1	<u>PROCEEDINGS</u>
2	July 13, 2022 9:31 a.m.
3	CHAIR TURNER: Good morning, California. I'm
4	Commissioner Trena Turner, and I'd like to welcome you to
5	our July 13 California redistricting business meeting.
6	I'll be your chair for today's session. The vice chair
7	is Commissioner Akutagawa. And with that, we will ask,
8	please, for the roll call.
9	MS. SHEFFIELD: Good morning, Commissioners.
10	Commissioner Vazquez?
11	Commissioner Yee?
12	COMMISSIONER YEE: Here.
13	MS. SHEFFIELD: Commissioner Ahmad?
14	Commissioner Akutagawa?
15	VICE-CHAIR AKUTAGAWA: Here.
16	MS. SHEFFIELD: Commissioner Andersen?
17	COMMISSIONER ANDERSEN: Here.
18	MS. SHEFFIELD: Commissioner Fernandez?
19	COMMISSIONER FERNANDEZ: Present.
20	MS. SHEFFIELD: Commissioner Fornaciari?
21	COMMISSIONER FORNACIARI: Here.
22	MS. SHEFFIELD: Commissioner Kennedy?
23	COMMISSIONER KENNEDY: Here.
24	MS. SHEFFIELD: Commissioner Le Mons?
25	COMMISSIONER LE MONS: Here.

1	MS. SHEFFIELD: Commissioner Sadhwani?
2	COMMISSIONER SADHWANI: Here.
3	MS. SHEFFIELD: Commissioner Sinay?
4	COMMISSIONER SINAY: Here.
5	MS. SHEFFIELD: Commissioner Taylor?
6	COMMISSIONER TAYLOR: Estoy aqui.
7	MS. SHEFFIELD: Commissioner Toledo?
8	COMMISSIONER TOLEDO: Here.
9	MS. SHEFFIELD: And Commissioner Turner?
10	CHAIR TURNER: Here. Thank you, Ms. Sheffield.
11	MS. SHEFFIELD: You're welcome.
12	CHAIR TURNER: I'd like to go through the run of
13	show so that those that may be listening in will know
14	exactly what to expect.
15	It is so good to see all of the commissioners again.
16	We went from seeing each other daily to now just a couple
17	of times, perhaps a month. So it is always a pleasure.
18	So you all are looking well and I hope that is in
19	alignment with how you feel.
20	So today our run of show, we're going to first of
21	all, so prepare yourself, if there are any general
22	announcements from commissioners, we'll start there. At
23	the top of our meeting, we will go through the director
24	updates from both our Director Hernandez and Chief
25	Counsel Pane and then we'll take and that will be

1 probably a good chunk of time that the information that 2 has to be shared. And we will go then to a public comment for item number two, at which time we'll go 3 4 through our subcommittees -- the subcommittees that I 5 have that we'll be presenting today and we'll go in this order. 6 7 First of all, it will be our Legislative and Long-Term Planning, Commissioner Akutagawa, and Fernandez, and 8 9 they will probably still be presenting through our first break and we'll come back and complete that task. 10 And 11 we'll move then into the incarcerated populations with 12 just Commissioner Fernandez, Commissioner Turner into 13 Lessons Learned, Commissioner Kennedy and Yee website. 14 Oh, I'm going through this because there was a -- I 15 wanted to give you a heads up. We do public comment at 16 the end, of course, of every agenda item. I will be 17 taking public comment after Legislative, Long-Term 18 Planning, and Incarcerated Populations, just in case the 19 public wants to weigh in on either of those items. So we 20 will have public comment at the end of every agenda item. 21 And in addition to that, when we complete 22 Legislative Long-Term Planning and Incarcerated

23 Populations, there will be a special call for public

24 comment at that time. Once we finish that, we'll move to

25 Lessons Learned website. We will take a lunch.

1	After lunch, we will go into closed session to talk
2	about possible litigation and maybe a personnel issue,
3	and that should last no longer than one hour. We'll come
4	back and continue with our subcommittee, and that will be
5	our Redistricting Engagement, Commissioners Sinay and
6	Fornaciari. Our Audit Subcommittee Commissioners Taylor
7	and Le Mons. And then we'll end with our Staff Services,
8	SSM-1 Subcommittee, Commissioner Turner, and Fernandez.
9	At that time, we will see if there are any other
10	I think everyone I think that's everyone that said they
11	had something to present, we then will have our general
12	public comment. So we may be finished before break. We
13	may go after. We'll do the work to get it done.
14	So at this time, I'd like to ask for all of the
15	commissioners, if there are any general comments that you
16	have for this session. Okay. Seeing none, we'll get
17	into our day.
18	Director Hernandez, take it away.
19	EXECUTIVE DIRECTOR HERNANDEZ: Thank you, Chair.
20	And good morning, Commissioners. Again, today, I'll
21	be covering just what staff has been doing. We'll go
22	over a budget presentation that I put together for you
23	and I'll be able to answer any questions at the end of
24	the presentation as well.
25	I'll start off talking about our staffing and it

1	ties into the BCP that we have submitted and also in our
2	budget requests that we had submitted. So on July 5th,
3	the Department of Finance and to JLBC release post-map
4	funds in the amount of \$2,797,000. Staff worked very
5	closely with DOF, JLBC to identify the needs for the next
6	fiscal year, including our staffing needs. And a lot of
7	the information came from the long-term planning
8	worksheet that was put together, the number of meetings,
9	how often and so forth.
10	So that information was very helpful in conveying
11	our needs to the Department of Finance and Joint
12	Legislative Budget Committee. And based on all our
13	reduction or closing activities, we've estimated that our
14	current staff would off board by the end of December
15	2022, and I'll go over some of the activities during my
16	presentation.
17	So one of the things that we are trying to do as
18	we're winding up our activities or reducing our
19	activities, is making sure that we're systematic in our
20	approach to capturing all our information, storing our
21	information. So in essence, what we're trying to do,
22	we're trying to organize the closet in talking with Raul,
23	the last commission, because it was shut down so
24	abruptly, they basically threw everything into the
25	closet, closed the doors and left everything to you to

1 figure out and organize. And so we're trying not to do
2 that.

9

We're trying to organize that closet as best we can 3 4 so that the next commission can open the door and find 5 things where they should be. And so that's essentially what we're trying to do in the next six months is 6 7 organize everything for the next commission, as well as organizing the information for our staff person who will 8 9 be with you for the next eight years that SSM-1 that 10 you'll hear more about later on today and they will 11 basically be on board soon, hopefully.

And beginning in January, they will be your primary contact person for anything and everything. Okay. Any questions on that part of it? And like I said, I'll be adding and sharing additional information on what those reduction activities or closing activities will be and during the presentation. Okay. I'm going to go ahead and move on.

19 These are some updates regarding our transcripts. 20 Our new vendor who's doing the transcripts is making 21 tremendous progress in completing the missing 22 transcripts. So we're getting very much to the point 23 where we're almost caught up. Our map request -- there 24 was a request a couple of months ago to have ZIP codes 25 available.

www.escribers.net | 800-257-0885

1	As you recall, we reached out to the U.S. Postal
2	Service and we have yet to hear back from them. However,
3	in the interim, we did find another website that did
4	provide essentially what we were looking for. It's
5	UnitedStatesZIPcodes.org website. We have a link on our
6	website to that. And again, the data sources for that
7	website are the U.S. Postal Service, the U.S. Census
8	Bureau, Yahoo!, and the IRS. So I just want to update
9	you on that.
10	Regarding our website, we'll have some additional
11	information today. I'm going to defer to the Website
12	Subcommittee for that update. Regarding our database
13	beginning in August will be providing the State Archive a
14	copy of our database and corresponding PDFs.
15	In addition, we're looking at possible long-term
16	solutions beyond our table to improve access and ease of
17	use by the public. That also connects the maps and the
18	map viewer, the ESRI. So that will be available for the
19	next eight years as well. So that's a long-term plan
20	that we're looking at. More information is going to come
21	in the future as we're identifying some of these possible
22	solutions for you to consider. Any questions?
23	Okay. I'm going to go ahead and move on to some
24	budget updates. As I mentioned earlier, DOF and JLBC
25	approved the release of the post-map operations funds in

1 the amount of 2,797,000. As part of our justification to 2 them, we identified those funds -- what those funds would 3 be used for, and that'll be part of my presentation. On July 1st, we also, with the input of our Chief Counsel, 4 5 Chief Counsel Pane, submitted another letter requesting the release of funds for litigation for the litigation 6 7 contract because we're unable to finalize that contract 8 at this point.

9 So we've explained in that request a bit more detail 10 that is not just for litigation, but it also includes for 11 advice, memoranda, and other legal services regarding the 12 finalized boundaries. So we're getting -- we're hoping 13 to have additional conversations with them to have the 14 funds released for that.

