI data, including any user interface 21 services to allow for user access via the CRC website 22 with necessary vendors. 2.3 COMMISSIONER TAYLOR: And I would second that 24 motion.

So we have a

CHAIR TURNER: Beautiful. Beautiful.

1 motion and we have a second. And if there's more 2 discussion, we'll have that, and then we'll go to public comment before a vote. 3 4 Okay. Commissioner Andersen? 5 COMMISSIONER ANDERSEN: Thank you. I'm having trouble with the hand motion this time. Yes. I would 6 7 like to make sure that our -- who this RFP goes out to is 8 an extensive list because there's not just, say, state 9 items, but we have to have -- we have to cover both state 10 and private. Thank you. 11 CHAIR TURNER: Thank you for that. 12 Commissioner Fernández? 13 COMMISSIONER FERNÁNDEZ: Thank you. Commissioner 14 Fornaciari and Taylor, maybe I got confused. But the RFP 15 process, is the State, the OES or whatever they're 16 called, they're the ones that send out the RFP and go 17 through that process, correct? It's not us, right? 18 just want to make sure whose responsibility it is. 19 you. 2.0 CHAIR TURNER: You're on mute, Commissioner. 21 you go. 22 COMMISSIONER FORNACIARI: Yeah. So the intent --23 maybe I misspoke about the process, but the intent is to 24 give the staff -- allow the staff to go through the

process to get somebody in here to make a UI for us.

```
1
    I'm not sure exactly what that process is, but.
 2
         CHAIR TURNER: Executive Director --
         COMMISSIONER TAYLOR: (Indiscernible, simultaneous
 3
 4
    speech) --
 5
         CHAIR TURNER: Okay. Go ahead, Commissioner Taylor
    or Executive Director Hernandez. You can respond to
 6
 7
    that, and then we have Commissioner Andersen.
 8
         COMMISSIONER TAYLOR: Yeah. The motion, as I
 9
    understand, is to approve staff the ability to seek out
10
    those contracts, to empower them to do so. The
11
    contracting for the data storage services.
12
         CHAIR TURNER: Thank you. And I think there's a
13
    time element involved that would make that beneficial if
14
    that' the wishes and the vote of the Board.
15
         Executive Director Hernandez, were you going to add
16
    in to that?
17
         MR. HERNANDEZ: I was. So this is --
18
         CHAIR TURNER:
                       Okay.
19
         MR. HERNANDEZ: -- a process, an RFP process.
20
    would have to put a statement of work together and post
21
        And we will work with DGS to get that posting.
22
    far as sending it to individuals or specific groups, we
2.3
    can then forward the link for them to have access to that
24
    information, but it will be public information. It goes
25
    through a process that is essentially the contracting
```

1 process. 2 Beautiful. Commissioner Andersen? CHAIR TURNER: COMMISSIONER ANDERSEN: Yeah. Thank you, Chair. I 3 4 did, indeed, want to distinguish if it is an RFQ or RFP. 5 That's a very specific process, and I want to make sure whatever it is, that we're actually voting on the 6 7 correct -- what we're saying and voting on is, indeed, the same thing. And I think Executive Director Hernandez 8 9 has clarified that, and I'd be happy to help out with 10 reviewing any of the wording in that before it goes to 11 DGS. 12 CHAIR TURNER: Thank you. Executive Director 13 Hernandez? 14 MR. HERNANDEZ: Yes. I just wanted to clarify two 15 things. The RFP would be a statement of work for the 16 user interface. As far as Snowflake they are already a 17 vendor with the State, and we would not need to go 18 through that process. 19 CHAIR TURNER: Thank you. Are there any other 20 questions or comments? Then I'd like to go to public 21 comment, please.

PUBLIC COMMENT MODERATOR: The Commission will now be taking public comment for the motion on the floor. To give comment, please call 877-853-5247, enter the meeting ID number, 81282239720. Once you have dialed in, please

22

23

24

1 press star nine to enter the comment queue. 2 At this time we do not have any raised hands, and I 3 will let you know when the instructions are complete. CHAIR TURNER: Thank you. And while we're waiting 4 5 on that, we'll hear from Executive Director Hernandez. MR. HERNANDEZ: Yes, Chair. I just wanted to ask if 6 7 I can share my screen. It has the motion so everyone can 8 take a look at it. 9 CHAIR TURNER: Please do. 10 MR. HERNANDEZ: Thank you. 11 CHAIR TURNER: And Katy, how are we doing on the 12 announcement on the livestream? 13 PUBLIC COMMENT MODERATOR: The instructions are 14 complete and we do not have any raised hands at this 15 time, Chair. 16 CHAIR TURNER: So the motion reads "Motion to 17 approve staff to pursue contracting for the 18 (indiscernible) services for the website and COI data, 19 including any user interface, UI, services to allow for 2.0 user access via the CRC website with necessary venues." 21 Executive Director Hernandez? Your hand is still 22 up. 2.3 DIRECTOR HERNANDEZ: I'm sorry, hand will go down. 24 CHAIR TURNER: Okay. Commissioner Kennedy? 25 COMMISSIONER KENNEDY: Thank you, Chair. And I'm

1 agreeing with Commissioner Andersen. Let's make sure that we have our wording right and are actually voting on what it is that we think we're voting on. I mean, to me, 3 4 data storage services for the website and community of 5 interest data doesn't capture all the input on the mapping, for example. That was -- that came after the 6 7 communities of interest data. And I don't know, it seems 8 to me that we need to massage this a bit. I don't know whether the subcommittee wants to do that or if we want 10 to just hash it out here. 11 Well, I'm hoping we'll hash it out so CHAIR TURNER: 12 if there is an approval, we can set them forth to do the 13 work. So let's see how much time it takes. 14 Commissioner Andersen? 15 COMMISSIONER ANDERSEN: I would have Commissioner 16 Fornaciari go ahead of me as I think he probably has 17 (indiscernible) what I'm about to say. 18 Okay. Commissioner Fornaciari? CHAIR TURNER: 19 COMMISSIONER FORNACIARI: So Director Hernandez, 20 it's my understanding that -- and I believe what you just 21 said was we don't need to go out for an RFP for data 22 storage services since it's already -- since Snowflake is 23 already part of the state system. So what we need to go 24 out for is someone to build us a user interface. 25 we just eliminate "data storage services for the website

1 COI data, " and then eliminate "including any, " and eliminate those two words, too, it will just say "pursue contracting for user interface services." And that's my 3 4 understanding of what we're doing here, right? 5 CHAIR TURNER: Commissioner Taylor? Well, no. Commissioner Kennedy? 6 7 Thank you, Chair. Is it user COMMISSIONER KENNEDY: interface services or user interface development? And I 8 9 would also suggest we replace approve authorize -- a 10 motion to authorize staff to pursue contracting for user 11 interface development services to allow for user access 12 to all CRC data. And it's user face -- user interface 13 development services. 14 Again, my understanding is once the user interface 15 is developed, the state's Snowflake people would be able 16 to maintain what it is that we manage to get through this 17 contract to develop a user interface. But the 18 subcommittee can correct me if I'm wrong. Thank you. 19 CHAIR TURNER: I think services was still -- the 20 suggestion was for services to still be active 21 development. 22 Commissioner Andersen? 2.3 COMMISSIONER ANDERSEN: Yeah, I really like where 24 this is going. Development and services to allow for 25 user access to all CRC data. Do we need to include --

1 say including the website but also say the Shape California? Is CRC data covering all of it? And do we need to mention through the transition to the State 3 archives? 4 5 UNIDENTIFIED SPEAKER: Yeah. COMMISSIONER ANDERSEN: Yeah. So does this cover 6 7 it? CHAIR TURNER: Well, all perhaps would. 8 9 says all CRC data, but maybe it wouldn't hurt for 10 clarity. 11 Commissioner Taylor? 12 COMMISSIONER TAYLOR: Yes, I would be somewhat 13 hesitant for the Shape California because that's -- we 14 don't necessarily own that. The CRC data is what we own 15 and we have control of. We argued that that might be 16 inclusive in the data, but again, I would -- I would be 17 more inclined to say CRC data because that's what we 18 directly control. 19 CHAIR TURNER: And how are we feeling about, for me, 20 when it says access to all CRC data, I think it covers --21 and I could rest with all, and how are we feeling? Yeah? 22 Okay. 2.3 Commissioner Taylor, you have more? 24 COMMISSIONER TAYLOR: I do not. I did it 25 (indiscernible).

1 CHAIR TURNER: Commissioner Kennedy? COMMISSIONER KENNEDY: Thank you, Chair. And then, this is now down to fine tuning, if we can replace "allow 3 4 for" with "facilitate," because just because something is 5 allowed for doesn't necessarily mean it's all (audio interference). I'd prefer --6 7 CHAIR TURNER: Absolutely. COMMISSIONER KENNEDY: -- facilitate user access. 9 So remove the "for." There you go. 10 CHAIR TURNER: All right. We're looking good. 11 We're looking good. Motion to authorize staff to pursue 12 contracting for user interface development, services to facilitate user access to all CRC data. 13 14 Commissioner Andersen? COMMISSIONER ANDERSEN: I think it's development and 15 16 services, right? Because user interface isn't just --17 we're not just developing it to -- but it's also sort of 18 an ongoing. Isn't that -- the contractor is going to 19 make sure or is it just a one-time connection and then 20 they're gone? That's a question actually for the 21 subcommittee. 22 CHAIR TURNER: Um-hum, um-hum. 2.3 Commissioner Fornaciari, you want to answer that and 24 then you'll --25 COMMISSIONER FORNACIARI: I think it's -- I think

- 1 | it's a one-time development and then it'll be maintained
- 2 by the State. You know, I had something else to say but
- 3 | I forgot.
- 4 CHAIR TURNER: Okay, well keep your hand up. We'll
- 5 | go Fernandez. And then perhaps you'll remember.
- 6 Commissioner Fernandez?
- 7 COMMISSIONER FERNANDEZ: Actually, I'm raising my
- 8 | hand for Executive Director Hernandez, so.
- 9 CHAIR TURNER: Oh.
- 10 COMMISSIONER FERNANDEZ: It's his turn.
- 11 DIRECTOR HERNANDEZ: Thank you, Commissioner
- 12 | Fernandez. When I'm sharing the screen, I can't raise my
- 13 hand.
- 14 So what I wanted to make sure is that we're clear is
- 15 | that it's not so much to just pursue the contract. I
- 16 want to make clear that we want to go ahead and enter
- 17 | into the contract as necessary because time is of
- 18 essence. I don't want to delay then come back to the
- 19 commission September 21 to vote, that would put us back
- 20 quite a bit.
- 21 CHAIR TURNER: Um-hum.
- DIRECTOR HERNANDEZ: So it's not just to pursue, but
- 23 | I want to go ahead and enter into contracts or you know,
- 24 | for the contracting piece. So I wanted to bring that up
- 25 and see if we can wordsmith that to allow the staff to go

1	ahead and enter into contract.
2	CHAIR TURNER: Okay. Thank you for that clarity.
3	Commissioner Fornaciari?
4	COMMISSIONER FORNACIARI: Yeah, (indiscernible)
5	choose to make that change, to enter into a contract.
6	CHAIR TURNER: And did you think of your other
7	point, Commissioner Fornaciari?
8	COMMISSIONER FORNACIARI: Yeah, my other point was
9	going to be that before Chief Counsel Pane asked, I
10	accept these changes as the person who made the motion.
11	But I think I'll wait until Commissioner Andersen has
12	made her comment.
13	CHAIR TURNER: Thank you. Commissioner Andersen?
14	COMMISSIONER ANDERSEN: Thank you, Chair. Yeah, it
15	should be just to authorize staff to contract for user
16	interface. We don't need "to enter into." And then
17	thank you for that proposal to accept everything.
18	CHAIR TURNER: Commissioner Taylor?
19	COMMISSIONER TAYLOR: And before Commissioner
20	before Counsel Pane asks, I accepted as a secondary, I
21	accept the amendments.
22	CHAIR TURNER: Beautiful. Motion to authorize staff
23	to contract for user interface, development services to
24	facilitate user access to all CRC data. Looks like it's
25	a wrap. All right. (Indiscernible).

Commissioner Kennedy?

2.3

COMMISSIONER KENNEDY: Just a question, do we need to specify that this is -- facilitate user access to all CRC data via Snowflake? I don't know, otherwise, it's kind of out there floating.

MR. PANE: In the user interface, we don't have a vendor for that. Snowflake would be the data storage.

COMMISSIONER KENNEDY: Right, but to access all CRC data -- or held in Snowflake or something to reference that we're actually wanting a user interface or a Snowflake database.

CHAIR TURNER: Um-hum, um-hum.

Commissioner Andersen?

COMMISSIONER ANDERSEN: Yeah, that's a very good point. It's not specific. But rather than saying Snowflake, in case the State changes that in the next, you know, eight years, should we would just say to access all CRC data as held in state databases? In state -- I mean, Commissioner Fornaciari has the -- in state -- let me see. Access to all CRC data as in state archives, I guess. Contained in the State archives will work.

Yeah. I'm not quite sure. It's not all going into a State archive, or is it? And we're trying to get everything in the State archive, but I don't think -- yeah, I see Commissioner Fornaciari's nodding his head.