An update on the COVID funds, we did ask JLBC and the DOF to consider releasing the remaining COVID funds. They asked for us to go back and see if we can identify any expenditures related to COVID funds beginning July 2020 through December 2021 that we can directly identify as COVID related.

And so after our review, we were unable to identify any additional COVID expenditures. And therefore, those funds that were remaining from the COVID that we did not request originally have reverted back to the general fund as of June 30th, 2022.

www.escribers.net | 800-257-0885

1 So essentially that request was canceled because we 2 wouldn't have been able to use those funds. As I have mentioned before, the COVID funds will not be used to 3 calculate the 2030 Commission Baseline Appropriation. 4 5 And that's important to note because when we did look back, I think when we did look back, we wanted to make 6 7 sure that whatever activities the Commission was involved 8 in or performed that would need to be performed by the 9 next commission were not assigned to COVID in the sense 10 that those need to be included as part of the baseline for the next commission. 11 12 So we took a lot of care to identify and make sure 13 that we weren't identifying activities that would need to 14 be done regardless of COVID. So just wanted to make sure 15 I clarified that piece of it, why we went back and why we

16 weren't able to identify any additional funds.

So in regards to our expenditures, today I'll be providing you an update of our budget and expenditures in a PowerPoint presentation. The PowerPoint presentation is posted under the handouts for today's meeting, and we've also posted several PDF documents that show the detailed expenditures.

All of this was reviewed and discussed with the Audit Subcommittee and approved to be posted. So all that information is out there and is available. And with

www.escribers.net | 800-257-0885

1	that, I'm going to go ahead and start the PowerPoint
2	presentation. Can you all see the presentation?
3	CHAIR TURNER: Yes.
4	EXECUTIVE DIRECTOR HERNANDEZ: Okay, wonderful. All
5	right. So I'll take questions as they come up. I can't
6	see everybody on the screen.
7	So Chair Turner, if you don't mind letting me know
8	if there is a question, I can go ahead and pause at that
9	point.
10	CHAIR TURNER: Will do.
11	EXECUTIVE DIRECTOR HERNANDEZ: Thank you. Okay. So
12	first I started off, here's our appropriations. We have
13	the 2019 which was 16,811,000. 2020, we had 92,000.
14	2021, we had 8,594,000. So total appropriation that the
15	commission received was 25,497,000. Of that, 5,200,000
16	was directly transferred to the State auditors, and
17	that's to perform the activities as the commission was
18	standing up. So commission specific funding was
19	20,297,000.
20	Now, they've also identified the expenditure
21	authority, which has a little bit more detail than just
22	the lump sum amounts. So the baseline cost, you'll see
23	that it was 3,936,000. 2019, operational cost was 1.3.
24	Outreach, 2.065 million. Operational costs in 2020 was
25	92,000 that they gave us then. And then we requested

1	as you recall, we did request additional funds when we
2	evaluated whether or not we needed them because of the
3	delays to COVID and also the data from the Census Bureau.
4	So the adjustments will be reflected there as part
5	of the 2021 allocation. So we just received as of July
6	5th, the 2,797,000. I did not include it in this report
7	as it was after the June end of the fiscal year. And
8	so just makes it for a clean break or separation of
9	information. So total amount that was released to the
10	commission is \$14,778,614.
11	So unreleased funds as I mentioned, we did have
12	some unreleased funds from the COVID pot. If you
13	would that we did not use even though we did go back
14	and try to identify additional covered expenditures.
15	This is the amount that has been reverted back to the
16	general fund and this is the amount that is available
17	through June 2023. And that's the post-map funds.
18	And we did have those funds released prior to June.
19	So that's why they're included as part of this report
20	because they were released prior to the June 30th. Those
21	post-map activities carried us from January through June.
22	And now the additional funds that we've received as of
23	July 5th will carry us through
24	CHAIR TURNER: And
25	EXECUTIVE DIRECTOR HERNANDEZ: Yes?

1 CHAIR TURNER: And Alvaro, Commissioner Kennedy has 2 a question. 3 EXECUTIVE DIRECTOR HERNANDEZ: Okay. 4 COMMISSIONER KENNEDY: Thank you, Commissioner 5 Turner. Director Hernandez, I just want to make sure that 6 7 I'm understanding on that last line where it says 8 reappropriated 2019 Budget Act funding. We're not double 9 counting anything that was in that budget act of 2019 10 baseline operational costs or the Budget Act of 2019 11 Additional operational costs are we? 12 EXECUTIVE DIRECTOR HERNANDEZ: We are not. So in 13 the original 2019 budget, they appropriated 4.297 million 14 for litigation. That amount was reallocated in the 2021 15 Budget Act and it allowed for the Commission to use it 16 for post-map operations, including litigation. So that 17 same amount just carried over and we're not double 18 counting on that. 19 COMMISSIONER KENNEDY: Okay. So have we taken out 20 of the Budget Act of 2019 anything that we're showing 21 under this reappropriate action of 2018 funding? 22 EXECUTIVE DIRECTOR HERNANDEZ: NΟ 2.3 COMMISSIONER KENNEDY: Okay. 24 EXECUTIVE DIRECTOR HERNANDEZ: Any other questions? 25 Okay.

15

www.escribers.net | 800-257-0885

1 CHAIR TURNER: Yes, Commissioner Yee? 2 COMMISSIONER YEE: Thank you, Chair. So Director 3 Hernandez, just theoretically, if we had in fact expend 4 the post-map litigation funds on litigation, then what 5 would have happened to what we would we need an 6 additional allocation for post-map operations?	
3 Hernandez, just theoretically, if we had in fact expend 4 the post-map litigation funds on litigation, then what 5 would have happened to what we would we need an	
4 the post-map litigation funds on litigation, then what 5 would have happened to what we would we need an	
5 would have happened to what we would we need an	
6 additional allocation for post-map operations?	
	L
7 EXECUTIVE DIRECTOR HERNANDEZ: That would have bee	
8 one option. The other option would be basically to shu	
9 the door and say good-bye to staff and then we're done.	
10 And we didn't want to do that. So we would most likely	
11 request additional funds to get us through to the point	
12 where we were completed and had everything organized.	
13 Fortunately, that hasn't happened. If there were	.0
14 be any additional litigation moving forward, we would	
15 need to request those additional funds for that activit	, ,
16 for that litigation from the Department of Finance and	
17 JLBC as well.	
18 COMMISSIONER YEE: Okay.	
19 EXECUTIVE DIRECTOR HERNANDEZ: That would be a	
20 separate process, a separate activity that we would hav	<u>:</u>
21 to be involved in for that. Okay. Moving on.	
22 So this was a preliminary budget. It was discusse	L
23 in August of 2020. We discussed in October and discuss	d
24 again in December 2020. This was before we knew all th	:
25 delays of the Census, the COVID mandate. This was all	

1	before then. So this is the original amount that the
2	Commission looked at and established as the budget.
3	And you'll see in the next slide here that our total
4	expenditures were less than that. But we did make some
5	adjustments throughout the process and this was the
6	adjusted budget. So it went down a couple of hundred
7	thousand from the previous from the original estimate.
8	So 15,339,000 is what we estimate in our budget, and we
9	came in our total expenditures at 12,200,000.
10	So here you'll see that there's an additional
11	breakdown. We have the pre-map expenditures, we have
12	post-map expenditures and then we have the total and then
13	we have the total amount that is remaining and we're
14	using the adjusted budget.
15	CHAIR TURNER: Alvaro?
16	EXECUTIVE DIRECTOR HERNANDEZ: Yes?
17	CHAIR TURNER: Yeah. I'm sorry to interrupt. In
18	case the questions that are coming now is based on the
19	previous slide before you get too far, Commissioner
20	Akutagawa and then Commissioner Fernandez.
21	VICE-CHAIR AKUTAGAWA: Yeah, just a quick question.
22	I know that you had reported that the new vendor for the
23	transcripts is working at a good pace. Is it's
24	interesting that the budget is significantly the
25	actual, I guess, expenditures, much less than what was

1	actually budgeted. Is it because of the delay of the
2	previous vendor?
3	Essentially, they didn't get the work done. So you
4	know, they just didn't have to charge for as much of the
5	work. And so you know, it's small, but it still adds to,
6	you know, to the size of the budget as we look at the
7	future. Is that a discrepancy due to nonperformance,
8	basically?
9	EXECUTIVE DIRECTOR HERNANDEZ: I would say, yes. As
10	you recall, the contract is they get paid when the
11	transcript is completed. So if they didn't complete the
12	transcript, they would not get paid. And so that's where
13	you would find that discrepancy. There's quite a bit of
14	difference. And then moving forward, the transcripts
15	that are being completed that were passed meetings, those
16	funds will be coming out of the post-map operation fund
17	because that's an activity that's being performed after
18	the maps.
19	VICE-CHAIR AKUTAGAWA: Okay. So it is
20	EXECUTIVE DIRECTOR HERNANDEZ: After June.
21	VICE-CHAIR AKUTAGAWA: it is skewing it then.
22	And then also why is the translation interpretation
23	contract costs so much lower than what was budgeted?
24	EXECUTIVE DIRECTOR HERNANDEZ: We didn't have that
25	many requests. If you recall, we did share the

1	opportunity for people to call in and ask for translation
2	or interpretation in the meetings. And we didn't have a
3	whole lot of folks calling in for that, but we did have
4	and make that available to them if they needed it. So
5	that is part
6	VICE-CHAIR AKUTAGAWA: Okay.
7	EXECUTIVE DIRECTOR HERNANDEZ: of the
8	discrepancy. We just didn't have the volume of
9	interpretation that we anticipated.
10	VICE-CHAIR AKUTAGAWA: Okay. That's helpful to
11	know. I think I just want to put a note, though, that we
12	shouldn't reduce it just because it wasn't used as much.
13	I think that doesn't mean that it won't in the future. I
14	think this was the first time that it's been offered as
15	extensively as it has, and I think it'd be important to
16	ensure that we continue to account for that and ensure
17	that in the future budgets, you know, that that is at
18	least at the full cost. And then if they don't use it,
19	then, you know, that's fine, but it should be made
20	available. Thanks.
21	CHAIR TURNER: Commissioner Fernandez?
22	COMMISSIONER FERNANDEZ: Thank you, Chair. Director
23	Hernandez, I think my question is similar to Commissioner
24	Akutagawa and has to do with the total expenditures,
25	because there are expenditures that are delayed that, you

_	
1	know, as of July 1st, we hadn't paid yet. There's
2	outstanding invoices and some of the salaries and TDC's
3	and per diems. So I just want to make sure that I
4	understood. So these are just the expenditures that you
5	have as of June 30th. So would it necessarily reflect
6	all the expenditures of June 30th? It's just what has
7	been paid to that date; is that correct?
8	EXECUTIVE DIRECTOR HERNANDEZ: I would say so. And
9	for the most part, all of the activities we estimated
10	based on previous amounts from the previous months, there
11	may be some changes to that final amount if we have an
12	additional invoices that come in after the fact. But as
13	far as salaries, those are pretty much static. They're
14	not going to fluctuate too much. Commissioner per diem
15	and travel, as far as the travel, that's not going to
16	that may change a little bit, but the per diem may not
17	change all that much. All the other ones are pretty
18	caught up.
19	COMMISSIONER FERNANDEZ: Okay. So like for the
20	salaries, you projected it?
21	EXECUTIVE DIRECTOR HERNANDEZ: Correct. And we
22	projected
23	COMMISSIONER FERNANDEZ: Okay.
24	EXECUTIVE DIRECTOR HERNANDEZ: primarily for June
25	because we don't have the actuals for June yet.

COMMISSIONER FERNANDEZ: Yeah. And that's probably
 one of the major costs. Thank you.

3	EXECUTIVE DIRECTOR HERNANDEZ: Yeah. The other note
4	I wanted to make here is that we added some additional
5	line items, for example, the ASL, the transcription and
6	the translation. And the reason that we did that is
7	because there were the higher dollar amounts and there
8	were very specific contracts that we were tracking and so
9	we added those. Obviously, we have many, many more
10	contracts. And if you look at the contract services PDF,
11	you'll see a list of all the different contracts that we
12	have.
13	But these were the primary ones that the Commission
14	identified that they wanted to track, and they were
15	associated with a lot of the meetings that we had. So
16	that's why we have added those into this chart and that's
17	why we're tracking them like this. Any other questions?
18	CHAIR TURNER: Looks like we're good.
19	EXECUTIVE DIRECTOR HERNANDEZ: Okay. So here, this
20	is a bigger picture with some detailed breakdown. We
21	have the adjusted budget, we have the pre-map
22	expenditures. Oh, I don't know what happened there. And
23	you'll see that we estimated or we calculated the
24	expenditures through December and that's the pre-map.
25	The maps were completed December 27th, so we just carried

e cribers

1 it all the way through the end of December.

2	Our total expenditures up until that date was
3	10,832,000, and then post-map expenditures was 1,376,000.
4	So that's kind of where we separated. And part of the
5	reason that we separated that out is because the
6	Legislature has requested and the statute requests that
7	we provide a specific information on the costs to
8	complete the maps. So all the activities up to the map
9	completion is what we're capturing, and that's a
10	distinction that has been asked for us to provide details
11	on. Any questions? Okay.
12	So of the release funds, the 14 million, we have 2.5
13	million remaining. If we subtract out those funds that
14	were not expended, that leaves us with 1,503,000. That
15	1,503,000 coincides with the amount that was released for

17 I find this very unique.

16

18 And I think it was a testament to how efficient this 19 commission was in conducting their business, that we were 20 able to come and be under budget because we had to pivot 21 so often throughout the process. We added things 22 throughout the process and so we were very good at 23 tracking and making sure that we didn't overspend. So 24 the total amount that we had available was 44,300,000 for 25 all our closeout activities.

post-map activities. So you'll see that. And this is --

1	Okay. So here are projections through July 20, 22
2	through June 2023. Now, we're going on a fiscal year for
3	the previous information that was shared, that was two
4	fiscal years, actually, 2021 and 2022. Now, moving
5	forward, we're in a new fiscal year is a '22/'23 fiscal
6	year. And this is what our projections are. And this is
7	based on, again, the information that was shared from the
8	Long-Term Subcommittee, where they estimated the number
9	of meetings that we would have for the for the next year.
10	Also, based on the salaries that we anticipated and
11	some of the other activities for closing operations or
12	reducing operations. And I'll get into more details at
13	the end of the presentation as to what is involved in
14	some of these activities.
15	I see a hand, Commissioner Fernandez.
16	COMMISSIONER FERNANDEZ: Thank you, Executive
17	Director.
18	I just wanted to make a comment that I really
19	appreciate you showing that there's office space, because
20	that's really one of my concerns. I want to make sure
21	that there last time with the 2010, they kind of
22	didn't have a home after they closed shop. So I want to
23	make sure that there is some sort of office space for our
24	staff and potentially our meetings. Thank you.
25	EXECUTIVE DIRECTOR HERNANDEZ: Yes.

1	CHAIR TURNER: Commissioner Kennedy?
2	COMMISSIONER KENNEDY: On that, this we pay rent
3	on the space that we currently have or that's provided?
4	So I'm not understanding why we pay rent in the future if
5	the requirement in the legal framework is that the
6	Governor's office provide us with office space. I don't
7	recall there being a time limit on that provision that
8	the Governor's office provide us with office space.
9	Thank you.
10	EXECUTIVE DIRECTOR HERNANDEZ: We are looking at
11	that. Our understanding from the last Commission at the
12	end of the activities of drawing the maps, essentially
13	everything ended. So we're being a little bit more
14	precautious, anticipating that that may change. We'll
15	certainly pursue that and see if we can have that
16	available to us at no cost. But in the event that we
17	don't, we wanted to make sure we have the funds available
18	to move forward.
19	Again, as Commissioner Fernandez mentioned, the last
20	time we didn't have an office space, it was basically
21	you're done, you know, figure it out. And we had staff
22	that figured it out. You know, they were working
23	remotely before it was the thing to do.
24	So moving forward, we'll look into it. But we want
25	to be cautious and want to be prepared. We're looking at

1	particular office space here so that we don't have to
2	change everything. And hopefully that will work out.
3	More information will follow on that piece of it. Thank
4	you.
5	Okay. I'm going to go ahead and talk a little bit
6	more details about the pre-map and the post-map
7	expenditures. And this will be more of a visualization
8	piece of it. We'll have some graphs that will help you
9	kind of see our activity peaks and valleys. So the pre-
10	map budget, again, this is through the end of December.
11	Those are the activities that we performed through that
12	time frame.
13	This was the budget for that time frame. Our
14	expenditures were 10,832,000. From January through June,
15	this is kind of the breakdown. We budgeted 1 million for
16	salaries. It came up a little bit higher. But in the
17	end, we were below what we originally estimated to be the
18	budget. We're at 1.3.
19	So again, this is a slide that I showed earlier.
20	This shows you the big picture. I'll move on here. This
21	is a visual. The majority of our budget was spent on
22	salaries, wages and per diem and videography costs. And
23	you'll see that our operations was a lot less than what
24	we originally estimated.
25	One of the big things that we realized was that a

www.escribers.net | 800-257-0885

1 lot of the contract services were included in the -- and 2 all references from this point on OE&E bucket, if you 3 would call it. OE&E stands for operation expenditures 4 and equipment. And so a lot of these contract services 5 were included there. 6 We separated them out so that we can track them 7 individually. So that's why you'll see that originally 8 our operations cost was extremely high and ultimately it 9 was reduced because we pulled information out to itemize it a little bit better. 10 11 Here, this slide is just to show the activities for 12 the salaries. And you'll see as we picked up our 13 activities in December of 2020, it's the hiring of our 14 Communications Director, Executive Director, Deputy 15 Executive Director and some other staff. We peeked a 16 little bit there. We had some changes and then we went 17 up again in February, March. 18 And then as we started doing the outreach activities 19 through the end of December and January, actually, we 20 were at full staff, full capacity. And you'll see the 21 activities of the of the staff as well as the 22 commissioners. 2.3 This here, this is our meeting expenditures. This 24 shows and reflects the expenditures to put on a meeting 25 essentially without the commissioners or the salaries of