1 Okay, save us, Commissioner Fornaciari. 2 COMMISSIONER FORNACIARI: Yeah, I don't think it's important where the data is. I don't think it's 3 important to say where the data is. I think it -- our 4 5 user interface just needs to be able to access it wherever it is. That may change over time. But I think 6 7 what's important is that the user interface accesses all 8 of our data. And it may not all wind up in Snowflake for 9 whatever reason. There may be some data somewhere else. 10 And I think in -- and I think, I mean, I think 11 there's two separate things here. Right? So we're going 12 to have our data in this Snowflake database and that will 13 be ongoing real time access to it. I think a lot of our 14 information and data will also go to the State archives, 15 but I think that's two separate things. I think we're 16 maintaining our website and access to the data ourselves 17 and meeting our obligations to archive the data with the 18 State Archive. So I'm comfortable with it as it's 19 written, that it's going to capture everything that we 2.0 are intending here. 21 Thank you. Commissioner Andersen? CHAIR TURNER: 22 COMMISSIONER ANDERSEN: I'm concerned -- well. 23 Okay. This is not the actual RFQ because this is way too

nebulous. I think that's what we're just talking about

now. As they develop something, they will actually say

24

1 specifically for Snowflake. And then it also has to say where it's store -- where in -- all CRC data in its -- in 3 its storage locations. Because it will be multiple 4 storage locations. I don't know if we want to go ahead 5 and add that. And then the details will obviously be clear in our RFQ. 6 7 I think we do need to put in a storage locations 8 because that is what's changing. And right now, it could go, hey, boom, we're done. We've signed it right now. 10 know that's not what the RFQ's going to say, but it could 11 be implied by this motion. So I would like add access to 12 all our CRC data in its storage locations. 13 CHAIR TURNER: Okay. 14 COMMISSIONER ANDERSEN: In its digital storage 15 locations. In its digital storage location. 16 can add that now so we can put eyes on it. 17 CHAIR TURNER: Thank you. Commissioner Akutagawa? 18 Vice Chair? 19 COMMISSIONER AKUTAGAWA: Thank you, Chair Turner. 20 quess at the risk of just continuing this conversation a 21 little bit longer, I'll just make this comment real 22 quick. My understanding is that what's being requested 23 here is to give the staff the authorization to work out 24 the details. And I'm wondering if we're going to

continue, if we're going to constrain them if we try to

1 too clearly or too narrowly define what it is that
2 they're doing.

And I see that Commissioner Fornaciari has his hand up, so perhaps he can give a further clarification. But my understanding is that what we're just trying to do is to authorize the staff so that they can move on this given our time frame.

8 CHAIR TURNER: Um-hum.

work. Yeah.

COMMISSIONER AKUTAGAWA: So I'll stop here. Thank you.

CHAIR TURNER: That's right. Thank you, thank you Commissioner Akutagawa.

Commissioner Fornaciari?

what I was going to say. I think, you know, Commissioner Andersen was right. The details need to be included in statement of work. We're just authorizing them to go forward and put together a statement of work and get it out there. So I don't -- I mean, I was fine with it without the "in its digital storage location." I mean, that all needs to be clarified in the statement of work. And I think, you know, I agree with Commissioner Akutagawa that I think we're -- you know, we want to leave it open-ended enough for the staff to do their

```
1
         CHAIR TURNER: So with that, I'd like to thank our
 2
    cyber security team for giving us all of this latitude
   and discussion time. But we're feeling good about this
 3
 4
   motion and second as it currently reads. And so at this
 5
   point, I'd like to go to a vote.
 6
         DIRECTOR HERNANDEZ: Thank you, Chair. We'll go
 7
    ahead and begin here. Commissioner Vazquez?
 8
         COMMISSIONER VAZQUEZ: Yes.
 9
         DIRECTOR HERNANDEZ: Commissioner Yee?
10
        COMMISSIONER YEE: Yes.
11
        DIRECTOR HERNANDEZ: Commissioner Ahmad?
12
        COMMISSIONER AHMAD: Yes.
13
        DIRECTOR HERNANDEZ: Commissioner Akutagawa?
14
        COMMISSIONER AKUTAGAWA: Yes.
15
        DIRECTOR HERNANDEZ: Commissioner Andersen?
16
         COMMISSIONER ANDERSEN: Yes.
17
        DIRECTOR HERNANDEZ: Commissioner Fernandez?
18
        COMMISSIONER FERNANDEZ:
                                  Yes.
19
        DIRECTOR HERNANDEZ: Commissioner Fornaciari?
20
        COMMISSIONER FORNACIARI: Yes.
21
         DIRECTOR HERNANDEZ: Commissioner Kennedy?
22
         COMMISSIONER KENNEDY: Yes.
2.3
        DIRECTOR HERNANDEZ: Commissioner Le Mons?
24
         COMMISSIONER LE MONS: Yes.
25
         DIRECTOR HERNANDEZ:
                              Commissioner Sadhwani?
```

1	COMMISSIONER SADHWANI: Yes.
2	DIRECTOR HERNANDEZ: Commissioner Sinay?
3	COMMISSIONER SINAY: Yes.
4	DIRECTOR HERNANDEZ: Commissioner Taylor?
5	COMMISSIONER TAYLOR: Yes.
6	DIRECTOR HERNANDEZ: Commissioner Toledo?
7	COMMISSIONER TOLEDO: Yes.
8	DIRECTOR HERNANDEZ: And Commissioner Turner? Chair
9	Turner?
LO	CHAIR TURNER: Yes.
L1	DIRECTOR HERNANDEZ: Thank you. The motion's
L2	passed.
L3	CHAIR TURNER: Wonderful. And with that,
L 4	cybersecurity, do you have anything else?
L 5	Okay. So we're at about 17 minutes, 18 minutes
L 6	before break. But we will go ahead and move on now to
L 7	our next subcommittee, which is our legislative and long-
L 8	term planning. Perhaps in that time period, we can set
L 9	it up and get ready for that discussion. Thank you.
20	So who's going to take the first? Commissioner
21	Fernandez?
22	COMMISSIONER FERNANDEZ: Okay. Oh, I see. All
23	right. I guess I so we there were three or four
24	documents four handouts that were posted. Hopefully
25	you can hear me. The first one that we'd like to go

1 over, since we're in this motion mode, is the proposed legislative changes move forward, 8/31/2022. It's the 3 one-page document. Is Anthony still on? I can't see 4 him. Oh, Anthony, would you mind sharing that one, that 5 page? MR. PANE: Sure. I'm just going to pull it up here 6 7 from --COMMISSIONER FERNANDEZ: Thank you, it's just the 8 9 webpage. MR. PANE: -- the website. 10 11 COMMISSIONER FERNANDEZ: And I did want to report, 12 it is on the report, but I wanted to report out that AB-13 1848, that's the one requiring reallocation of state 14 incarcerated people to their last known place of 15 residence, has moved forward to the governor's office and 16 is waiting for his signature. So hopefully that will 17 happen soon. 18 And so on -- this was a similar document that we've 19 had in the past. And what we did this time is we moved 20 up items number 5 and 6. We went through all of this 21 last time, and 5 is clarifying what a day is and defining 22 mapping deadlines. And based on our conversation last 23 month at our last meeting, the Commission agreed with 24 Option B, which is the uninterrupted 24-hour day. And

then number 6 is the ability to hire outside counsel

without the attorney general's prior approval. Again, that language was shared with the Commission last time and there were no comments. That was actually a really simple edit.

And so what our goal today -- and then, I will briefly go over 7 and 8, three-days public notice three months prior to the final map date in the year and in number one. And then also number 8, clarifying that taking public comment during regular non-mapping business meeting does not constitute receiving input on redistricting matters.

Those two, numbers 7 and 8, there wasn't consensus, there was lots of discussion. So what we're going to do, we left it on this spreadsheet for today, but we're going to do -- and as you'll see in the other spreadsheet, is we're going to move it to the other spreadsheet because we still require further discussion. And then maybe -- the discussion, may be we don't do anything with it.

CHAIR TURNER: Um-hum.

COMMISSIONER FERNANDEZ: So for now, we're going to -- we want to have this one-page document with items that, as a Commission, we've agreed to move forward with. Items 1 through 4, as a Commission, we've already voted on as a Commission to move forward. And what I'm asking -- what Commissioner Akutagawa and I are asking

1 for is a motion to move forward with items number 5 and 2 6.

And when I say move forward, that's to move forward with working with trying to find someone to author a bill for the next cycle for us. And so we would include items 2 through 6. That's what we would try to include for the next round of the legislative process.

CHAIR TURNER: And Commissioner Fernandez, let me just check in.

Commissioner Kennedy?

COMMISSIONER KENNEDY: Thank you, Chair. I have a question regarding number 6. Having reread it -- and this is a question directed to Chief Counsel Pane -- if we go to -- I mean, if we look at the Government Code Section 11-041, it says "Section 11-042 does not apply to" and the long list. And then down at the bottom it says, "nor to any other state agency, which by law enacted after Chapter 213 of the statutes of 1933, is authorized to employ legal counsel." And so if I look at Article 21 of the State Constitution, Section 3, subsection A, where it says "the Commission has sole authority to determine whether the attorney general or other legal counsel retained by the Commission shall assist in the defense of the certified final map."

I mean, are we -- to me, that begs the question, are

```
1
    we already authorized to employ legal counsel? And
    therefore, we don't need to be included in this
 3
    specifically because we're already included essentially
    by reference. So I'd appreciate Chief Counsel Pane's
 4
 5
    thoughts on that.
                       Thank you.
         MR. PANE: Sure. Commissioner Kennedy, I'll --
 6
 7
    truthfully, I'll have to look at that piece you just
 8
    cited. I'll let you know that we -- just as a bit of a
    background on this, we've tried to engage the Attorney
10
    General's office just to take their temperature on this,
11
    just to make sure, you know, they're comfortable being
12
    added to the list. I will absolutely get back to you and
13
    let you know if this is something that's -- I think what
14
    you're saying isn't moot, essentially. You know, at
15
    first glance, I'm not clear that it is, but I'm happy to
16
    look into that and circle back with you on that.
17
         CHAIR TURNER:
                       Um-hum.
                                 Thank you.
18
         Commissioner Andersen?
19
         Oh, I'm sorry you had more.
20
         MR. PANE: Well, if I could share just a quick brief
21
    and aside, I think, nevertheless, we could still move
22
    forward to recommend this today. And if it's something
23
    that we're clear on, and that would -- frankly, would be
24
    something I would also want to run by the Attorney
```

General's office to make sure that they're on the same

1 page. If that's the case and it truly is moot, then I think that's something we can -- that can come off the 3 list. 4 I will tell you just by prior -- and this is just an 5 indication, it's not definitive -- the Attorney General's 6 office currently is of the opinion that we would need an 7 exemption. But that's not to say that we couldn't have 8 further discussions about what the existing law is. 9 CHAIR TURNER: Thank you. Commissioner Andersen? 10 11 COMMISSIONER ANDERSEN: Yeah. I was just going to 12 say I also read it as Commissioner Kennedy did and 13 thought the same. But I was going to propose what Chief 14 Counsel Pane says. Let's leave it on and clarify, and if 15 it is moot, pull it off at that point. So if you'll just 16 keep me in the loop as well, I'd appreciate that. 17 you. 18 CHAIR TURNER: Okay. Commissioner Fernandez? 19 COMMISSIONER FERNANDEZ: Yes. If there aren't any 20 other questions, I would like to -- I think Commissioner 21 Andersen just made a motion. Was that a motion, 22 Commissioner Andersen? Or was that --2.3 COMMISSIONER ANDERSEN: Not quite. Would you like 24 me to make one? 25 COMMISSIONER FERNANDEZ: Sure. That'd be great.

1 Only if you're comfortable, of course. 2 COMMISSIONER ANDERSEN: I move that we move of -clarification before I try to make a motion. What is --3 4 no, I will make a motion. I move that we forward items 2 5 through 6 -- we move forward with items 2 through 6 as suggested by the subcommittee. 6 7 CHAIR TURNER: Is there a second? COMMISSIONER FERNANDEZ: I would recommend that it 9 just be that we move forward. And it really is just 5 10 and 6, but we can include 2 through 6, that's fine with 11 me, we can do it twice. That the Commission move forward 12 with items 2 through 6 in the proposed legislative 13 changes moving forward document dated August 31st, 2022. 14 Because I wouldn't want to say as suggested by the 15 subcommittee, because I just want to show that we're just 16 moving forward with those topics. To be --17 CHAIR TURNER: Commissioner Andersen? 18 COMMISSIONER FERNANDEZ: -- (audio interference) 19 it's process. 2.0 COMMISSIONER ANDERSEN: I'm going to pull my motion 21 and allow Commissioner Fernandez to make that lovely 22 motion she has put on the table. 2.3 CHAIR TURNER: Okay. 24 COMMISSIONER FERNANDEZ: I don't know. Commissioner 25 Akutagawa, did that sound about right?

1	COMMISSIONER AKUTAGAWA: Yes, that sounds about
2	right.
3	COMMISSIONER FERNANDEZ: Okay. Thank you.
4	CHAIR TURNER: And Executive Director Hernandez, did
5	you capture that?
6	COMMISSIONER FERNANDEZ: He's asking me right now.
7	That we move forward with items 2 through 6 in the
8	proposed legislative changes move forward document dated
9	8/31/2022.
LO	CHAIR TURNER: Beautiful. Is there a second?
L1	COMMISSIONER FERNANDEZ: Keep going.
L2	COMMISSIONER AKUTAGAWA: I will second.
L3	CHAIR TURNER: For the where are we? For the
L 4	legislative subcommittee, are there other items that will
L 5	require a vote?
L 6	COMMISSIONER AKUTAGAWA: That is not our intent,
L 7	Chair Turner.
L8	CHAIR TURNER: Okay. Okay. So we're at 10:53.
L 9	What we can try and do is let's see if we have any other
20	discussion. We'll do public comment, anticipating that
21	it perhaps will not take us past break, and maybe we can
22	get this voted on and completed before we go to break.
23	Commissioner Fernandez?
24	COMMISSIONER FERNANDEZ: I just wanted to make sure
25	that our Chief Counsel Pane was is that the correct

1	or actually, Executive Director Hernandez, if you could
2	share the motion? I just want to make sure the language
3	is correct.
4	CHAIR TURNER: Um-hum.
5	COMMISSIONER FERNANDEZ: Thank you. He's correcting
6	spelling errors. I don't know if he wants Linda, Jane,
7	and Ida.
8	CHAIR TURNER: Okay. So we have it reading motion
9	that we move forward with items 2 through 6 in the
10	proposed legislative changes move forward.
11	(Indiscernible) because that's the name of it. Okay.
12	Motion that we move forward items 2 through 6 in the
13	proposed legislative changes moved forward document. And
14	you want it M-O-V-E-D if we're going to match the sheet
15	dated 8/31/22.
16	So for the motion and the second, does that appear
17	correct?
18	COMMISSIONER FERNANDEZ: Yes, it looks good.
19	CHAIR TURNER: Okay. Public comment, please.
20	PUBLIC COMMENT MODERATOR: The Commission is now
21	taking public comment for the motion on the floor. To
22	give comment, please call 877-853-5247. Enter the
23	meeting ID number 812-8223-9720. Once you have dialed
24	in, please press star nine to enter the comment queue.
25	And we'll let you know when the instructions are

1 complete, Chair. 2 The instructions are complete and we do not have any 3 raised hands at this time. 4 CHAIR TURNER: Thank you. Then let's take a vote, 5 please. Executive Director. 6 DIRECTOR HERNANDEZ: Yes, Chair. Commissioner 7 Vasquez. 8 COMMISSIONER VAZQUEZ: Yes. 9 DIRECTOR HERNANDEZ: Commissioner Yee? 10 COMMISSIONER YEE: Yes. DIRECTOR HERNANDEZ: Ahmed? 11 12 COMMISSIONER AHMED: Yes. 13 DIRECTOR HERNANDEZ: Commissioner Akutagawa? 14 COMMISSIONER AKUTAGAWA: Yes. 15 DIRECTOR HERNANDEZ: Andersen? 16 COMMISSIONER ANDERSEN: Yes. 17 DIRECTOR HERNANDEZ: Commissioner Fernandez. 18 COMMISSIONER ANDERSEN: Yes. 19 DIRECTOR HERNANDEZ: Fornaciari? 20 COMMISSIONER FORNACIARI: Yes. 21 DIRECTOR HERNANDEZ: Commissioner Kennedy? 22 COMMISSIONER KENNEDY: Yes. 2.3 DIRECTOR HERNANDEZ: Commissioner Le Mons?