26

www.escribers.net | 800-257-0885

1	the staff. This is just meeting expenditures. So we
2	have videography, ASL, interpretation and translation.
3	As I noted, that wasn't as high as we anticipated it
4	would be. In August, we had kind of our peak of our
5	interpretation services, so that is reflected there.
6	I see a hand there, Commissioner Kennedy.
7	COMMISSIONER KENNEDY: Thank you, Director
8	Hernandez. M
9	I'd like to go back and endorse Commissioner
10	Akutagawa's point about making sure that there is an
11	ample budget for interpretation for the 2030 Commission.
12	I think part of the reason that we see the interpretation
13	costs varying so much during this period is that we did
14	not implement a policy of offering Spanish interpretation
15	for all meetings.
16	And I think we've generally, my sense at least is we
17	generally reached agreement that that should in fact be
18	the case going forward. So I would have met I would
19	imagine that if we had had Spanish interpretation for all
20	of our meetings, that the interpretation costs would be
21	more significant and a little more even throughout the
22	period. Thank you.
23	EXECUTIVE DIRECTOR HERNANDEZ: Okay. The next slide
24	here is in regards to our line drawer and legal services
25	and we didn't have them before March. And so that's why

1	it doesn't reflect any information there. But you'll
2	see, you know, all the activities ramped up from November
3	through December as we were completing the maps. So it's
4	just a nice visual to kind of capture that activity.
5	And then here it everything together, all the
6	different activities that we have going on. As I
7	mentioned, these are our projections from July 2022
8	through June 2023. The funds that were allocated for
9	post-map operations, they revert back in June of 2023.
10	So just to note that. These are some of the activities
11	that will be performing during that time frame. The
12	staff that is remaining.
13	Now, obviously the SSM-1 will have carryover of some
14	of these activities as well as some additional activities
15	moving forward. We would work with them to ensure that
16	they there is a smooth transition to any of the
17	activities that were not completed or were upon
18	completion so that they can carry them forward and also
19	provide additional information to the Commission as
20	needed on any activities that were not yet completed or
21	any follow ups that needed to be done.
22	But obviously the Budgets and Accounting, we're
23	working on that on a regular basis. The majority of the
24	information for the previous fiscal year is going to be
25	available in the latter part of July, early August, is

1 our understanding. So we'll be working on a lot of 2 information to put together a report, and we will be working with the Finance and Admin Subcommittee to 3 4 provide that information so that they can work on that 5 report as well. Property inventory: We're going to be conducting a 6 7 property inventory. That means all our equipment that we have, all the laptops, our office equipment, things of 8 9 that nature. A lot of it is going to go back to the 10 State warehouse and we're going to work with the 11 Department of Rehabilitation, which is the building in 12 which we are in, and the Department of General Service to 13 identify an office space for the next eight years. 14 Accounts and Contracts: We've identified some of 15 the contracts that will remain. For example, the 16 videography ASL, transcription, some of the other 17 contracts will include our contract services will include 18 our Verizon contract for our cell phones, AT&T, things of 19 that nature that will carry forward to ensure that the 20 commission continues and is able to conduct their 21 business. 22 Commissioner Sinay? 2.3 COMMISSIONER SINAY: Thank you. This presentation 24 is really well done and it's really helpful. A quick 25 question you had said about returning equipment and

www.escribers.net | 800-257-0885

1	property. It's an inventory, but we're not returning our
2	laptops and cell phones until the end of the ten years or
3	what's the thought there? It just feels like we have
4	really good laptops.
5	EXECUTIVE DIRECTOR HERNANDEZ: Yes.
6	COMMISSIONER SINAY: They are probably not being
7	used as much as somebody else may be able to use.
8	EXECUTIVE DIRECTOR HERNANDEZ: The laptops that the
9	commissioners have will stay. I'm referring mostly to
10	the other laptops, other equipment that we have from
11	staff that is no longer with us or won't be with us. The
12	Commissioner's equipment will continue on.
13	CHAIR TURNER: Commissioner Fornaciari?
14	Commissioner Andersen?
15	COMMISSIONER ANDERSEN: Yes. Sorry.
16	CHAIR TURNER: That's okay.
17	COMMISSIONER FORNACIARI: Yeah, I, too, want to
18	thank Executive Director Hernandez and his team for
19	putting this together. This was really, really helpful.
20	Really well-done snapshot of what we did and what we
21	spent. It's going to be very helpful, obviously, for
22	writing the report that we need to write to the
23	Department of Finance and for those committees that are
24	looking to the future for work.
25	I just want to say to the to you and the

1 Commission that, you know, while there were some 2 additional expenses that -- COVID related expenses that the Commission undertook, there are also some savings. 3 So we need to be really deliberate about how we think of 4 5 that and how we present to the Legislature, you know, what our estimated actual costs, what we believe the 6 7 costs will be for the next commission. Sorry. But thank 8 you again for this this report. Really well done. Thank 9 you.

10 CHAIR TURNER: Thank you. Commissioner Andersen? COMMISSIONER ANDERSEN: 11 Thank you, Chair. Yes. 12 also concur with the congratulations and thank you on 13 this document. It really is very helpful. I also concur 14 with the thought. We did have a lot of savings in what 15 we did over this time period based on travel specifically 16 and many other items that would have had to been done in a much shorter time period, which causes in inefficiency 17 18 usually and more time.

So I want us to be really careful about that. But the item I want to talk about just briefly is the office space for the next eight years, and this is going to the close of '23. But as it stands now, July 1st of '23, we have to -- any of our meetings have to be in public so you know where our office is and the cost of how we do a public meeting.

31

1 It needs to be in the budget somehow because we are 2 planning on actually having some meetings and I'm not 3 sure I didn't see where that would be quite included in 4 specifically where it might be included. So that's an 5 item I want us to keep in mind when we look at office 6 space for the next eight years.

7 EXECUTIVE DIRECTOR HERNANDEZ: Sure. And if I can answer that question. The budget moving forward from 8 9 July 1st, 2023 and thereafter until the new commission is 10 seated, that was part of the BCP and there is an 11 associated expenditure or budgeted amount for meetings to 12 be held in person. That's one of the things that when we 13 were discussing it with Department of Finance, we made 14 clear that we don't know if the law will change.

15 We need to have and make sure that we have available 16 funds for travel, for the commission and for a venue site if we are now -- if we go back to in-person meetings. 17 18 That is yet to be seen. Obviously, the things have 19 changed considerably now that we're back to remote 20 meetings. Come July 1st of 2023, I don't know what that 21 will be, but we have considered that and we have funds 22 available for those activities.

23 CHAIR TURNER: Commissioner Kennedy?

COMMISSIONER KENNEDY: Thank you, Chair. Going backto my previous comment regarding office space, Government

www.escribers.net | 800-257-0885

Code Section 8250 3.6(A), in the middle of that paragraph says the governor shall also make adequate office space and meeting space available for the operation of the commission.
Now, admittedly, there are references elsewhere in

that paragraph to a period of three years. So we would 6 7 need Chief Counsel Pane's advice on whether that three-8 year period also refers to the Governor making available 9 adequate office space and meeting space. But to the 10 extent that there is a -- that we would see -- might see 11 a statutory limit to a three-year period on providing 12 adequate office space and meeting space, this might be 13 something that we add to our list of Legislative changes 14 that we want to make it clear that that sentence the 15 governor shall also make adequate office and meeting 16 space available for the operation of the Commission is 17 for the entire term of the commission.

And I would also encourage us to focus on the fact that this does say both. This does refer to both office space and meeting space. Thank you.

CHAIR TURNER: Thank you, Commissioner Kennedy.
 Director Hernandez?
 DIRECTOR HERNANDEZ? Oh, thank you. That concludes

24 my presentation.

25 CHAIR TURNER: Okay. Thank you for the

33

1	presentation. Is that for your full report today? Do
2	you have anything else?
3	EXECUTIVE DIRECTOR HERNANDEZ: No, that is my
4	complete report. The PowerPoint is available and it was
5	posted on our website under the handouts, along with the
6	other handouts that detail the expenditures by month.
7	CHAIR TURNER: Okay. And just a quick question.
8	Chief Counsel Pane or Director Hernandez, the concern to
9	questions that was lifted today, what is the expectation
10	on path forth to be able to determine how we should move?
11	EXECUTIVE DIRECTOR HERNANDEZ: So just for
12	clarification, are you referring to the office space
13	question?
14	CHAIR TURNER: Um-hum.
15	EXECUTIVE DIRECTOR HERNANDEZ: Okay.
16	CHAIR TURNER: Yeah, yes.
17	EXECUTIVE DIRECTOR HERNANDEZ: That's the one I have
18	listed here. We're going to look into that a little bit
19	more. Based on our experience or Raul's experience from
20	2020 from 2010, it was very different. And so we're
21	charting a different path. And so we'll look into this a
22	little bit further. I'll consult with Chief Counsel Pane
23	as to what will happen next and what path we should take.
24	CHAIR TURNER: Um-hum. Okay. Okay. And to then
25	the commissioners, I was also writing and listening. Was

1	there something else? Do we have clarity on all of the
2	piece parts that was lifted as far as what we need and
3	who's taking who's going to check into it, I know
4	there was the request to ensure that translation services
5	are not minimized and you took that one. Is everything
6	else clear in our minds?
7	Commissioner Sinay?
8	COMMISSIONER SINAY: I just want to make sure that
9	the right subcommittee took on the recommendation from
10	Commissioner Kennedy to create language around that last
11	piece that Commissioner Kennedy brought up.
12	CHAIR TURNER: Is that your whose subcommittee is
13	it?
14	COMMISSIONER SINAY: Yeah. Commissioner Fernandez
15	and Akutagawa.
16	CHAIR TURNER: Okay. Commissioner Fernandez?
17	COMMISSIONER FERNANDEZ: Yes, I did jot it down.
18	Obviously, it won't be on the spreadsheet that we go over
19	today because we've already we already have that out
20	there. But it can be discussed in future meetings. And
21	I did have one more thing. I missed this I missed my
22	hand on this one, Executive Director Hernandez. On the
23	transcripts, I think it's important with to provide
24	feedback on the initial vendor that we had that did not
25	perform.

I think it's important to provide feedback to
 Department of General Services in terms of them not
 completing what we had requested. And I think it's
 important for other agencies who may be wanting those
 services as well. I think it's very important to provide
 that feedback. Thank you.

7 CHAIR TURNER: Thank you.

8 Commissioner, Yee?

25

9 COMMISSIONER YEE: Thank you, Chair. Thank you, Dr. 10 Hernandez, for this presentation and all the details that 11 you and your staff put together. I'm wondering if I can 12 risk digesting it down to a sound bite version. I'm 13 hoping you can check me on this. So as I understand it, 14 so the auditors spent a little over 5 million to see 15 this. We then spent a little over 12 million through 16 June this last month to do all our work. So that's a 17 little over 17 million.

We're projecting about 3 million for the coming year or so until all staff are wrapped up. So that's 17 plus 3, about a little over 20 million for all operations and everything through the end of next year. And then you said at the very beginning there were initial appropriations, the total of all the appropriations was about 25 million.

So total appropriations, 25 million, actual

1	expenditures through in the next year, about 20 million.
2	And so we end up not spending almost 5 million that was
3	appropriated. Does that sound right? And basically,
4	that was litigation. Post map litigation we didn't have
5	to spend money on. So in round numbers does that sound
6	about right?
7	EXECUTIVE DIRECTOR HERNANDEZ: That sounds about
8	right to me.
9	CHAIR TURNER: Thank you. Any other questions or
10	comments for Director Hernandez?
11	Director Hernandez?
12	EXECUTIVE DIRECTOR HERNANDEZ: Yes, I just wanted to
13	thank my staff, Terry, our budget officer, Raul, and our
14	Audit Subcommittee. They were very helpful in providing
15	guidance and going through and looking at the PowerPoint
16	to make sure that it made sense and we were able to get
17	through it. So I wanted to thank them for all their
18	assistance.
19	CHAIR TURNER: Commissioner Fernandez?
20	COMMISSIONER FERNANDEZ: Yes, thank you. Just
21	quickly, I also wanted to thank Director Hernandez and
22	his staff and also the subcommittee. This is what
23	Finance Admin Subcommittee. That's what we're looking
24	for, all the detail, all the information. So thank you
25	so much. I know it was an easy task and it was a lot of

1	work. And I appreciate you presenting it in a
2	information in a in a method that was easy to
3	understand. Thank you so much.
4	CHAIR TURNER: All right. Director Hernandez, do
5	you feel appreciated? A lot of the commissioners have
6	said one-on-one. We've all went through. We are very
7	much pleased with the report. We look forward to the
8	just the tweaks, the upgrades, the answers to the
9	questions. But job well done for sure. Thank you.
10	EXECUTIVE DIRECTOR HERNANDEZ: Thank you.
11	CHAIR TURNER: Commissioner Sinay?
12	COMMISSIONER SINAY: It took a long time to get
13	here. And so I really appreciate the report we have and
14	that we finally can understand everything. What I would
15	hope is, Director Alvaro, that you may write a good memo
16	to whoever heads up the commission 2030 on what is a good
17	financial accounting and good report for the public and
18	for commissioners, because it took us a long while to get
19	here. And of course, they're going to want to do it
20	their own way. But I think just having a template or
21	something is always a great place to start and then build
22	from there.
23	CHAIR TURNER: Beautiful. Okay. Thank you. Thank
24	you. At this point, then we'll go ahead and move to our
25	Chief Counsel Pane for any updates or announcements you

1 have for us there.

2	MR. PANE: Thank you, Chair. Good morning,
3	Commissioners. I did want to make one mention, as you
4	all may know, that the Governor had signed the budget.
5	And there's a provision in that in SB 189, which was
6	signed for the budget that allowed suspension of the
7	Bagley-Keene requirements for the in-person locations
8	essentially to continue what was happening under
9	executive orders, where there's not a requirement for a
10	physical location and all where members are able to
11	participate remotely. And so we will are able to
12	continue that until July 1st of 2023, at which point that
13	statute is repealed.
14	In the interim, it's very likely that a more
15	permanent solution is going to be worked out
16	Legislatively. We don't know what that is yet, but
17	that's something we will certainly monitor and work
18	closely on. So I'll be engaging the commission on that
19	when we know more. So just sort of there's sort of
20	two pieces. There's the bridge to July 1st of 2023 and
21	then in the interim, there's likely to be a permanent
22	solution. And that may or may not be what it looks
23	like what keeps us going until July 1 of 2023.
24	CHAIR TURNER: Thank you, Chief Counsel Pane. We
25	appreciate that. And I'd like to say yay. And we have

39

1	all fourteen commissioners online. So I'm super excited
2	about that. And I'm just really hopeful that with the
3	work that's being done and with our adding into that
4	work, we're able to have something a little bit more
5	permanent, even beyond the year in place, so that we
6	won't keep tripping over this depending on what's going
7	on in the world. So yes, thank you for the update and
8	I'm glad for our reprieve. We have, at least for the
9	next twelve months, to be able to still conduct business
10	in a safe manner.
11	At this point, I'm going to call for public comment
12	on item number 2. Kristian?
13	PUBLIC COMMENT MODERATOR: Yeah. I can help you
14	with that, Chair. Just a moment. In order to maximize
15	transparency and public participation in our process, the
16	commissioners will be taking public comment by phone. To
17	call in, dial the telephone number provided on the
18	livestream feed. It is 877-853-5247. When prompted,
19	enter the meeting ID number provided on the live stream.
20	It is 81170012495. When prompted to enter a participant
21	ID simply press the pound.
22	Once you've dialed in, you'll be placed in a queue.
23	To indicate you wish to comment, please press star 9.
24	This will raise your hand for the moderator. When it's
25	your turn to speak, you'll hear a message that says the