DIRECTOR HERNANDEZ: Commissioner Sadhwani?

COMMISSIONER LE MONS: Yes.

24

1 COMMISSIONER SADHWANI: Yes. 2 DIRECTOR HERNANDEZ: Sinav? COMMISSIONER SINAY: 3 Yes. 4 HERNANDEZ: Commissioner Taylor? 5 COMMISSIONER TAYLOR: DIRECTOR HERNANDEZ: Commissioner Toledo? 6 7 COMMISSIONER Toledo: Yes. DIRECTOR HERNANDEZ: And Commissioner Turner, Chair 8 9 Turner? 10 CHAIR TURNER: Yes. 11 DIRECTOR HERNANDEZ: The Motion is passed. 12 CHAIR TURNER: Thank you. At this time, we're going 13 to go ahead and take our break. We will return at 11:15 14 and continue with the legislative long-term planning 15 subcommittee. 16 Thank you, we'll see you at 11:15. 17 (Whereupon, a recess was held from 10:56 a.m. 18 until 11:15 a.m.) 19 CHAIR TURNER: And we'll -- we'll go, Katy. 20 PUBLIC COMMENT MODERATOR: Thank you so much. we are live. 21 22 CHAIR TURNER: Good morning still and welcome back 23 to our August 31st California Redistricting Committee 24 Business Meeting. We are returning now from break. And 25 if you are just now joining us, you're joining us at a

time where we're on agenda item number three, having our discussions in regards to the subcommittees. And we will continue at this time with our subcommittee, Legislative and Long-term Planning.

VICE CHAIR AKUTAGAWA: Okay. I am going to take over from here for a portion of this, I think. I want to direct everybody to a document. It is a five-page document titled, "Potential CRC Legislative Changes - August 31, 2022 meeting." I don't -- let's see, I think -- ABP edit, et cetera, et cetera. So I just want to make sure that we are all on the same document. I believe that is the document. It's opening up a lot of them today. Okay. And on the website, I'll just name what's on the website, too. On the website it is -- it is titled "Potential Legislative Changes - 8/31/22" -- "8/20/2022."

I just want to make sure that everybody is on the same document. So it isn't a five-page document. And you'll see that it is rather colorful. And I wanted to just start by just explaining our color coding. So you'll see at the very top it is labeled "C-1: Areas moving forward or resolved." We just completed this part before the break. And as you'll see on line A, it is in one color, that is the one that is now moving forward and has reached the governor's desk in the form of AB-1848.

The color-coded hot pink ones for B, C and D were just voted as part of the previous motion to move forward with further discussions with the legislative side to find a potential sponsor or author in the legislature -- in the legislature. The two in gray, it is labeled number 1- and 3-B. These were just numbers that reported over from previous documents. These are the other two that were discussed as part of B, C and D that just moved forward as part of the vote. So I just wanted to just name that.

Number -- in the kind of teal blueish, I don't know if that's the right color for it, but aqua, that's the right color, aqua-colored coding. They're the two -- two rows. We have number 2- and 3-C that again labeled -- labels that were ported over from before. This is around, "fully functional and strikes by the legislature." These were also noted on the previous documents as one that -- ones that are being tabled from right now requiring further discussion. And so I just wanted to note that.

In the next one you'll see it's kind of like a reddish-brown color. Again, these two were -- these colored ones, 4-B, and then there are two that are not labeled. These were ones that were also tabled as well, too.

Next, I want to just take us down to the area that is noted or labeled. "C-2: Areas requiring further discussion." This is the labeling at the top. This is on page number 3 of the document. These are the areas that in previous Commission meetings we hadn't had much other discussion or there's further discussion that is required from previous discussions. And so just starting at the top, we have one that is labeled E, this is, "Three days public notice, three months prior to the final map date in the year ending in the number one." And our previous discussion took place at the meeting that we held on July 13, 2022, draft language was shared with the full Commission and where we ended was that further discussion was required by the Commission on this particular issue. And so Commissioner Fernandez, is there -- is there anything else that you might want to add to what I've said so far on the previous sections or on this one? was just thinking we could just go in order, as we've been doing in previous meetings and then just trying to move these topics along. Okay. COMMISSIONER FERNANDEZ: Yeah. VICE CHAIR AKUTAGAWA: So --COMMISSIONER FERNANDEZ: So just want --VICE CHAIR AKUTAGAWA: -- yeah.

24

COMMISSIONER FERNANDEZ: -- to add just a little

bit. So that was -- thank you, that was wonderful. Our

goal is to try to at least get through the remainder and

then put them in categories if we need to put them in

categories in terms of maybe -- maybe it's something that

we are just not going to pursue further, which is fine.

Then we move it up to another -- or we discuss it at a

future meeting but the goal is to try to get through

them. And if not, if -- if time doesn't allow, that's

fine, too. We can always finish at the next meeting.

Thank you, Commissioner Akutagawa.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner

Fernandez. So let's just start with this line E, "Three days public notice, three months prior to the final up map date in the year ending in the number one." And I want to just invite any comments. Commissioner

Fernandez.

COMMISSIONER FERNANDEZ: If we do move forward with something similar to that -- I know in the last meeting there was discussion about maybe just noting between the draft maps and the final maps. But regardless of how we move forward, I do recommend we remove the language, "in the year ending in the number one," because we don't know what the future is going to hold. If there's going to be some other type of pandemic or delay in census. But I

would just recommend that we remove, "in the year ending in the number one." Thanks.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner Fernandez.

Commissioner Kennedy.

COMMISSIONER KENNEDY: Thank you, Commissioner

Akutagawa. There are two -- two things here. One is,

we've gotten a lot of input from community groups who are

concerned that we would not be allowing sufficient time

for public review of maps. So what we have to do, I

think, is a better job of distinguishing between public

notice of a meeting and the time allowed for inspection

of draft maps.

And to clarify that, as I understand it at least, we're not shortening any existing requirement for a public -- appearing for public inspection of maps. The only thing that we are trying to do with this, as I understand it, is to reduce the number of days required for any commission meeting during that period.

And to clarify that by having a shorter requirement for notice of meetings during that period, we would also be able to provide greater specificity in the agendas for such meetings, because we've also heard from some folks that, you know, it's hard to make a determination whether to follow a meeting or what part of a meeting to follow

if the agendas are just generic.

2.3

So if what we really are trying to do is to simply shorten the amount of time required for public notice of any meeting, which would enable us to provide greater detail on what we will be discussing during those meetings and when we will be discussing it, I think we could lay to rest a lot of the concerns that have come to us in relation to this proposal. Thank you.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner Kennedy, for calling out that distinction.

Commissioner Fornaciari.

COMMISSIONER FORNACIARI: Yeah. I just want to add on to -- I agree with everything that Commissioner Kennedy said. I think that this might require a conversation with those who organized -- a sit-down conversation with those organizations to provide that kind of clarity.

But I agree with the clarity that he provided. But there may need to be some back and forth with those organizations to hear what their concerns are and to see if we can come up with language that alleviates those concerns.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner Fornaciari.

Commissioner Kennedy.

COMMISSIONER KENNEDY: If I'm not mistaken, we have received public comment from them in writing that has been posted on the website for a meeting a couple of months back. And we are certainly here, open to public comment, you know, here and now is a great time to have that back and forth. Thanks.

2.3

VICE CHAIR AKUTAGAWA: Thank you, Commissioner
Kennedy. You're right. We did receive public comment
from some of the CBOs.

Commissioner Sinay, I think you had your hand up. Okay.

COMMISSIONER SINAY: I would say we received comments, but it wasn't a back and forth like we have done in the past when we're trying to create changes in policy and we could invite them to the actual meeting and have a dialog versus using the -- they can call in but calling in, we're actually not supposed to do back and forth during call-in.

So I would rather, we do invite them in and have a clarification. Because as I was reading this and then reading what the prior wording was, I think there's some confusion in the public what we're changing and what we're not changing. And so I think that it would be good to invite more than one person to come and speak to us from several different organizations just to have a

- broader perspective and see if we come up with something in the public. And if we don't, then we as a Commission make our decision.
- VICE CHAIR AKUTAGAWA: Thank you, Commissioner

 Sinay.
- 6 Commissioner Fernandez.

9

24

- 7 COMMISSIONER FERNANDEZ: Thank you, Commissioner 8 Akutagawa.
 - Commissioner Kennedy, I just want to make sure -- I kind of cut out a little bit. I just want to make sure I understood what you said. And it had to do with, we would still adhere to the 10- or 14-day agenda but just the ability to amend the agenda. Was that correct? No. Okay. All right. Thanks. I'm sure you'll clarify it for me.
- 16 COMMISSIONER KENNEDY: If I may, Chair.
- 17 VICE CHAIR AKUTAGAWA: Yes, go ahead, Commissioner
 18 Kennedy.
 - COMMISSIONER KENNEDY: Thanks. The distinction is that we are seeking to change the number of days required for public notice of a meeting. We are not trying to change the number of days that we are required to have maps out for public review. Because it, my sense from the feedback that we've gotten from community-based organizations is their concern is that we are shortening

the time that they have to review draft maps at that stage in the process. And they don't want that and I wouldn't want it. But what we are proposing is merely reducing the number of days' notice required for us to have a meeting.

And as I said, that would enable us to provide greater detail in the agenda rather than just having aboilerplate agenda and scheduling meetings every day because we don't know which ones we're going to be able to use or need to use and which ones we're not going to be able to use. If the requirement is three-days' notice for a meeting, we would be able to provide greater detail, greater certainty, both in the number of meetings scheduled, and in the detail of the agendas for those meetings. Thank you.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner Kennedy.

Commissioner -- Chair Turner.

CHAIR TURNER: Thank you, Vice Chair. I certainly am not against inviting public in for -- if a back and forth is needed but that -- that is what, Commissioner Kennedy, what I understood you to say. And my initial question was to just state on this particular topic, if we see three days' public meeting notice, I wonder if just inserting "meeting" would clarify our intent so that

it's not misunderstood or -- or, you know, the mapping

process -- none of that's tied. So if we're as to say

the request would be three days notification for public

meetings prior to the final map, if that'll clear some of

it up?

COMMISSIONER AKUTAGAWA: And I see Commissioner

Kennedy nodding his head in agreement, Commissioner -
Chair Turner, thank you.

Okay. I think what I -- what I've heard is to what Chair Turner just suggested and -- and also what Commissioner Kennedy has brought up as a distinction is that, if this were to be amended to specifically state that the three-days' notice would be for the public meeting, not for the review of the draft maps -- if this were to be amended in that way, would this be the intent of the proposal to change this?

And I can't remember who actually proposed this particular change. And is there any other comments from the other Commissioners about this clarification? And would this be something that would be acceptable to the Commissioners? And then we would also, of course, want to hear from the different organizations on whether or not this clarification, this distinction about it being about the noticing of the public meetings.

Commissioner -- Chair Turner.

CHAIR TURNER: Yeah, I think it addresses it. And so I just wanted to respond to your question. I think it does address and brings a lot of -- so it gets rid of all of the ambiguity as far as what we're talking about. So thank you.

VICE CHAIR AKUTAGAWA: Okay. Great. So with that,

2.0

2.3

Commissioner Fernandez, if we were to make a clarification on this, I believe then, it seems like just from -- perhaps I'm going to take silence as consensus in this case and also the affirmation from Chair Turner. If we were to make this change, it seems like we might be able to move forward on this particular topic area.

COMMISSIONER FERNANDEZ: Yes. What we can do is we can draft some language and then bring it back to the next meeting. And then if the Commission is comfortable with moving forward, we could vote to move forward. But yes, so we could go back and if there's other items as well, we can also bring those forward at the next meeting as well. Thank you.

VICE CHAIR AKUTAGAWA: Great. Thank you very much. And just as a reminder to the organizations or anybody who's listening in, we will be taking public comment afterwards -- after all the subcommittees are done. So you'll have time to listen to everything. So why don't you just note that?

1 Okay. So that means we can move on from row E. 2 We'll now move on to Row 3-A --3 CHAIR TURNER: Vice Chair, you have a hand up. VICE CHAIR AKUTAGAWA: Oh, I'm sorry. Commissioner 4 5 Fornaciari, sorry, I missed you there. COMMISSIONER FORNACIARI: Yeah. Let's see, I would 6 7 just offer to have you also look back at the letter from 8 the League of Women Voters from May 12th. I just briefly 9 browsed through it. And I'm not sure those changes will 10 address their concern but it's worth looking at in more 11 detail. 12 VICE CHAIR AKUTAGAWA: Thank you for flagging that. 13 And we will go ahead and we will -- we will review that 14 letter again and see if that, if -- if what we just 15 discussed might address their concerns. Okay? 16 Okay. Let's move on to row 3-A. This one is "Clarify taking public comment during regular non-mapping 17 18 business meetings does not constitute receiving input on 19 redistricting matters subject to a 14-day meeting 2.0 notice." 21 We did have a prior discussion -- or prior 22 discussions both at the June 1st meeting and the July 23 13th, 2022 meetings. Last time we spoke, there was some 24 disagreement on the definition and it required further 25 discussion by the Commission. And I want to see if

anybody wants to start a discussion on this. And I will note that there were at least three people who felt that this was a worthwhile conversation, given that he had three votes. Thank you. Commissioner Fernandez.