host would like you to talk. Press star 6 to speak. If you'd like to give your name, please state, and spell it for the record. You are not required to provide your name to give public comment. Please make sure to meet your computer or livestream audio to prevent any feedback or distortion during your call. Once you're waiting in the queue, be alert for when it is your turn to speak. And again, please turn down the livestream volume. And there are no callers in the queue at this time, Chair. CHAIR TURNER: Okay. Then we will go ahead and move on to our subcommittee reports. We have a good chunk of time about thirty minutes before our first break. So we will begin with our Legislative and Long-Term Planning, Commissioners Akutagawa and Commissioner Fernandez. COMMISSIONER FERNANDEZ: I thank you, Chair. We had figure out which order we should go in. I think hopefully Commissioner Akutagawa will agree. I think we'll start with the letter of support. Is that part of the best? Okay. So one of the one of the documents is a letter of support for Assembly Bill 1848. And this is the bill that would make the change related to how we 4 how future commissions handle the incarcerated population		
for the record. You are not required to provide your name to give public comment. Please make sure to meet your computer or livestream audio to prevent any feedback or distortion during your call. Once you're waiting in the queue, be alert for when it is your turn to speak. And again, please turn down the livestream volume. And there are no callers in the queue at this time, Chair. CHAIR TURNER: Okay. Then we will go ahead and move on to our subcommittee reports. We have a good chunk of time about thirty minutes before our first break. So we will begin with our Legislative and Long-Term Planning, Commissioners Akutagawa and Commissioner Fernandez. Commissioners Akutagawa and Commissioner Fernandez. Commissioner few documents, handouts, and I was trying to figure out which order we should go in. I think hopefully Commissioner Akutagawa will agree. I think we'll start with the letter of support. Is that part of the best? Okay. So one of the one of the documents is a letter of support for Assembly Bill 1848. And this is	1	host would like you to talk. Press star 6 to speak. If
A name to give public comment. Please make sure to meet your computer or livestream audio to prevent any feedback or distortion during your call. Once you're waiting in the queue, be alert for when it is your turn to speak. And again, please turn down the livestream volume. And there are no callers in the queue at this time, Chair. CHAIR TURNER: Okay. Then we will go ahead and move on to our subcommittee reports. We have a good chunk of time about thirty minutes before our first break. So we will begin with our Legislative and Long-Term Planning, Commissioners Akutagawa and Commissioner Fernandez. COMMISSIONER FERNANDEZ: I thank you, Chair. We had quite a few documents, handouts, and I was trying to figure out which order we should go in. I think hopefully Commissioner Akutagawa will agree. I think we'll start with the letter of support. Is that part of the best? Okay. So one of the one of the documents is a letter of support for Assembly Bill 1848. And this is	2	you'd like to give your name, please state, and spell it
5Please make sure to meet your computer or livestream6audio to prevent any feedback or distortion during your7call. Once you're waiting in the queue, be alert for8when it is your turn to speak. 23 COMMISSIONER KENNEDY: Thank you, Chair. I'm trying 24 to get back to the copy of the letter that I just got.	21	CHAIR TURNER: And Commissioner Fernandez oh,
24 to get back to the copy of the letter that I just got.	22	Commissioner Kennedy?
	23	COMMISSIONER KENNEDY: Thank you, Chair. I'm trying
25 Okay. The last sentence in paragraph 3 is to me, I can't	24	to get back to the copy of the letter that I just got.
	25	Okay. The last sentence in paragraph 3 is to me, I can't

www.escribers.net | 800-257-0885

1	figure out what the intent of that sentence is, and I
2	hope we can redraft it before the letter goes out. I
3	don't know whether it's trying to convey that once the
4	last the incarcerated person's last known address is
5	known or because it's known and it just it comes
6	across as very awkward and I think we can help. We can
7	come up with better wording for it. Thank you.
8	CHAIR TURNER: Commissioner Kennedy, you're
9	referring to the as the as opposed to one of your other
10	word choices?
11	COMMISSIONER KENNEDY: That whole sentence,
12	basically.
13	CHAIR TURNER: Okay.
14	COMMISSIONER KENNEDY: I think it needs to be. I
15	mean, I keep coming back to the purpose of language is to
16	make it impossible to be misunderstood. And I think this
17	sentence has many possibilities of being misunderstood.
18	CHAIR TURNER: Okay. We'll look at that.
19	Commissioner Andersen?
20	COMMISSIONER ANDERSEN: Thank you, Chair. Yeah.
21	First of all, I want to say, while the committee the
22	subcommittee has done amazing amounts of work and I
23	really love so much of all of the items and I had very
24	little comment, unfortunately, this particular one I
25	have I do have a lot of comments on. I agree with

1	Commissioner Kennedy. It tries to be concise and say
2	what it means, but it's a little vague. And I would I
3	was trying to come up with proper wording for it.
4	And you know, rather than take a bunch of commission
5	time, I'd like to actually say that I possibly even
6	worked with Commissioner Kennedy or just suggest ideas to
7	the subcommittee to quickly revise this because
8	basically, I think it's simpler than that.
9	Right now, all the other jurisdictions are required
10	to do this. But we were only requested. So we're just
11	trying to be consistent with the other jurisdictions.
12	It's sort of that simple and put into law. And we sort
13	of get around to saying that. But it's just a little
14	to
15	CHAIR TURNER: God bless you.
16	COMMISSIONER ANDERSEN: I did not have a chance to
17	actually work up exactly what the oh, how about this
18	passed everybody? But I would really like us to
19	reconsider because I think it well, this letter does
20	not reflect all the fantastic work the subcommittee has
21	been doing and all the precise wording and changing that
22	I think they've been doing. And this one, I still don't
23	understand it.
24	CHAIR TURNER: Yeah. Okay. So I'd ask Commissioner
25	Akutagawa and Fernandez your intent for this letter. The

1 intent and what is your desire? 2 COMMISSIONER FERNANDEZ: Well, the intent of the letter is so that we go on record as a commission to 3 4 support the Assembly bill. 5 CHAIR TURNER: Right. So not necessarily reflection of all the other work you're doing is just to say --6 7 COMMISSIONER FERNANDEZ: No, not at all. 8 CHAIR TURNER: -- yes, we support what you are 9 already doing. 10 COMMISSIONER FERNANDEZ: Yes. 11 CHAIR TURNER: Okay. 12 COMMISSIONER FERNANDEZ: Yes, yes. 13 CHAIR TURNER: Yes. Okay. And with that --14 COMMISSIONER FERNANDEZ: -- just for this piece of 15 it. 16 CHAIR TURNER: Yeah. 17 Commissioner Andersen? 18 COMMISSIONER ANDERSEN: Yes. Could I ask, what is 19 the time frame of -- do we need to -- if we don't send 20 this forward right now is it too late? 21 COMMISSIONER FERNANDEZ: I would say yes because we 22 won't meet until next month. And next month is when it 23 will be heard and sent to the Governor's office. And 24 we've been able to get around it in terms of the support 25 because I have been able to carve-out some time to

45

1 testify at each of the committee meetings. 2 But as I mentioned earlier, for the next step, there 3 may not be a chance to testify because it may go on a 4 consent calendar due to the low fiscal impact of this 5 bill. CHAIR TURNER: Yeah, and I'm certainly hoping we 6 7 don't delay and miss the opportunity to support it. So maybe with just a couple of word choices that can even be 8 9 sent and submitted while we're in this meeting, we can have something that we will land on. 10 11 Commissioner Sinay? 12 COMMISSIONER SINAY: Pass. 13 CHAIR TURNER: Commissioner Akutagawa? 14 VICE-CHAIR AKUTAGAWA: Yes. Thank you, Chair 15 Turner. I think you did say what I wanted to say. Ι 16 think, you know, we just need to go on record that we're 17 in support of this. And I think that's essentially what 18 we were trying to just say. It's as simple as possible 19 and just get something out there before the Legislature reconvenes in August. So yes, sooner than later, please. 20 21 Thank you. 22 CHAIR TURNER: Yes. Good, good. 23 Commissioner Sinay? 24 COMMISSIONER SINAY: I passed, but then I just -- I 25 hear what's being said. You know, the letter is shorter

than the headers. And so it is a good, simple letter.
But I don't want us to take for granted that everybody
understands the issue and why this is important. And you
know, when Commissioner Fernandez and I first presented
it to the -- to you all, to the commissioners, we really
did a good background piece.

And maybe what I think what I'm hearing is it might 7 be good to just add a couple of the bullets from the 8 9 background piece so that all the member -- we don't make 10 any assumptions that the members that are sitting on this 11 committee or the greater Assembly and Senate when they 12 have to vote, know what we mean by prisoner or even using 13 the word prisoner gerrymandering, but that's what we're 14 trying to get around.

So it might be good just to add a couple of bullets as a primer because we kind of stuff everything in that last sentence. But if you're not in the know, it doesn't really make sense.

19 CHAIR TURNER: Okay. And are those bullets that 20 you'd have prepared tonight, Commissioner Sinay, to send 21 over to Commissioners Fernandez and Akutagawa for this 22 meeting? Are you suggesting that we do some work and --23 COMMISSIONER SINAY: I could probably look at the 24 original memo that Commissioner Fernandez and I created 25 and just pull some from there because that we -- there

1 was a lot of that went into that.

2	CHAIR TURNER: Okay, great. So we won't so
3	Commissioners, I'm going to Fernandez and Akutagawa,
4	I'm going to punt back to you to continue with the rest
5	of your report.
6	COMMISSIONER FERNANDEZ: Okay. Thank you. And I
7	guess I want to go on record and I've read that last
8	sentence like three or four times. It's probably 20
9	times by now and I guess I wasn't confused by it, but I
10	think maybe I'm just a little too close to it. So I'm
11	not sure yeah, again, I don't know if we'll have time
12	to make changes and maybe we just omit that last sentence
13	if it is that confusing, which we can discuss that
14	further.
15	CHAIR TURNER: Commissioner Sinay?
16	COMMISSIONER SINAY: I guess I wouldn't want to omit
17	that sentence just because that kind of is the heart of
18	why this is important from how I read it. And I could be
19	reading it incorrectly.
20	CHAIR TURNER: Well, to Commissioner Kennedy's
21	point, we want no possibility that she'll read it
22	incorrectly or very little possibility.
23	So let's see, Chief Counsel Pane?
24	MR. PANE: Thank you, Chair. Just to reiterate what
25	Commissioner Kennedy recommended earlier. I think he

1 recommended the word once instead and replacing that 2 instead of the other two words that begin that sentence. So I mean, that sounds like that could be a concrete 3 4 solution, easy replacement. And I think that would work 5 out fine as well. CHAIR TURNER: Except he said that was not just that 6 7 first part, that whole sentence read a little wonky, for lack of a better term for him. So if we go with the once 8 9 and then maybe just let's sit with it for the next little 10 bit. And if we because we read that once the last known 11 incarcerated person's address is known, it is a far 12 fairer determination to count incarcerated persons at 13 their last known address rather than at the correctional 14 facility. Okay. Once the last known incarcerated 15 person. 16 So we're talking about in this letter, the --Yeah. 17 that the fact that we want the last known then 18 incarcerated persons last known address known. So 19 perhaps we can just even say, what do you think, 20 Commissioner Kennedy, about, just lose the first part of 21 that sentence entirely and just kind of double down on 22 the last part. 2.3 It is a fair determination to count incarcerated 24 persons at their last known address rather than at the 25 correctional facility. Maybe it's a repeat it. Oh,

1	there you go. Maybe it's the repetition of that first
2	part that causes some problem. I'm not certain.
3	Commissioner Kennedy?
4	COMMISSIONER KENNEDY: It is I'm just making sure
5	I'm unmuted, that that is certainly part of it. I think
6	if we said something like because an incarcerated
7	individual's previous address is known, it is a far
8	fairer determination to count incarcerated persons at
9	their last known address rather than at the correctional
10	facility.
11	CHAIR TURNER: Beautiful.
12	COMMISSIONER FERNANDEZ: Just one more time, please.
13	I started to write, and then I lost my train of thought.
14	COMMISSIONER KENNEDY: Sorry.
15	COMMISSIONER FERNANDEZ: That's it. No, that's me.
16	COMMISSIONER KENNEDY: Because an incarcerated
17	person's previous address is known and then the part
18	after the comma remains the same.
19	COMMISSIONER FERNANDEZ: Okay. No, I gotcha. Okay.
20	Because an incarcerated person's
21	CHAIR TURNER: I like that a lot.
22	COMMISSIONER FERNANDEZ: Yeah.
23	CHAIR TURNER: Commissioner Kennedy?
24	COMMISSIONER KENNEDY: Pass.
25	CHAIR TURNER: Okay. Commissioner Taylor?

1 COMMISSIONER TAYLOR: Good morning, everyone, if I 2 haven't said it already. So as I'm reading through the 3 letter, I'm a little concerned that it feels like we're 4 advocating for a specific population knowing that we hav 5 to represent all Californians. So I just think there 6 should be a slight statement in there that says how thi	7e
3 letter, I'm a little concerned that it feels like we're 4 advocating for a specific population knowing that we ha 5 to represent all Californians. So I just think there	7e
4 advocating for a specific population knowing that we have 5 to represent all Californians. So I just think there	7e
5 to represent all Californians. So I just think there	7e
6 should be a slight statement in there that save how thi	
	3
7 affects our work. I'm not saying that it's not a corre	:t
8 advocacy, but how this lends itself to gerrymandering,	
9 how it lends itself to an improper count. We just stat	ž
10 that it's not fair to this specific population.	
11 But again, we have to represent all of California.	
12 So I think in the last sentence, we say doing the latte	-
13 artificially drives up numbers in a county in a city	
14 with a correctional facility. And that lends itself to	
15 gerrymandering from our from our point of view. I thin	5
16 that has to be stated why I think we have to stay wh	7
17 we're doing. And how it affects everyone. If we have	۱n
18 improper count, it affects everyone. And we're not jus	:
19 advocating for a specific population of people in my	
20 opinion, since the Commission represents all.	
21 CHAIR TURNER: Got it. Thank you.	
22 COMMISSIONER TAYLOR: Thank you.	
23 CHAIR TURNER: Commissioner Sinay?	
24 COMMISSIONER SINAY: Thank you, Commissioner Taylo	.
25 That's what I was trying to say. I did go back to the	

1	original memo and we that when we voted on this and we
2	said, by inflating the apparent size of the political
3	influence of areas within incarceration facilities,
4	prison gerrymandering violates our Constitutional right
5	to equally to equal political power based on
6	population size.
7	This problem is especially urgent and harmful in
8	today's mass incarceration era and may limit the voices
9	and power of communities of color. So we might want to
10	tweak it a little, but that was what we used as our
11	reason why we voted to do this back in May.
12	CHAIR TURNER: Thank you.
13	Commissioner Kennedy?
14	COMMISSIONER KENNEDY: Thank you, Chair. It also
15	occurs to me that if a major part of our rationale for
16	supporting this change is to make the provisions
17	regarding statewide redistricting compatible with the
18	requirements for local redistricting, let's go ahead and
19	say that. You know, it's mandatory that other
20	jurisdictions do it this way. So why not go ahead and
21	make it mandatory for the statewide redistricting? Thank
22	you.
23	CHAIR TURNER: I like it.
24	Commissioners Sinay? Nope. Okay. Okay. Chief
25	Counsel Pane, you know, you got all of that. And

1	Commissioner Fernandez and Akutagawa, we're going to sit
2	with those suggestions and our little busy people in the
3	back that doesn't exist, really, those elves, will start
4	to put that letter together while we're talking so that
5	we'll be able to present it at the end and conclusion of
6	this part of the session. So yep, we'll be working on it
7	behind the scenes.
8	So Commissioner Fernandez and Akutagawa, if you will
9	continue.
10	COMMISSIONER FERNANDEZ: Okay. We're we the elves?
11	Commissioner Akutagawa and I were working on it. I thank
12	our Chief Counsel Pane
13	CHAIR TURNER: Chief Counsel Pane.
14	COMMISSIONER FERNANDEZ: which I have to go on
15	record and say that he has been invaluable to the long-
16	term and also what do we call the Legislative
17	Subcommittee. And when drafting letters, drafting
18	Legislative language, pretty much keeping us on track.
19	So thank you so much for that, for being such a wonderful
20	ally, I guess. I think should the next you want to
21	move on Commissioner Akutagawa. Should we move on to the
22	language for the areas?
23	CHAIR TURNER: Commissioner Fernandez, I guess your
24	mic something just happened. You were clear earlier
25	and now there's

1	COMMISSIONER FERNANDEZ: Yeah, Kristian told me
2	there's something going on. So how about Commissioner
3	Akutagawa, could you take over and I'm going to reboot,
4	please?
5	VICE-CHAIR AKUTAGAWA: All right. Sounds good.
6	Okay, so we had a number of handouts. I will start with
7	the draft proposed Legislative changes with support
8	handout. So that way then we will all be on the same
9	page. There's a lot of documents in this round. So in
10	it you could see that we had voted and agreed upon
11	certain areas in which we wanted to see Legislative
12	changes.
13	So as part of the last discussion that we had, there
14	was a request to come back with some proposed language,
15	draft language, for the Legislative changes. So in the
16	order in which you'll see on the document, I'll start
17	here. So we have we have language and this is so that
18	everybody, again, is on the same page. We have a draft.
19	I'm sorry. I guess the document is called Draft Proposed
20	Legislative Changes with Support.
21	And then the other document is called Potential
22	Legislative Changes 711 2022 So the potential Legislative
23	changes document, what that shows is all of the changes
24	that have been brought up previously. The ones that are
25	highlighted in Gray are the ones in which we are coming

1	forward with language under the document that is called
2	Draft Potential Legislative Changes with Support.
3	So on that document, you'll see that the first one,
4	which is it is labeled A1 and A2 because we were using a
5	different document that we ported over. So the first one
6	is in the changes to the elections code regarding
7	reallocation of state and federal inmates residences.
8	We did just present the support letter that is for
9	AB 1848, which does impact the reallocation of state
10	incarcerated people in state facilities. The federal
11	incarcerated people, we are still working on that right
12	now. So I wanted to just note that. So we are not going
13	to be presenting anything.
14	I know that after we finished the Federal
15	Incarcerated People Subcommittee, who is working on the
16	federal level are going to be making a report as well
17	too. I also want to, now, just keep moving forward. On
18	the document that I'm looking at, which is the Draft
19	Proposed Legislative Changes. We have also A4, which is
20	a procurement exemption on this. What we wanted to do is
21	to make it for the next commission easier for them to be
22	able to procure or enact contracts, especially given the
23	limited time frames that the Commission is working in.
24	And you'll see that at the very end of this
25	particular public contract code, which is section 10430.

1 There is a simple change in which you'll see highlighted 2 in green that transactions covered under Chapter 3.2, commencing with 8251 of division one of title two of the 3 4 Government code. The Commission shall annually file a 5 report disclosing the total amount of money paid or to be paid to the contractor under the contract. 6 The 7 Commission shall provide notice to the Joint Legislative Budget Committee within thirty days of posting the 8 9 report.