COMMISSIONER FERNANDEZ: Thank you. And if -- and if we don't have further conversation today, that's fine, too. We can always just move it down on the list and then continue to discuss the other items. Thanks.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner Fernandez. Okay.

Commissioner Yee.

COMMISSIONER YEE: Yeah. I think I was one of the votes to continue pushing this. I mean, it just made sense to me since there was divided opinion about what constituted receiving public input. And you may recall our initial counsel advice was to be very conservative on the matter and to consider any possible public input by any stretch of the imagination to fall under the 14-day notice.

Just to clarify that, to settle the question and give the next commission more freedom when it comes to giving notice to have to not be 14 days out, which, you know, was always cumbersome. So I still think it's a good idea.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner Yee.

Commissioner Sinay, I did see your hand up earlier. Did
you still want to comment?

COMMISSIONER SINAY: I mean, I guess for me when I was reading this -- if we were going -- if we would have been -- let's say looking back, you know, and being a Monday quarterback or whatever it's called. But if we were going to be consistent, receiving input on redistricting matters would have been a narrow definition like we used in other cases.

Our definition of redistricting matters is very narrow. And so that I agree with what Commissioner Yee was saying, that it wouldn't be the 14-day meeting notice. That it would be shorter.

VICE CHAIR AKUTAGAWA: Okay. Thank you.

15 | Commissioner Sinay, did you want to --

COMMISSIONER SINAY: Yeah. No, I had a second thought and that's why I raised my hand again. I guess my thought is, you know, in a way, I'm putting two pieces together that we've discussed. What does redistricting matters mean? And as well as, and then this piece. And I'm still a believer that what redistricting matter means should be left to the Commission to struggle with and come up with their own definition. We as a Commission had -- yeah, did that -- and we agree that it was the specific matters around drawing lines. And so I just

want to remind us that if we say one thing in one -- you know, that we just need to be consistent in what we're saying in this one and what we're saying in the other one.

2.3

VICE CHAIR AKUTAGAWA: So Commissioner Sinay, just to make sure that I'm understanding what you just said. So if I'm hearing you correctly, what you're saying is that given that we said that redistricting matters and its definition should be left up to the next commission, we should also then allow this to also be decided by the next commission to remain consistent.

COMMISSIONER SINAY: Sort of -- you're on the right -- yes, you did. My brain might have not been as linear as it should be. Yes. But what I think we were missing was that connection between how we were defining redistricting matters and this meaning to be changed.

And I'm saying we as collectively because I know

Commissioner Kennedy was very good at bringing it up to us and we didn't move on it but if there is a way for the future commissions to know, hey, once you define this, then you can look at this piece, is kind of what I'm saying.

VICE CHAIR AKUTAGAWA: Okay. Thank you, Commissioners Sinay.

Commissioner Kennedy.

COMMISSIONER KENNEDY: Thank you. Commissioner Akutagawa. I'm wondering if another way to -- to approach this and perhaps get through it is to put more of a -- rather than saying non-mapping business meetings, if we said, "Business meeting prior to the receipt of redistricting data from the statewide database" or "prior to the release of data by the Bureau of the Census," whether that would allow us to make some progress on this. I mean, I do understand. I do take the point of, you know, commissions having some margin for discussion, their own discussions in the future as to what this means. But in my -- my concern was much more in the early days when we were trying to make a lot of progress on a number of things and a 14-day posting requirement, or what we interpreted as a 14-day posting requirement just seemed a bit much and excessive. And you know, even if we leave things as they are for the time period following the release of the census data by the Bureau of Census, or the receipt of districting data from the statewide database by future commissions, that if we can at least make that much progress and leave the rest to future commissions, I think we will have made their lives easier. Thank you. VICE CHAIR AKUTAGAWA: Thank you, Commissioner

Kennedy.

Commissioner Yee.

COMMISSIONER YEE: Yeah. I appreciate Commissioner Kennedy's option there. But I'm thinking, you know, even after the data drops, there are still -- there were still business meetings. And we're not mapping meetings. So in which case, you know, the shorter notice could be useful.

Also to Commissioner Sinay's point. Yeah. This doesn't require shorter notice. It just simply allows for it. So the future commission still has the option of having a full 14-day notice from the get-go if they wanted to. It just allows -- would allow them to give shorter notice if they chose to do so.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner Yee.

Commissioner Andersen.

COMMISSIONER ANDERSEN: Yeah. Thank you. Yeah

the -- this all sort of -- we were all basically in total

agreement on this and just couldn't quite come up with

the wording on it because we kept on being thrown by:

What's public input? What is redistricting matters? And

that's why we consult on non-mapping. And I still sort

of think -- I know that it's nebulous but non-mapping

business meetings is what we're talking about here. And

that's -- if you can -- I like Commissioner Kennedy's

idea of the time frame but I -- it was exactly what

Commissioner Yee just said. We also had to some business
meeting right in the middle of, you know, map, map,
look, we just have to get the business stuff done here -didn't talk of maps at all.

And so I sort of like the idea if we could come up of a more linguistically, you know, non-mapping. But even if we leave it in quotes as "non-mapping business meeting," the 10-day notice -- it does help the commission, particularly in those beginning days when we are trying to -- oh, we didn't realize -- oh, now we have to put feet together for -- that's how you hire, you know, our communications director.

But you know, that -- we do -- the next commission and from then on will need that help. You know, they don't have to take it but I think we should give it to them. And so I kind of like the non-mapping business meeting, unless somebody can come up with linguistically something better. But that is certainly the intent of it.

So I was going to come back and -- I think we should visit the item we were stumbling on. But I think we could move forward on some of these. And I would like us to see -- I would like us to do that.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner
Andersen.

Commissioner Fornaciari.

2.3

COMMISSIONER FORNACIARI: I'm going to make the same comment I made on the last one talked about. I think we need to look at the letter from the League of Women Voters. It touches on this topic, too. And my recollection of a comment -- the call-in common comment that said it was a nonstarter for them. And I think without having a conversation with these organizations, we're just spinning our wheels here and we're not going to make any progress. And if we, you know, if we spend days and days on this in a vacuum without their input and concurrence, you know, we're not going to make any progress on it.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner Fornaciari. And a good reminder. Okay. I want to see --

Okay, Commissioner Fernandez.

COMMISSIONER FERNANDEZ: I'm just going to say it because I need to say it. I appreciate the feedback from other organizations. Also, as a commission, we are independent and if it's something that we do feel strongly as a commission, I realize it may be an uphill battle. But that should also not stop us from moving forward. We are independent. There's 14 of us that are very independent thinkers, and I'm very happy for that.

But I just want to make sure that because someone tells us, no, it's a nonstarter, that that doesn't mean it's a nonstarter for us. Thanks.

VICE CHAIR AKUTAGAWA: Thank you. Commissioner Fernandez.

Commissioner Fornaciari.

2.3

percent. We are an independent commission and we should do what we think is the right thing. I also think that, you know, having a bloodbath over something like this is, you know, is something we can avoid, you know. I mean, we should avoid if we can. You know, again, I'll just would refer back to the -- this is a nonstarter for them. And in their comment, their public comment when they called in -- I don't remember who it was but, you know, I think -- I think in some ways we need to partner on these topics or, you know, it will just make it difficult to make progress.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner

Fornaciari. Since you've brought it up twice in terms of having a conversation with them, I think from my own understanding and clarification, I'm going to ask a question of Chief Counsel Pane.

I think it was also suggested that -- about, perhaps having a public conversation and inviting some of the

1 different groups in to discuss it publicly with us. 2 that what you were thinking, Commissioner Fornaciari? And then for Chief Counsel Pane. Is it something 3 4 that could be done perhaps outside of a commission 5 meeting? Or is it best to be held within the public domain of a, you know, a public commission meeting? 6 7 So Vice Chair, just to answer CHIEF COUNSEL PANE: your question, it's something that could be done both in 8 a public meeting, at a regularly scheduled commission meeting. We would -- we could invite -- the Commission 10 is always free to invite any organization they want to 11 12 come and speak. The Commission has done so in the past. 13 On the other hand, there's another way to do it. 14 You certainly could have that conversation outside of a publicly noticed meeting. Of course, we just would want 15 16 to make sure Bagley-Keene is still satisfied, which would 17 just mean that instead of all 14 members being part of 18 that meeting, it would be no more than two. 19 VICE CHAIR AKUTAGAWA: Thank you. And of course, 20 there's always the letters -- written public comments. But I think what I heard from Commissioner Fornaciari is 21 22 that it doesn't allow for the back and forth, 23 understanding that may be required. And so -- okay, 24 thank you very much, Chief Counsel Pane. I just wanted 25 to just make sure I understood the options.

And I'll just set that aside for right now. I do want to ask any of the Commissioners, is there any further conversation or discussion on this topic of row 3-A around public comment during regular non-mapping business meetings? Okay. I'm going to -- I think I'm going to set that aside for right now. And I'll just move on to the next row which is row 4-A, which is around "Clarify/provide definition for what public input means." And as you will see that we did have a prior discussion on July 13th, 2022. And even prior to that there was a prior discussion. I'm going to say that it's not dated, but I will say perhaps it was back at the June 1st, 2022 meeting. There was disagreement on the definition. does require further discussion, although previously there was a conversation that said, let each commission decide. I just want to see if anybody has any comments on it. Thank you. Commissioner Andersen, I see your hand. COMMISSIONER ANDERSEN: Yeah, I believe, as I sort of said before, the details of the tricky part of defining, quote, public input, really isn't. Public input is public input. It's what is redistricting matters and what is non-mapping items of that, which I

17

18

19

20

21

22

23

24

25

believe is that's where sort of the bugaboo came in.

And I think, you know, public input is anything people tell us. Then there was further discussion about, communities of interest, the general, the types of public input. And that's where we started breaking things down. And that's where I think we sort of logged into again, you know, discussions with the groups, da, da, da, But the public input is public input. And then there are different types. We can we quickly go through that and define it, you know, there's all general -- there's general. There's There's communities of interest and then we just sort of divided it out like that. I think we just sort of tabled it. My idea, my remember -- memory of it was, remembering, is because it got complicated in how do we define parts of it, not it in general. So if someone wants to dive in with that further, parse that, go ahead. VICE CHAIR AKUTAGAWA: Thank you, Commissioner Andersen. We'll go to Commissioner Kennedy. Looks like he's ready to dive in.

1

20

21

22

23

24

25

COMMISSIONER KENNEDY: Yeah. I'm ready to dive in.

And thanks for teeing it up for me. I mean, if we go to

Section 8253 in Government Code, which is, you know, kind

of main miscellaneous provisions relating to us, and we

go to (a)(7), it starts out by saying, "The Commission

shall establish and implement an open hearing process for public input and deliberation that shall be subject to public notice and promoted through a thorough outreach program to solicit broad public participation in the redistricting public review process."

2.3

In my mind, that basically differentiates public input from public comment. I mean, and we have generally said that public comment -- you know, we have public comment on every motion that we vote on. We have general public comment during the course of each and every meeting. We occasionally have additional opportunities for public comment if we're discussing something that we believe is of sufficient importance to merit specific public comment immediately as part of that discussion.

But those aren't public input as at least implied by this subsection of Government Code, section 8253, talking about an open hearing process for public input and deliberation as part of the redistricting public review process.

So that's, you know, that's where I come from.

That's how I differentiate public input from public comment. And yeah, I'm happy to hear other thoughts on it, but that's where I'm coming from.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner

Kennedy.

1 I was going to say, Commissioner Fernandez, I did 2 see your hand up earlier. Thank you. Thank you. I think I'm 3 COMMISSIONER FERNANDEZ: 4 agreeing with Commissioner Andersen and Commissioner 5 Kennedy. I just don't think that we need to define it. I think that it is defined. I think that this would be 6 7 one that I would recommend we not address. But that's just my opinion. Thanks. 8 9 VICE CHAIR AKUTAGAWA: Okay. Commissioner Sadhwani. 10 COMMISSIONER SADHWANI: Yeah. Thank you. 11 12 really want to thank everyone for that conversation on 13 all of these items, because I think it's important. And 14 I think it identifies many of the areas and in 15 particular, legal definitions that we struggle with as a commission. 16 17 I agree with Commissioner Fernandez. I think this 18 and several others should probably be left as is. 19 There's ambiguity in any word or terminology when trying 20 to clearly define it. One person's definition might be 21 different from another person's. 22 To me, as I'm speaking, stepping back out of this 2.3 list a little bit, what I recall is how challenging it

implications of these terminologies. So I think having

was when we first started to understand all of the

24

25

1 this list at all is extraordinarily helpful because for the 2030 Commission, I would hope that they can see this 3 list and work with their lawyers to identify, okay, what do these things mean? What is the advice of their 4 5 counsel in 2030 on this matter of public comment versus public input? And they can define that for themselves. 6 7 Maybe in 2030, I don't know, there's going to be new 8 vernacular and, you know, as a part of our language that 9 changes that. I have no idea what the future holds. 10 that would be my thought. 11 And I do think, you know, one of my bigger concerns 12 is who serves as that temporary counsel? Who serves as 13 the temporary executive director for the 2030 Commission? 14 I think that what I saw, my reflection on it was that, 15 who gets that position? And I assume it's the state 16 auditor that chooses it again matters a lot, right? 17 They're the ones that begin to define these terms for 18 folks. 19 So in general, I'm actually okay with leaving most 20 of these pieces as is but instead thinking a little bit 21 more about the setup for 2030 and how to maintain 22 independence and yet get the legal input that they need. 23 Thank you. 24 VICE CHAIR AKUTAGAWA: Thank you, Commissioner

25

Sadhwani.

Commissioner Le Mons.

2.0

COMMISSIONER LE MONS: I just want to support

Commissioner Sadhwani's position. I feel the same way.

I think I was one of the Commissioners in the previous

meeting who is -- I love this process. And I think one

of the things that Commissioner Sadhwani just said, that

helped me understand why I like the process, is that I

think just us going through the process, despite where we

land on the various categories, will be very helpful to

any future commission to really look at what we grappled

with, what we considered, et cetera.

So as it relates to these particular ones that we're talking about right now, I would sit in the position of not specifying it any further than it already is and letting it stand. So I just wanted to go on record with that. Thank you.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner Le Mons. All right.

Commissioner Andersen.

COMMISSIONER ANDERSEN: Yeah. Thank you for both Commissioner Sadhwani and Commissioner Le Mons on bring this up. And this is sort of a quick question back to, I think it's Commissioner Kennedy and Yee -- you've been helping with our Lessons Learned documents.

If -- I don't know, I can't recall if it's

1	actually in the Lessons Learned document but the actual
2	process of defining multiple terms and the implication of
3	how those definitions affect your work, that is a major,
4	major lesson for any Commissioner moving forward. And
5	if, you know, the way that both each of the
6	Commissioners who just spoke that put that together, it
7	isn't, you know, the definitions are where they are but
8	how what does each of these next commission what do
9	these commissioners think it means? And then from
10	council's perspective, what are the implications of that?
11	That conversation, we've had that in an organized
12	manner when we first started out wow. It was
13	enlightening. And I think we put something like that
14	together, just a shorter outline similar to what we've
15	been sort of discussing and what the Legislative and
16	Moving Forward committee has been putting together
17	these side notes that would be viable for the 2030,
18	the 2040, moving forward. And I would really like to
19	move that to the Lessons Learned Committee to pull that
20	little item together out of this quick summary of what
21	we've been doing. Because this has been very valuable.
22	Thank you, Commissioners, for saying that so eloquently.
23	VICE CHAIR AKUTAGAWA: Thank you, Commissioner
24	Andersen.

25

Any other comments -- Oh, Commissioner Taylor?

1	COMMISSIONER TAYLOR: Yeah. As we are having this
2	conversation, I'm wondering if we are trying to aid the
3	2030 Commission in their work or are we really just
4	trying to signal to them what our definition was? I
5	think they're able to make decisions the 2030, we'll
6	be able to make decisions if they just clearly know what
7	our definition of those terms are, those legal terms, and
8	if that's something that could be addressed in our
9	Lessons Learned.
10	So if it's merely something that we pass on, I think
11	we should give them the ability to further define it for
12	themselves. Thank you.
13	VICE CHAIR AKUTAGAWA: Great point. Thank you,
14	Commissioner Taylor.
15	Commissioner Sinay.
16	COMMISSIONER SINAY: As always, Commissioner Taylor,
17	thank you for being you know, making it very clear.
18	And something we should be asking ourselves all the way
19	through. You know, what is our intent? And we've always
20	said that are intent is not to force ourselves on 2030
21	but to guide or provide guidance. I mean, provide
22	guidance, so thank you for that.
23	I do want to say that the Transition subcommittee,
24	these are, you know, we're taking notes on some of the
25	things that are coming up. We haven't met yet or talked

1 long term, but we are looking in -- like the guestion that Commissioner Sadhwani said of, who is the temporary legal and the temporary executive? You know, that really 3 4 did influence a lot of the work we did at the very 5 beginning. And so the transition committee does have that on their list of looking at to say, okay, what is 6 7 our recommendation? You know, ours as the Commission and whatnot. So those things -- so keep bringing up those ideas and know that they're not going into the ether, but 10 that we are listening and we are writing them down. 11 I also want to say on this idea of a conversation 12 with the community. What I would -- I've said this 13 before and I think that there are several items that are 14 on the list that we are going to need to build a 15 coalition around to get them to pass. And you know, I'll 16 go back to the one about the legislature not making 17 decisions in the dark. That we want that, you know, some 18 of us, I don't know, you know, we haven't had that 19 conversation, but we would like it to be done publicly. 2.0 So when we -- when I at least say, hey, let's bring 21 in the community and who from that community we invite. 22 That's a bigger, bigger question. But let's have a 23 conversation in public with multiple people, not just 24 some -- suddenly you're empowered. I would open it up to 25 more folks and those too.

1	And highlight the different issues that we need
2	their input or their buy-in or their coalition building.
3	And so what I would suggest is that maybe the
4	subcommittee that's leading this charge, just kind of
5	take notes on the ones that we need to have that bigger
6	conversation, with a bigger circle of people. And in
7	that way we that's one of the ways we had always
8	said that we were going to need multiple strategies to
9	get this huge list done. And so that's one of the
10	strategies we needed.
11	So when we say, let's please talk, let's bring in
12	the community, we're not talking about just for this one
13	but it's one of the strategies that we can be using.
14	VICE CHAIR AKUTAGAWA: Thank you, Commissioner
15	Sinay.
16	Commissioner Taylor, did you want to comment more?
17	Did you just do a (indiscernible)? All right, thank you.
18	Anyone else have any comments? This has been a
19	great conversation. It's been really good to hear
20	everybody's perspective on it.
21	So far, I think my conclusion from the comments that
22	I've heard is that, I think we leave it up to the next
23	commission to decide. However, I think that there is
24	value in putting our conversations or perhaps I'll
25	say, lessons learned in the Lessons Learned document, so

that if the next commission so chooses, you know, they can hopefully, at least look at what we were grappling with and then decide how they want to grapple with the similar issues.

And that was that is what I've come away with. And so I appreciate everything that everyone has said. And not seeing any additional hands, so I am going to keep moving forward. This is great. We are moving forward on these items.

Commissioner Sinay, did you want to just -- one last word on this 4-A?

COMMISSIONER SINAY: Yeah, I just want to say, are we going to put in there that this may be something we want to discuss with others or we're just leaving it that way? I mean, I want to acknowledge that we do have others -- we can use other strategies versus just one unilateral strategy right now.

VICE CHAIR AKUTAGAWA: Thanks for bringing that up.

My sense was that this was not going to be something that

we would necessarily have as a conversation with a -
perhaps with additional other organizations that may have

wanted to weigh in. I think we just decide. My

understanding is that we were just going to let the next

commission decide and that we were not going to try to do

anything further than other than to just put, you know,

- 1 just our lessons learned.
- Commissioner Fernandez, I saw that you had your hand
- 3 up? Nope, no --
- 4 COMMISSIONER FERNANDEZ: You answered it
- 5 beautifully.
- 6 VICE CHAIR AKUTAGAWA: Okay. All right, thank you.
- 7 But Commissioner Sinay, I do want to say that I have
- 8 taken notes on suggestions where there would be a further
- 9 conversation that could be beneficial to us with a larger
- 10 group of folks, as you had noted. Not just the ones that
- 11 have already given public comment but also inviting in
- 12 other organizations as well, too. Just keeping a list
- 13 for right now.
- And I will go ahead and move on to row 5-A. And
- 15 this is on Commissioner Vacancies. "Discuss need to fill
- 16 vacancies after final maps are approved." And on this we
- 17 had a prior discussion and the question was, "Is it
- 18 | necessary to fill a commissioner vacancy after the maps
- 19 are finalized? Perhaps the consideration would be needed
- 20 | if there is a need based on a supermajority vote impact."
- 21 And so I'm going to open this up to commissioners to have
- 22 a discussion on this.
- 23 Commissioner Fernandez.
- 24 COMMISSIONER FERNANDEZ: I guess I'll kind of start
- 25 | it. Fortunately, we didn't have to go through this

1 process. I do know that the 2010 Commission did have to.

And I think there's two parts to this vacancy. One, if

3 | there's any vacancy prior to December 31st of the year.

4 And then, number two, shall be filled by the commission

5 | within 30 days.

So if we think about, if there would have potentially, maybe been a vacancy September 15th. And -- or let's say October 15th. Right in the midst of drawing draft maps and, you know, getting input. And then we kind of have to stop our focus and go through the process to fill that vacancy. So just trying to figure out -- time consuming. And as Commissioner Akutagawa mentioned, whether there would be critical, like, let's say it's -- we need it for supermajority vote. And obviously we'd have to fill it.

So I don't necessarily -- am saying that it needs to be changed. It was just something that was brought up earlier. We have it on the list. And then the second part of it is if there's a vacancy after December 31st.

Then the commission would have 90 days. So the first part is you would use the sub-pool if you still have the sub-pool. The second part would be you would still use the sub-pool if you have it. If not, you might have to go back out and solicit. Because I'm thinking maybe in year five, I'm not sure if we'd have anyone interested in

1 being on the commission. So I'm just trying to put that out there in terms of what the current language says. 3 VICE CHAIR AKUTAGAWA: Thank you, Commissioner 4 Fernandez. 5 Commissioner Kennedy. COMMISSIONER KENNEDY: Thank you, Vice Chair. 6 Yeah. 7 The December 31st, just to highlight what is in the existing provisions. That's December 31st of the year 8 9 ending in two. So that's December 31st of this year. 10 We're still in the period where, if there were a vacancy, 11 we would have 30 days. Only once we get to next year 12 would we have 90 days. 13 You know, on the subpool, to me, the subpool was 14 there. You know, it would be a matter of approaching 15 those individuals and confirming their interests in being 16 considered for filling a vacancy. And I don't know, 17 maybe that's something that the auditor's office would do 18 or we would do. But you know, I'm still fairly 19 optimistic that someone in the existing pool would be 20 willing to serve the people of California in the role, 21 even if it's filling a vacancy after the maps have been

VICE CHAIR AKUTAGAWA: Thank you, Commissioner Kennedy.

Any other comments or discussion?

completed. Thank you.

22

2.3

24

25

1 Commissioner Sinay.

COMMISSIONER SINAY: I think it's a great discussion. It's tough to do after the fact, but when -just if we can put ourselves back to that -- yeah.

Everything that we learned collectively from January until we submitted the maps, and how difficult it would be to bring someone up to speed. And I don't think we've necessarily brought that up. We're just talking about how do you fill that position, but there is a real practical piece to this. And is that fair to the state of California to bring someone in -- at what point is it not fair to the state of California to bring someone in who hasn't learned from the state of California up to that process.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner Sinay.

Commissioner Kennedy.

Hopefully I'm making sense.

COMMISSIONER KENNEDY: Thank you. Yeah. To continue along that line, I guess my thinking on it would be that that's part of what the thirty days is there for. Yet, it would be difficult to make it through those thirty days. We could have votes fail during those thirty days or a commission could have votes fail during those those thirty days because of a vacancy, but I would think

- that if at any point there were a vacancy, the
 notification to the individuals remaining in the relevant
 subpool would go out immediately.
 - And part of the consideration at that point would be the responses that we get or that our commission gets.

 And frankly, part of the notice would be, A, if you haven't been following things, you might want to start following things, but even beyond that, there might be a question of to what extent have you been following
- things. And the extent to which someone in that subpool
 had or had not been following things could end up being a
 factor that is considered in filling that vacancy.
 - VICE CHAIR AKUTAGAWA: Thank you, Commissioner Kennedy.
- 15 Commissioner Fernandez.

2.3

- COMMISSIONER FERNANDEZ: I think my preference would be to just leave it as it is with the thirty days or the ninety days, whichever one applies. I do -- in terms of bringing someone up to speed, I -- there's only so much you can do, and it would be up to that individual if they're willing to step into that role. We would hope that they would catch themselves up as best they can, but what I'm feeling at this point is to just leave the language as is. Thanks.
 - VICE CHAIR AKUTAGAWA: Thank you, Commissioner

Fernandez.

2 Commissioner Yee.

COMMISSIONER YEE: Sure. Yeah. I agree with

Commissioner Fernandez. This has been implemented once

with the 2010 commission. It went smoothly. It's not

been needed otherwise. It's just little cycles. So if

it were needed in the future, it's not an ideal situation

obviously no matter what happens, but it seems like an

adequate provision for the need balancing the various

considerations. So I would also just leave it the way it

is.

12 VICE CHAIR AKUTAGAWA: Thank you, Commissioner Yee.

Commissioner Andersen.

COMMISSIONER ANDERSEN: Yeah. Thank you, Vice
Chair. (Indiscernible), oh, should we have someone ready
(indiscernible), which you really can't do, but I do
believe there is a possibility of us requesting from the
state auditor. When that last group gets together,
say -- actually, sort of add in discussion or hey, by the
way, for those of you who are in this pool, should one of
the commissioners not make it in order not be able -need to step down, you would be the resource we come back
to. Because going through it, think looking back at did

So I think that's where the only change that we

I realize that? I might've. I might not have.

1 might consider making a change would come from. Certainly not anything that we can say request other 3 commissioner or other people out of that pool to -- you 4 know, we need you to follow along or somebody should 5 follow along. I think that's above and beyond of what we should be doing, but there is a possibility of us just 6 7 adding a couple of ask an auditor to bring that up and really emphasize that, particularly once the first 8 9 commission has been established, then have a letter or 10 something go out to everybody. I don't know if that 11 happens right now, but that's what I think we might want 12 to look into. Otherwise, move on to the next item. 13 VICE CHAIR AKUTAGAWA: Commissioner Sinay. 14 Thank you, Commissioner Andersen. You're on mute. 15 COMMISSIONER SINAY: Sorry. I lowered my hand, but 16 I didn't unmute. You should put those buttons a little 17 closer. Anyway, I apologize. Thank you, Vice Chair. 18 I think one of the chicken-and-egg questions that we 19 have, and this is for the lessons learned, and we've 20 heard this from a lot of the organizations that help 21 recruit commissioners, is how honest are we going to be 22 about how much time this takes. I mean, a lot of us said 23 I didn't realize it was going to take so long. And also 24 you have changes that take place, but -- and the reason I 25 say it's kind of a hard one is because people don't want

to get the full, hey, it's going to take your whole life from this date to this date because then people -- then you may lose some really good, qualified people.

2.3

And as I said before, I remember asking that question at the very beginning from one of the staff members. I said did it take us long at the beginning, or last time, they said, oh, it took even more time from them. And they said -- and just keep in mind -- and I said wow, okay. And the person -- the staff person said to me but you all would've still applied even if you had known that.

And so I think we can't be shy about being honest about what it takes to be a good commissioner during those first eighteen months. And it'll be shorter maybe time, but I think that part is something we just in a lesson learned and when the -- you know, when things go out to describe what it means to be a commissioner, all that, we really need to be honest about those things because I think that affects -- that will help. It's preventive.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner
22 Sinay.

Want to see if there's any other comments. What I'm hearing so far is I think we should just leave it as it is. That's generally the sentiment. And there may be

some additional information up front that could be shared, both with potential applicants so that they understand better.

2.3

And I do agree, Commissioner Sinay, I think just being real about the time frame, and I think most of us or all of us knew that it was going to take quite a bit of time. Sometimes it's hard to say exactly how much that time is going to be, and each person is going to have to define for themselves what is doable or what is possible, but I think there is some truth to what you said that regardless of how much time it is, I think if someone is going to be committed to this work and being on this commission, it is with the understanding that we will do what we need to do to fulfill our commitment to serving on this commission.

I think also, Commissioner Andersen, you spoke about perhaps giving the remaining pool that might be left after the final fourteen are selected, and perhaps even before that, that even if you aren't selected, there's always a possibility that something may happen and we may be coming back to you, and would you want to be considered. That I recall from the state auditor's office. There was a continuous question about are you still committed to this process. So going forward, that may be another question that could be asked of the

1 remaining pool. If there should be a need to come back to you, would you want to be considered. So that at 3 least then, there's at least an understanding of who may 4 want to consider continuing to be contacted if there is a 5 need to come back in backfill, you know, a vacancy. So Commissioner Fernandez, I'm going to ask you, on 6 7 this particular one, are you of -- are you hearing the 8 same thing that I've heard in terms of let's just leave 9 it as it is and, you know, perhaps just add some additional information for future recruitment? 10 11 COMMISSIONER FERNANDEZ: Yes, I agree. Sorry. 12 was nodding. 13 VICE CHAIR AKUTAGAWA: All right. Thank you. 14 COMMISSIONER FERNANDEZ: I'm moving on to the next 15 one, but yes, I agree --16 VICE CHAIR AKUTAGAWA: Okay. 17 COMMISSIONER FERNANDEZ: -- (indiscernible) --18 VICE CHAIR AKUTAGAWA: Okay, great. 19 COMMISSIONER FERNANDEZ: -- to the notes. 20 VICE CHAIR AKUTAGAWA: All right. Wonderful. Thank 21 you. 22 Thank you, everyone. This is great discussion. 23 We're making good progress on all of this. We're going 24 to go ahead and move on to the next row, which is 5B, 25 which is earlier start date for commissioners, and in

parentheses, office setup coordination with census. would impact start date of application process. did have several prior discussions to this, or at least one prior discussion, that one proposal was to start in the year ending nine. So that would enable the commission to develop a relationship with the census, improve, I guess, the learning curve to outreach and community engagement. I'm going to just insert would probably be improved. Start in earlier ending in zero was another proposal which would not require a statutory change. And then one last comment around seated commission is in a better position to know what the next commission would need in terms of staffing contracts, et cetera. New commission can change whatever is put in place. Also in better position to coordinate and collaborate with census, which was similar to that very first bullet.

23

24

25

There was one last comment, which is outreach is not in our mandate. So we need to be careful about mission creep. I do want to invite any comments, discussion, on the potential for starting -- or having the commission be seated or appointed earlier than it currently is as it stands right now, which is around the midpoint around August of the zero year.

Okay. Commissioner Kennedy.

COMMISSIONER KENNEDY: Thank you. I didn't even see my hand go up. There it is. Okay. Oh, I'm looking at somebody else's -- Anthony's screen. That's why the delay. Okay.

2.3

in early July. And yeah, I guess the final six were in place by mid-August. My sense on this is still that the heavy lifting that might be required to shift the start date to a year ending in nine might be too much. At this point, I think that we should do all that we can to get that — to get the random draw moved up to probably early January of the year starting in zero. So a full six months earlier.

And as for mission creep, I go back to that subsection 7 that I read a short time ago on something else. And it talks about the commission promoting through a thorough outreach program to solicit broad public participation in the redistricting public review process. To me, we do have a mandate to do outreach. So, you know, I think that that one doesn't land with me. I'll leave it there for now but look forward to the discussion. Thank you.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner Kennedy.

Commissioner Yee.

COMMISSIONER YEE: Thank you, Vice Chair.

I'm wondering if Chief Counselor can comment on what it would take to move the timeline up. I know there are certain no-later-than deadlines. One is constitutional that you have till the end of the year ending in zero to form the commission, but how do you -- how would we enforce an earlier deadline to get things started.

So let's see. I've been looking at these dates, and the 2010 commission, the applicant review panel was selected in November of 2009. Our applicant review panel was selected in May of 2019. I mean, those dates seem to have been the auditor's office just working back from their deadlines in choosing dates.

If we do want to push for an earlier timeline for this whole process, what form does that actually take, because the deadlines as they're set are no-later-than deadlines, not start-by deadlines.

CHIEF COUNSEL PANE: I think that's an important point, Commissioner Yee, that a lot of the statutory language is no later than, which doesn't mean they couldn't start sooner. I would -- and I would have to go back to look -- you're catching me a little bit on the spot -- in the constitutional language, if there's some limitations therefore, how many commissioners, and how early they can be seated. And that may be some of the

limitation that it can't be a nine, but we could do zero.

So to Commissioner Kennedy's point, doesn't say it couldn't be January 1 of 2030. That would end in zero, but we might not be able to do December 31st, 2029. So I'd have to go back, because if it is the constitutional provision that sort of limits, then we would need to change the constitution to allow earlier. If it's a statutory change and it doesn't really conflict anything in the constitution, then that's a statutory change that works.

And I am familiar that, currently, the statutory changes as pertains to the state auditor doesn't have the same phrasing as you just mentioned, no later than. So I think there is some room there where we could probably — and I would say it's — another potential is maybe we don't have to make statutory changes. If, for example, the commission is on the same page in convincing the state auditor to start earlier, then we may be able informally to have a timeline that is earlier than the two previous iterations. And that might also work to go without having to make any changes.

So I think there are some options. I'd have to go deeper than that. I'd have to kind of look and weigh through it between the statute and the constitution to see just exactly how much limit -- how much room we have

1 to maneuver, but my recollection is the same as yours, Commissioner Yee, that there is that phrasing. And so the state auditor could move a good portion of its 3 process earlier if it wanted to. And I do think there 4 5 is, separate but related to that, the commission could probably be seated a little bit sooner than they have in 6 7 the past maybe without making any constitutional changes, but I do think there is -- there is a limiting point at the other end of that spectrum where we couldn't probably 10 seat the commissioners any sooner than X date. 11 Thank you. Thank you, Chief VICE CHAIR AKUTAGAWA: 12 Counsel Pane, and thank you, Commissioner Yee. 13 Okay. I want to just see if there's any other 14 comments. And if not, what I heard from Chief Counsel 15 Pane is that there is perhaps additional research that he 16 needs to do to inform us before we can move forward on 17 any kind of additional discussion on this, and that would 18 help us to understand and inform what we may ultimately 19 want to do on this. 20 Okay. If that's the case, then we're making some 21 pretty good progress. We have two more left. 22 And Commissioner Turner, I'm going to ask you. I 23 think we're going to try to run up against 12:45. Is 24 that correct? So if we could finish these last two in 25

the next --

1 CHAIR TURNER: Yes. 2 VICE CHAIR AKUTAGAWA: -- fifteen minutes or less. 3 CHAIR TURNER: Yes. That would be great. VICE CHAIR AKUTAGAWA: All right. Wonderful. 4 5 you. Thank you. All right. So let's go to line or row 5C, which is 6 7 randomly six versus eight names from the remaining pool of applicants. In our prior discussion, there was a 8 9 comment that made for allowing for more of the 10 commissioners to be selected by the initially randomly 11 drawn commissioners in order to appoint commissioners 12 that are representative of California and Californians. 13 And so I will ask if anybody has comments, discussion on 14 this. 15 And I will also ask since it's somewhat connected to 16 the last one, Chief Counsel Pane, is this something also that would require some type of research on either a 17 18 constitutional or statutory change? And perhaps that 19 might help inform us. 2.0 CHIEF COUNSEL PANE: So Vice Chair, your question is what's under C14 and 5C related to the C1 at the bottom 21 22 of page 4? 2.3 VICE CHAIR AKUTAGAWA: Oh, no. No. No. It's No.

more just question of the conversation about starting it

earlier. Is there some kind of either a statutory kind

24

1 of code, or would it require some kind of constitutional change to change I quess the order or the number of what 3 is random -- or the commissioner said are randomly drawn 4 versus the other way around. And would that require 5 research on your part? So to the question of would it 6 CHIEF COUNSEL PANE: 7 require more research to find out if it could be six 8 versus eight names? VICE CHAIR AKUTAGAWA: Yes. 10 CHIEF COUNSEL PANE: Yeah. I would -- what I can do 11 is just put all of that together in one communication for 12 the commission. 13 VICE CHAIR AKUTAGAWA: Okay. Thank you. 14 And I see that Chair Turner has a comment. 15 CHAIR TURNER: Yeah. I just -- in looking through 16 this further, I just wanted to state for the good of 17 everyone, I'm not necessarily in agreement that this is 18 the right thing to do. I think random is random. 19 think that the random could also sway the six in a way that would make it problematic to choose the next eight. 20 21 So this would for me require a lot more discussion. 22 just want to state that currently, I would not be in 23 support of changing it. 24 VICE CHAIR AKUTAGAWA: Great. Thank you very much,

25

Chair Turner.

1 Let's go to Commissioner Fernandez. 2 COMMISSIONER FERNANDEZ: Yes. And I would agree with Commissioner Turner as well. I realize that this 3 4 time around, there are no Latinos with the first eight, 5 but I also feel with having eight initially was I'm hoping a more thorough and better conversation in terms 6 7 of who the following six would be. So I do -- I would 8 not be in favor of moving forward with this one. 9 you. 10 VICE CHAIR AKUTAGAWA: Thank you, Commissioner 11 Fernandez. 12 Commissioner Taylor. 13 COMMISSIONER TAYLOR: Thank you. Yeah. I just 14 would like to throw my support behind the comments of 15 Commissioner Turner and Commissioner Fernandez. 16

would like to throw my support behind the comments of

Commissioner Turner and Commissioner Fernandez. I think

what conversation can surround is the initial outreach to

the applicant pool, which could help to, I guess,

mitigate manipulation with strikes or anything else

possible. A vast applicant pool and randomization would

be optimal.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner

22 Taylor.

I almost -- Commissioner Fernandez, I almost did a Taylor.

25 Commissioner Sinay.

17

18

19

20

2.3

1 COMMISSIONER SINAY: I hear what folks are saying. I would be really curious to have a conversation with 3 others who were part of the recruitment and the 4 engagement process, and make this a larger conversation 5 and really understand the research and the reasons why it 6 was set up the way it is, and what is a potential to do 7 it the other way, because I'm still really concerned that 8 as vast as the pool was and the outreach in 22,000 people, no Latinos were selected in the first eight, and 10 in a state where Latinos are such a large population. 11 So I think we need to be careful to say it'll work 12 because it didn't work this last time. You can say, 13 well, it did in that the eight chose this final six, but 14 I'm still not -- you know, I think we're a great team, 15 and the fourteen of us work great, but I would -- this 16 would be one that I would ask that we put on the agenda 17 to discuss with others. 18 VICE CHAIR AKUTAGAWA: Okay. Thank you. 19 Commissioner Le Mons. 20 COMMISSIONER LE MONS: Yeah. I just wanted to go on 21 record saying I wouldn't support changing this either. 22 And I guess I'll go a step further to say I feel like it 2.3 did work. Thanks. 24 VICE CHAIR AKUTAGAWA: Thank you, Commissioner Le 25 Mons.

Commissioner Fernandez.

1

12

13

14

15

16

17

18

19

20

21

22

23

24

25

2 COMMISSIONER FERNANDEZ: Yeah. And it's just my understanding of I didn't follow it as closely as some 3 4 did, but it's my understanding that part of the issue in 5 terms of the pool that were available for the random selection, the legislature may have struck out quite a 6 7 few Latinos which greatly decrease the chances. And that is being addressed by our government affairs 8 9 subcommittee. So hopefully, if we can make some headway 10 on that, it might address future random drawings. 11 Thanks.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner Fernandez.

Commissioner Le Mons, I see your hand up.

COMMISSIONER LE MONS: Oh, I'm sorry. I didn't take it down.

VICE CHAIR AKUTAGAWA: No problem. You too did the Taylor too, so.

All right. Anyone else have any comments? So I think there seems to be more of a majority feel that this does not require change, although I do want to just want to acknowledge, Commissioner Sinay, your comments about desiring a further discussion and perhaps including this as a topic of discussion with some of the community-based organizations as well too. I think this is one in which

1 perhaps given that there seems to be more, unless any of the other commissioners want to speak up. And I guess in 3 support of further conversation with others, I think we'll just move forward as leaving it as is. 4 5 Okay. Commissioner Yee. COMMISSIONER YEE: Actually, I'll agree with the 6 7 commissioners who have supported leaving it as is. 8 remember I was keenly interested in the process at the time, and I actually did the math. And the odds of 10 choosing no Latino commissioner in the first eight was 11 nine percent, nine-something percent. Pretty low. If it 12 had been only six commissioners in the random draw, 13 that -- those odds would've been higher. It would've 14 been a greater chance of no Latinos. And, of course, 15 there would be correspondingly a greater opportunity to 16 remediate that, but still, I mean, it would've been worse 17 news, and more likely to have that worse news. 18 So yeah. It's a double-edged sword if you make any 19 changes. And I think it actually did work out. 2.0 VICE CHAIR AKUTAGAWA: Thank you, Commissioner Yee. 21

It's always nice to have some evidence-based kind of knowledge on this. And thank you for that.

22

2.3

24

25

I think based on so far then the comments that we had, we're going to -- we'll leave it as is. Of course, nothing we do is always left as is, but right now, I

think we're going to leave it as is.

All right. Let me just move forward because I want to make sure that we finish up before we break for lunch. Our last row, which is 5D, expand mandate to support local redistricting efforts. And the prior discussion was that this was outside the commission's scope of redrawing the district. And it would require statutory authority, I think, for us to be able to do that. So any comments or discussion on this? I just want to note that there was one vote on this particular issue.

Commissioner Sadhwani.

COMMISSIONER SADHWANI: Yeah. Thank you. I agree.

It's probably outside of our scope. I do wonder though if it's worth just having a conversation with the statewide database. They, outside of the requirements of the redistricting commission itself, the statewide database does have a requirement to the state to provide many of the tools that we ended up using. And I do think that those tools could potentially be very valuable to local redistricting efforts. It wouldn't necessarily come from us to create such a mandate, but instead, right from the statewide database wanting to take it on and coordinating that with the state, but I could certainly envision the kinds of online mapping tools that we had had and enjoyed having the opportunity for local folks on

- the ground who want to draw a map to also draw a city

 council map or a county or a supervisor map, and click a

 button, and easily send it to those different bodies at

 the same time.
 - So I don't think it's something that we would necessarily coordinate, but I do think that the statewide database could potentially be in a position to do that.

 I certainly have not discussed this with them or with Karin (ph.). I have no sense of their take on it, but having attended the conference that Commissioner Sinay had described earlier, that was certainly one of the things that we've heard from folks on the ground, that they were struggling to keep up with both local and state processes.

And so I think to the extent that we can advocate for minimally tools being shared could be very valuable too.

VICE CHAIR AKUTAGAWA: Thank you, Commissioner Sadhwani.

Commissioner Kennedy.

21 COMMISSIONER KENNEDY: Thank you, Vice Chair.

This is -- I mean, if mine wasn't that vote originally, I would certainly vote to move this forward now. To me, it's, you know, largely a matter of the -- I mean, there's an economic side to this as well, you know?

It seems to me that folks are being asked to financially support redundant efforts that could be resolved if our mandate were expanded to include some level of support to local redistricting efforts.

There's also the issue that, you know, the Statewide Commission (phonetic) was created well before the mandate or the language that allows for local independent redistricting efforts. And so you know, the fact that it's not in our current mandate, well, you know, those other independent commissions didn't exist prior to the existence of -- or to the creation of this Commission, so it's a logic issue as well.

Now that they do exist, now that there are so many needs in common between this Commission and local redistricting commissions, you know, to me, it just makes enormous sense to rationalize this as much as possible, and it makes sense to include supporting local redistricting efforts in our mandate. Thank you.

COMMISSIONER AKUTAGAWA: Thank you, Commissioner Kennedy.

Commissioner Sinay.

COMMISSIONER SINAY: This is actually something that I spoke to in my interview for the CRC in my original interview and just saying, you know, there's ten years where we're sitting on the Commission, and really, the

work is in the -- is on the front side. But I think the -- when I view this question, it's not so much while the Commission is working on the state map, but between now and 2030, more and more states -- or more and more cities and counties will be creating their own redistricting commissions and school boards and whatnot. And one of the things you -- we heard over and over again at that conference was that there is no uniformity in how those commissions are being created, and people have a lot of questions. I mean, Commissioner Yee and I have been invited to different states that are having questions on how to

different states that are having questions on how to build IRCs. What makes an independent redistricting commission better or worse? What are some of the challenges? And so there is that opportunity for us because there aren't that many people who have done this, and so it is an opportunity to step in and provide technical assistance. You know, that's a technical -- I mean, that might be too big of a word, but just helping guide county staff, city staff, others who are creating these commissions during the next -- the end of our -- from now to till the end of our tenure so that we can have better state redistricting -- local redistricting in the future.

CHAIR TURNER: Thank you. I just want to interject.

1 We have two minutes before we'll go to lunch.

COMMISSIONER AKUTAGAWA: Thank you, Chair Turner.

Commissioner Kennedy.

elsewhere in the state. Thank you.

COMMISSIONER KENNEDY: Thank you, Vice Chair. This is very quick. If we, at some point, are able to make progress towards one of my stated goals during the Lessons Learned process, which was developing a full-blown week-long simulation of redistricting as a training tool, you know, to me that would be of enormous benefit to local redistricting efforts. And I really would hate to see us blocked in any way from making such a training tool inaccessible to local redistricting efforts

COMMISSIONER AKUTAGAWA: Thank you, Commissioner Kennedy.

I think what I'm hearing from this is there is some desire to do more. I am going to say, given where we are in terms of our time, I think we need to do some further discussion on this.

And then so Chair Turner, I think I'm going to call it an end to our subcommittee's report, and I appreciate everyone's conversation on this. We've made some really, really great progress, and we will continue on this last one as well as some other ones in the next round.

25 Chair Turner.

1	CHAIR TURNER: Thank you so much. We certainly
2	appreciate you. Thank you for all of the information and
3	discussion.
4	With that, I want to announce that we are preparing
5	now to go to lunch. I want public to know that we will
6	come back into closed session. We're going to come back
7	into closed session at 1:45, and our goal and desire
8	would be to rejoin in open session at 2:45. And so at
9	this time, lunch, 12:45 to 1:45. We'll be back in closed
10	session at 1:45. Wait a minute. Lunch, 12:45 to 1:45;
11	1:45 we'll be into closed session. Thank you.
12	(Whereupon, a recess was held)
13	CHAIR TURNER: Thank you. And welcome back. You
14	are viewing the California Redistricting Commission
15	Business Meeting for August 31st. We have just come out
16	of closed session for pending litigation and personnel
17	exceptions, and there was no action taken, and so we will
18	move back into our subcommittee update reports. We have
19	two left that we will do for today.
20	We have Redistricting Engagement. And at this time
21	for Redistricting Engagement, we are in the hands of
22	Commissioner Sinay? Who is it?
23	COMMISSIONER SINAY: Go ahead, Commissioner Yee.
24	CHAIR TURNER: Okay. Commissioner Yee.
25	COMMISSIONER YEE: Let's see. What are our updates?

1 We continue conversations with Common Cause as they think about possible conferences or other get-togethers to 3 continue promoting independent redistricting. There was 4 one they were looking at for later this year that they 5 were seeking funding for that has not been found -- the funding, so it's probably not going to happen, but 6 7 they're continuing to look for that possibility. 8 Anything else? 9 COMMISSIONER SINAY: So yeah, they're still -- you 10 know, they're contacting us when -- both for the 11 letter -- op-ed -- and --12 COMMISSIONER YEE: Op-ed, right. 13 COMMISSIONER SINAY: -- for conversation. 14 Commissioner Andersen has been asked to write one for 15 Kansas, and so we will share the template. 16 And we are -- the conference that we were talking 17 about for January is going to be postponed at this point 18 just because we just want to make sure that we have 19 enough time -- enough lead time and the right amount of 20 funding. And again, that conference would be focused on 21 those who serve on independent commissions; it might not 22 be redistricting commissions; it may not be completely 23 independent; it might be advisory. We're still working 24 out some of those details. And that's it.

And our focus has been just the national independent

redistricting movement, not the state. But I know within the state, there's been a lot of movement and interest in getting more counties and cities and states -- I keep saying states -- cities and counties and school boards and such to have independent redistricting commission. I think the biggest challenge we've heard -- issue we heard at that conference is that usually they're staffed by someone who is a county employee or a city employee, and their allegiance is to the city or the county, and it's one more thing that's added on to a lot of other responsibilities, and so that's been an interesting conversation.

CHAIR TURNER: Thank you.

COMMISSIONER YEE: Oh, I'm sorry. I'd just add (indiscernible) and I were on a panel for Common Cause in July with their team in North Carolina, and that panel also included Colleen Mathis from Arizona 2010 redistricting cycle, and it was a very great honor and pleasure to be with her on the panel. She was the one independent on the Arizona five-person commission who chaired the entire process and what she went through. She deserved combat pay. But it is inspiring to see the perseverance that she had invested in the process and be able to share together about what we had all learned in North Carolina could possibly benefit from independent

- 1 redistricting approach. That's all. 2 CHAIR TURNER: Okay. Commissioner Kennedy. 3 COMMISSIONER KENNEDY: Just a question for Commissioner Yee. Is that an event that a recorded live 4 5 stream is available for? COMMISSIONER YEE: I don't know. I'll have to look into 6 7 that. COMMISSIONER KENNEDY: Okay. 8 Thank you. 9 CHAIR TURNER: Um-hum. Okay. So we want to thank 10 the Redistricting Engagement Subcommittee, and we'll move 11 now to website, which I think is Commissioner Kennedy and 12 Taylor? Oh. Taylor, and who's on website? Subcommittee 13 for the website? And Andersen. 14 COMMISSIONER TAYLOR: Yes. I think to put it 15 succinctly, the -- any website update was encompassed in 16 the --17 CHAIR TURNER: Um-hum. 18 COMMISSIONER TAYLOR: -- ED -- the executive 19 director's report. It's a matter of completion or migration of our website to the .G-O-V, and we're waiting 20 21 for that to, I quess, maybe to stress test it a bit. 22
- Alvaro, anything else? Jane, anything else?

 COMMISSIONER ANDERSEN: Nothing else.
- 24 CHAIR TURNER: Okay.
- COMMISSIONER TAYLOR: And I will say, you know, just

1 so that it is noted, Commissioner Kennedy, we do hear your concern. Our concern, of course, is with the preservation of the 2010 website as well, so that is a 3 4 constant question in conjunction with the ADA compliance. 5 Thank you. CHAIR TURNER: Beautiful. So that then concludes 6 7 our subcommittee reports for today. Commissioner Fernandez. 8 9 COMMISSIONER FERNANDEZ: Thank you, Chair. I think 10 we went -- we skipped Lessons Learned. But I also wanted 11 to make a comment that -- where are we? Subcommittee 3N, 12 Staff Sources Manager One Recruitment Subcommittee 13 (phonetic), that, Chair, you and I are on. I think that 14 can be sunsetted since we have our Staff Services Manager 15 One hired. 16 CHAIR TURNER: Absolutely, I am in agreement. 17 will consider that sunsetted. And I did not realize I 18 missed Lessons Learned. Hm. How dare I? So at this 19 point, yes, let's go ahead and -- Lessons Learned. 2.0 COMMISSIONER YEE: Henry? 21 COMMISSIONER KENNEDY: Russell, go ahead, since 22 you've prepared the handout. 2.3 COMMISSIONER YEE: Okay. So the update is that Ray 24 continues to categorize all the inputs; over 700, I

think, he has so far, and is almost finished with that

task. When he is, he and I will commence the actual writing.

2.3

Meanwhile, in your handouts for today, I have a draft table of contents. This is just the first rough draft. And as I thought about the lessons in the report, I mean, this is kind of our one last chance to put together a public document, and so I thought besides the Lessons Learned items proper, why not also include other things we might want to pass on to the next commission in a handy fashion as well as to the public?

So you'll see on the table of contents, there's an introductory section just talking about the Commission in general. This will overlap with the first fifty pages of the final maps report, which, by the way, if you haven't actually sat down and read that, it's magnificent. It's actually really, really well done. Kudos to Ray and to Alicia and others who worked on it. This introduction and then the second section, I'm thinking a narrative time line. It would be a much more condensed version of that fifty-page intro to the final maps report and just kind of an at-a-glance summary of who we are, what we did, and what happened.

Then there's the Lessons Learned section itself, and that just goes through all the categories that we talked through when we did the Lessons Learned exercise. And

Ray and I will figure out, you know, how best to categorize everything, if those categories make sense or whether we should be more lumping or splitting or whatever, and I'm trying to make sense of all that.

And then I thought it would be worth adding a final section on reference materials, and this is just a handy place to gather together, you know, everything that might be of interest or use to the next Commission or to the public. So a -- the first item is actually also attached. I thought it would be good to have a summary table of all the deadlines and milestones going all the way back to Prop 11. So what were the deadlines? What were the no-later-thans as well as the actual dates that things happened? And so I've been doing research and collecting on those dates, and it's very interesting.

The last column I thought we would collect are suggestions for 2030, which are still under discussion, so I don't know if we'll actually have dates for that.

I'm not talking about, you know, starting the process earlier and all that. So that -- the final Gantt Chart, the final budgets, lists of personnel; you saw the hiring time line that Executive Director Hernandez prepared; the contractor's contracts, and so on and so on, the ready reference, the mapping playbook, chair rotation, you know, all that, just to have it all handy in one place.

CHAIR TURNER: Um-hum. Um-hum.

2.3

COMMISSIONER YEE: And I'm surely forgetting some things, so if you think of anything else that belongs in that reference materials section, I would love to add it. So that's the general idea. You know, Ray and I will be very busy from now till the end of the year to get this done, but this is the current plan, so I invite any feedback.

CHAIR TURNER: Beautiful. And thank you, please forgive me for skipping Lessons Learned. That's a lot of (indiscernible) work. Thank you so much.

COMMISSIONER YEE: Yeah.

CHAIR TURNER: Commissioner Sinay.

GOMMISSIONER SINAY: This is great. Thank you, guys. I just went to a conference that reminded me of something that we all had said at the beginning, that content isn't going to be as important here as guiding questions, and kind of building on what Commissioner Taylor said earlier, that it's about helping them find the right guideposts. So as your draft -- as we're drafting this, maybe start each section with two or three guiding questions that they need, and then if you come into our Lessons Learned, but really thinking through what are the best questions that they should be asking themselves? Because to me, that was what was missing in

1	our whole experience. A lot of times we kept asking
2	ourselves, is that the right question? What are we
3	answering, you know? And just, obviously, they'll have
4	other questions, but it'll at least help in that regard.
5	COMMISSIONER YEE: Thanks. I like that.
6	CHAIR TURNER: Thank you.
7	I do want to go back to Commissioner Kennedy, it
8	looks like you were going to say (indiscernible).
9	COMMISSIONER KENNEDY: Yes. Commissioner
10	Fernandez's query to you just before this reminded me
11	that one of the things that I think we should include in
12	that list of reference materials is some actual formal
13	terms of reference for each and every subcommittee that
14	we had along the way, a lot of which has already been
15	sunsetted. But it seemed to me that, you know, we
16	probably had an idea of what the subcommittees were and
17	what their purposes were because we were part of the
18	discussions, but I think that, you know, having a good
19	solid, not just list, but a list and description
20	CHAIR TURNER: Um-hum.
21	COMMISSIONER KENNEDY: of what the subcommittees
22	were intended to do is going to be of enormous help to
23	the 2030 Commission.
24	CHAIR TURNER: I totally agree.
25	COMMISSIONER KENNEDY: Okay.

CHAIR TURNER: I totally agree. And what I was
going to say is, is that we'll do at this time and for
sure, we want to not only list all of the subcommittees,
but a brief description of them is that I'm going to
run through the subcommittees, and for those that are on
them, if they're if it's a subcommittee that can be
sunset, I'd like to go ahead and do that at this time so
that we're not retaining all of these and just having to
check in to see if there is something or not. Maybe
there's something else we can sunset. Commissioner
Andersen, do you want to speak before we do that?
COMMISSIONER ANDERSEN: Yes, I would, please. The
one other item also I meant to say in this is a glossary.
Because a glossary, you know, at the beginning or the end
on one of these phases in here, and even if it's
referenced, you know, something it's a very general,
say, see this section. But an overall glossary where
someone could quickly look for as almost, like, you know,
you have your introduction, you have your table of
contents in the back of the glossary, kind of also
something like that would be extremely helpful.
CHAIR TURNER: Just running straight from our
agenda, we have the Government Affairs Census and
Census, Commissioner Sadhwani and Toledo. I'm just
looking for you to say, keep or sunset.

1 COMMISSIONER TOLEDO: Can keep for now. 2 CHAIR TURNER: Finance and Administration, we'll 3 keep. 4 Outreach and engagement? Can we sunset? 5 COMMISSIONER SINAY: I think we can sunset because things can be done in other committees. 6 7 CHAIR TURNER: So I'll throw we're showing Outreach 8 and Engagement, sunset. Material Development? 9 Fernandez and Kennedy. COMMISSIONER FERNANDEZ: I think I -- Commissioner 10 11 Kennedy, maybe he'll agree to it -- the only reason we 12 had it open was we were going to update the Wikipedia, 13 but maybe that can be part of Lessons Learned, and then 14 we can census it. 15 COMMISSIONER ANDERSEN: Nice try. 16 COMMISSIONER KENNEDY: Nice try. I mean, you know, 17 if that's really how we want to go, I -- you know, I'm --18 CHAIR TURNER: Sounds like we'll stay with it. 19 COMMISSIONER KENNEDY: -- okay with it. 2.0 COMMISSIONER FERNANDEZ: We'll keep it. 21 COMMISSIONER KENNEDY: Well, I mean it's for that 22 one task. Commissioner Fernandez was right. The one 23 outstanding item is to develop new descriptive text for 24 Wikipedia about redistricting in California because right 25 now, there's kind of a single entry that mostly describes

1 the 2010 process. The only thing about the 2020 process is that early on, I went in and added in the members of the 2020 Commission, but there's no real text about what 3 4 we did, how we did it, et cetera. And so the idea is to 5 take some of the generic description from the existing 6 Wikipedia entries, set that up as an umbrella entry, and 7 then have separate entries for the 2010 Commission, 2020 8 Commission, 2030, et cetera. 9 CHAIR TURNER: Okay. 10 COMMISSIONER KENNEDY: It may be that somebody from 11 outside the Commission wants to do that as well, and that would be fine, too. We don't have to have our hands in 12 13 it, I just think that it's important for that eventually 14 to be on there for general public access. 15 Okay. Okay. So for now, we'll leave CHAIR TURNER: 16 Right now, I think my only intent is for anything 17 that's a clear sunset, we'll sunset. 18 Website? We --19 COMMISSIONER KENNEDY: 20 CHAIR TURNER: Um-hum. And incarcerated 21 populations? 22 UNIDENTIFIED SPEAKER: We'll need. 2.3 CHAIR TURNER: Lessons Learned, we'll keep. 24 Cyber Security?

COMMISSIONER TAYLOR: We probably still need to keep

1 that, there's a couple of pending issues, and then we always have to answer the questions about what to do with potential meetings or our procedures --3 4 CHAIR TURNER: Um-hum. COMMISSIONER TAYLOR: -- or our data. Thank you. 5 CHAIR TURNER: Liti -- okay. Litigation Contract 6 7 Subcommittee? COMMISSIONER YEE: I think that's over. 8 9 CHAIR TURNER: Um-hum. Okay. 10 Toledo? And Yee said it's over, so we'll sunset 11 Litigation Contract Subcommittee. 12 Bagley-Keene ADA, I think there's still some work 13 going on with that. 14 Long-term Planning Subcommittee, we're still 15 continuing. 16 Redistricting Engagement Subcommittee? 17 Sinay and Yee? We'll keep it working? 18 COMMISSIONER SINAY: Yes, keep it going. 19 CHAIR TURNER: Audit Subcommittee? Le Mons and 20 Taylor. 21 COMMISSIONER LE MONS: Sunset. 22 CHAIR TURNER: Okay. We'll sunset Audit 2.3 Subcommittee. 24 Staff Service Manager, the one that we sunset today. 25 Continuity Subcommittee? Fornaciari and Sinay.

```
1
         COMMISSIONER FORNACIARI: Yeah, we need to keep
 2
    going.
 3
         CHAIR TURNER: Thank you.
 4
         Legislative Subcommittee? Fernandez and Akutagawa.
 5
         Okay. So we have sunset a couple more.
         Commissioner Akutagawa.
 6
 7
         COMMISSIONER AKUTAGAWA:
                                  I was just going to comment
    on the materials development one. It looks like from the
 8
 9
    Lessons Learned table of contents that, you know, just
10
    some of the general information and other things like
11
    that could be copy and pasted into a Wikipedia, that some
12
    of the introductory parts could form the basis of the
13
    Wikipedia entry. And I only say that because the
14
    likelihood of someone else going in and doing it is
15
    probably a lot lower than one of us doing it, and I'm
16
    just thinking since Lessons Learned Committee does
17
    have -- or will have, I guess, access to the materials
18
    first, and you know, you know the content best.
19
    just suggesting that that may be the fastest and easiest
    way if we want to see that actually updated. So just a
20
21
    thought there.
22
         CHAIR TURNER: Okay. Okay. Then we'll go back.
2.3
    There was another matter for the Lessons Learned, and so
24
    we'll have that listed at this time.
```

Commissioner Yee.

COMMISSIONER YEE: Yeah. So this has to do with the whole question of parcel splits; it's a matter that actually is still ongoing. So you may recall this has landed in the Lessons Learned suggestions for 2030 that they include in their line drawing contract a provision for some months of line drawing availability to counties after the maps to help counties resolve parcel splits created by the final maps.

And you'll recall this all started last February when Karin MacDonald told us that counties had been coming to her asking for help with those splits -
CHAIR TURNER: Um-hum.

COMMISSIONER YEE: -- and could we find some money? We looked around, couldn't find it. Secretary of State didn't want to take it. The legislature didn't want to take it, so. We eventually decided not to push for a statutory requirement for such money for 2030, but just leave it as a suggestion, and that's where things lay.

Since then, I heard from the group that represents elected officials and -- I mean, election officials and clerks -- the CACEO -- and the issue has been reframed in my mind. So the question is not so much, can we find money? The issue is the need for a legal basis. So basically, what's happened in 2010, 2020, you know, the lines -- you know, the Commission draws the lines, and

1 when the counties end up actually precincting with those lines, it turns out there are various splits because it's an imperfect world, and so they ended up having to adjust 3 4 lines, you know, to decide which side of the line a given 5 parcel falls. And the problem is not only that there's no money for help -- some of the need for that. 6 7 bigger problem is there's no legal basis to test the lines, right? So we -- kind of they're asking for some 8 help to find someone who basically can guide them to that. So I've been involved in various conversations 10 11 about that. This is also because I inherited the 12 question when I was chair in February. 13 And so at this point, the update is that Chief 14 Counsel Pane is going to approach some Legislative 15 contacts, do some more research. What I'm thinking is 16 that, you know, of course, this really shouldn't land in 17 a subcommittee; I shouldn't be doing this solo. So if 18 there's still a need, and I think there is still a need, 19 I'm going to ask the chair to appoint a subcommittee to 20 follow this up. If nothing happens, basically, 2030, 21 we'll have to redo this whole question again from scratch 22 because the need will still be there, the exact same need 23 just as it was in 2010. 24 CHAIR TURNER: Um-hum.

And all the conversations that

COMMISSIONER YEE:

have gone -- that have happened thus far will have, you know, will have to be redone: the conversations with this CACEO, with the legislature, with the Secretary of State, with Karin and the Statewide Database, and with ourselves, so.

CHAIR TURNER: Um-hum.

COMMISSIONER YEE: So that's where things are at now. Of course, I'm cognizant that the time is short with staff, with Anthony still around, and so forth. I apologize for not following up more expeditiously earlier this year, but it's a sticky problem, it doesn't have an obvious solution, and as I talk to people, it seems, you know, everybody's guessing about what to do, so.

CHAIR TURNER: Yeah. And I think my only thing with that -- and I certainly appreciate your diligence and what you have done -- and as I understand the issue prior to appointing a new subcommittee at this point, I really do want Anthony to have that last research meeting so that we are very clear on what the directive would be for a subcommittee prior to appointing one. And so if we could postpone creating a new subcommittee and give Anthony these couple of weeks to determine, you know, exactly what the ask is and whatever the other nuances of the matter is, we can perhaps do that on the next meeting at the 21st. Is that amenable for you?

1 COMMISSIONER YEE: That's fine. Would it be 2 possible to -- if it's a green light, could we have the 3 subcommittee appointed even before the 21st just because 4 time is short? Would it have to be in a meeting that you 5 appoint a subcommittee? CHAIR TURNER: Anthony would have to answer that. 6 7 Can -- does subcommittees have to be appointed in a 8 meeting? 9 MR. PANE: To answer your question, Chair and 10 Commissioner Yee, there's not an explicit requirement 11 that that be done. It's often done that way, but not 12 technically required. 13 CHAIR TURNER: Okay. So then upon your findings, 14 Chief Counsel Pane, you can let us know, and then we 15 can -- depending on whether it's myself or -- I believe 16 I'll be rotating out of the chair position; it'll be Vice 17 Chair Akutagawa that will be chair at that time and can 18 appoint a committee -- a subcommittee. 19 Commissioner Andersen. 2.0 COMMISSIONER ANDERSEN: Yeah. Thank you. Just a 21 quick question on this one: the parcel versus census 22 block. Are you saying the census blocks do not match parcel? Is that correct? 23 24 COMMISSIONER YEE: That's correct. That's correct. 25 So in a perfect world, you know, the census and the local

1 jurisdictions would have perfect agreed maps on everything, right? But in the real world, it just 3 doesn't happen that way. And inevitably, there are some 4 lines that don't fall where they ought to, and this only 5 shows up finally when the final maps are --6 CHAIR TURNER: Right. 7 COMMISSIONER YEE: -- issued and precincts are 8 created. 9 COMMISSIONER ANDERSEN: Wow. Okay. That -- yes, 10 now I see the scope of the issue. Got it. Thank you. 11 CHAIR TURNER: Okay. Thank you. 12 COMMISSIONER YEE: Thanks, Chair. 13 CHAIR TURNER: You're welcome. 14 Okay. At this point, that concludes our 15 subcommittee report, agenda item number three. 16 will, Katy, please, at this time take public comment and general public comment -- public comment on agenda item 17 18 three and general public comment for the day. 19 PUBLIC COMMENT MODERATOR: Absolutely, Chair. 2.0 The Commission will now be taking general public 21 comment and public comment on agenda item number --22 COMMISSIONER ANDERSEN: Why wouldn't they? 2.3 PUBLIC COMMENT MODERATOR: -- three, subcommittee 24 update (indiscernible). 25 COMMISSIONER ANDERSEN: Where do they get their

Τ	filth block from?
2	PUBLIC COMMENT MODERATOR: One moment.
3	CHAIR TURNER: Jane, you're not on mute.
4	PUBLIC COMMENT MODERATOR: Thank you so much.
5	The Commission will now take public comment on
6	agenda item number three and general public comment.
7	CHAIR TURNER: And you're still not on mute.
8	There we go. Thank you. You got her.
9	PUBLIC COMMENT MODERATOR: To give comment, please
10	call 877-853-5247 and enter meeting ID number
11	81282239720. Once you have dialed in, please press star
12	nine to enter the comment queue.
13	And for those that have called in earlier, if you
14	would like to give comment at this time, please press
15	star nine, this will raise your hand, indicating you wish
16	to give comment. And at this time we do not have any
17	raised hands. And I'll let you know when the
18	instructions are complete, Chair.
19	The instructions are complete, Chair, and we do not
20	have any callers or raised hands.
21	CHAIR TURNER: Okay. And apparently, I misspoke.
22	You all will get to have me one more time through
23	September as chair. So I will be in contact with Anthony
24	as well, and you will see what we need to do with that
25	subcommittee moving forward

1	So at this time, that if there aren't any other
2	comments or questions, that concludes our meeting. We're
3	going to adjourn for the day. And I thank you all and
4	wish you well. We'll see you soon. Meeting adjourned.
5	(Whereupon, the CRC Business Meeting adjourned
6	at 3:28 p.m.)

CERTIFICATE OF REPORTER

I do hereby certify that the testimony in the foregoing hearing was taken at the time and place therein stated; that the testimony of said witnesses were reported by me, a certified electronic court reporter and a disinterested person, and was under my supervision thereafter transcribed into typewriting.

And I further certify that I am not of counsel or attorney for either or any of the parties to said hearing nor in any way interested in the outcome of the cause named in said caption.

IN WITNESS WHEREOF, I have hereunto set my hand this 16th day of September, 2022.

TROY A. RAY, CER-369

CERTIFICATE OF TRANSCRIBER

I do hereby certify that the testimony in the foregoing hearing was taken at the time and place therein stated; that the testimony of said witnesses were transcribed by me, a certified transcriber and a disinterested person, and was under my supervision thereafter transcribed into typewriting.

And I further certify that I am not of counsel or attorney for either or any of the parties to said hearing nor in any way interested in the outcome of the cause named in said caption.

I certify that the foregoing is a correct transcript, to the best of my ability, from the electronic sound recording of the proceedings in the above-entitled matter.