56

10 Part of this is, we have requested to be added to a 11 procurement exemption list so that we can be able to 12 enact these changes. But with the also known -- I guess 13 I'll just say the accountability of us as a commission or 14 the future commission, not just doing things on their own 15 without any accountability. And so what we've written 16 into here is language that will also ensure that there is going to be public disclosure and also accountability to 17 18 this particular topic.

Next one, and I'm just going to go through all of them real quick, and then we can go back through and then talk about each one individually. The next one is A5, which is a request to have three days' notice in the Legislative language so that as we're closer to the time of line drive --

25

CHAIR TURNER: Commissioner Akutagawa?

1	VICE-CHAIR AKUTAGAWA: Yes?
2	CHAIR TURNER: May I may request just a slight
3	upgrade to that so that we'll know if any of these we can
4	kind of put to bed we're good with it? But some may have
5	a little more discussion than the other. Like, so you
6	just went through that A4 and its and just to see if
7	there's anything there so that we're not then going back
8	to them again.
9	VICE-CHAIR AKUTAGAWA: Okay.
10	CHAIR TURNER: Is that okay?
11	VICE-CHAIR AKUTAGAWA: Okay.
12	CHAIR TURNER: So for Commissioner Kennedy?
13	COMMISSIONER KENNEDY: Yeah. Just some small
14	concern on the within thirty days of posting of the
15	report. Just wondering if we need thirty days? If we're
16	posting it, we should be able to alert the JLBC
17	concurrently or within, I don't know, three days', not 30
18	days of the posting of the report. Thank you.
19	VICE-CHAIR AKUTAGAWA: And actually, I'm going to
20	ask Commissioner Fernandez to step in on this one about
21	the procurement exemption. I believe that we wanted I
22	think, Commissioner Kennedy, are you asking for are
23	you commenting that it should be less than thirty days to
24	post the report versus
25	COMMISSIONER KENNEDY: Yes.

escribers

1 VICE-CHAIR AKUTAGAWA: Okav. 2 COMMISSIONER KENNEDY: But not so much the posting of the report, it's the providing notice to the JLBC that 3 4 we have posted the report. That last sentence in green. 5 VICE-CHAIR AKUTAGAWA: Oh, I see what you're saying. 6 Okay. 7 COMMISSIONER KENNEDY: Yeah. VICE-CHAIR AKUTAGAWA: Okay. 8 9 COMMISSIONER KENNEDY: So if we're posting it, we 10 should be able to let them know immediately or know 11 within three days' rather than thirty days. 12 VICE-CHAIR AKUTAGAWA: Oh, okay. I see. So it's a 13 clarification of language in terms of when we'll notify 14 them when the report is posted versus --15 COMMISSIONER KENNEDY: Correct. 16 VICE-CHAIR AKUTAGAWA: Okay. Okay. Thank you. 17 COMMISSIONER KENNEDY: Thank you. 18 VICE-CHAIR AKUTAGAWA: We'll note that. Any other 19 questions --20 COMMISSIONER FERNANDEZ: Did you just want me to respond? I think that was fine. 21 22 VICE-CHAIR AKUTAGAWA: Yeah, I think I misunderstood 23 what he was asking originally, so. Okay, that makes sense. We will note that clarification and make that 24 25 language clearer.

www.escribers.net | 800-257-0885

1	COMMISSIONER FERNANDEZ: What I'm thinking I
2	don't know. This kind of makes sense as the Commission
3	shall provide notice to the Joint Legislative Budget
4	Committee when the report is posted. That way it's done
5	simultaneously. Is that okay.
6	VICE-CHAIR AKUTAGAWA: And that'll probably happen
7	anyway, so.
8	COMMISSIONER FERNANDEZ: Yeah, but that's good to
9	have that so you don't forget to do it and it's all in
10	one.
11	VICE-CHAIR AKUTAGAWA: Yeah.
12	COMMISSIONER FERNANDEZ: Yes.
13	VICE-CHAIR AKUTAGAWA: Thank you for that
14	clarification. That's great. Okay.
15	CHAIR TURNER: Okay.
16	VICE-CHAIR AKUTAGAWA: Okay. We'll go on to A5,
17	which is three days' notice proposed legislation
18	CHAIR TURNER: I'm sorry, Commissioner Akutagawa.
19	Commissioner Andersen?
20	VICE-CHAIR AKUTAGAWA: Oh, sorry. Okay.
21	COMMISSIONER ANDERSEN: Yeah, sorry. Thank you
22	about that. You know, I appreciate this, but and please
23	correct me if I'm wrong here. I thought the procurement
24	exemption actually had to do with our ability it's
25	that we did not have the ability to actually go and do

1	contracts and things like that because we didn't have the
2	proper channels of it.
3	I thought that was what we were trying to get at.
4	And I don't see how this what we've done here
5	addresses the issue at all. Now, maybe I mixed I'm
6	confusing issues, but it was, you know, the issue that,
7	you know, we couldn't just we everything had to go to
8	contract. Everything had to, you know, we couldn't
9	except for something like \$5,000. We always had to go
10	back and get full contracts.
11	And I thought that was the idea of the procurement
12	exemption. Am I just mixing up two different issues
13	here? I'm seeing a head nod from Commissioner Fernandez.
14	In which case, what are we doing here? Where does it
15	come from?
16	COMMISSIONER FERNANDEZ: So this is the language
17	for this as you remember, I think Commissioner Sadhwani
18	remembers how long it took to go through. Like for
19	the our attorney are the legal ones and also the line
20	drawers some of these other contracts that took anywhere
21	four to seven months and then Commissioner Akutagawa and
22	Commissioner Le Mons having trying to get through the
23	whole grant process and the back and forth.
24	So this would provide an exemption from having to go
25	through all of that process. Not to say that we would

1	use it at every opportunity, but it would be available to
2	us. But if we do go through this process and we don't
3	go if we don't go through the regular procurement
4	contracting process, we would have to notify, you know,
5	we'd have this report at the end of the year notifying
6	which contracts we did not go through the process with.
7	COMMISSIONER ANDERSEN: Great. Okay.
8	COMMISSIONER FERNANDEZ: Does that make sense?
9	COMMISSIONER ANDERSEN: No, it's yes. No. And I
10	get it because by just adding our, you know, Section 8251
11	into this then we're covered, correct.
12	COMMISSIONER FERNANDEZ: Yeah.
13	COMMISSIONER ANDERSEN: All right. Great. Thank
14	you very much.
15	CHAIR TURNER: Thank you.
16	VICE-CHAIR AKUTAGAWA: I'm just making sure no more
17	questions.
18	CHAIR TURNER: No more questions.
19	VICE-CHAIR AKUTAGAWA: Okay. All right, then we'll
20	go to the next proposed language. We combined two
21	topics. One is three days' notice proposed Legislative
22	language and clarifying purpose of public input meetings.
23	Since it's in the same code that that governs our
24	commission, 8253, it didn't make sense to have the same
25	language on two separate documents.

1	So we did combine it together into one, and this is
2	the one in which we would be able to provide three days'
3	public notice in the three months prior to the final map
4	deadline, three days' public notice for meetings in the
5	three months prior to the final map deadline. And also,
6	we wanted to clarify the purpose of public input
7	meetings, which is here you'll see that in that first
8	paragraph, 8253, Section A, subsection 1, which speaks to
9	the commission, shall comply with the Bagley-Keene Open
10	Meeting Act, Article 9, commencing with Section 11120 of
11	Chapter one, a part one of Division three or its
12	successor.
13	And we added, however, the Commission shall provide
14	not less than 14 days public notice for each meeting held
15	for the primary purpose of receiving public input
16	testimony. Except that meeting held three months prior
17	to the final map deadline may be held with three days'
18	notice. So what it does is it clarifies meetings that is
19	for the primary purpose of public receiving public
20	input and also giving us the flexibility to be able to
21	notice meetings within three months of the final map
22	deadline.
23	And I see that Commissioner Kennedy has a and
24	Commissioner Fernandez, since you're back, do you want to
25	add anything to what we're presenting or what I've said

1	so far?
2	COMMISSIONER FERNANDEZ: No, I think that was
3	very I think just the clarification, the first part of
4	the changes and hopefully you've had a chance to review
5	it. That deals with the public comment portion of it.
6	And the last part deals with the three days.
7	But I'm thinking, Chair Turner, the conversation
8	might go longer than two minutes, so it might be a good
9	time to break and then come back.
10	CHAIR TURNER: Um-hum. That sounds great. We'll be
11	back at 11:15. So 11:15. Thank you.
12	(Whereupon, a recess was held from 10:58 a.m.
13	until 11:15 a.m.)
14	CHAIR TURNER: And welcome back to our California
15	Redistricting Commission Business Meeting. We are in the
16	midst of our subcommittee reviews and updates, and we're
17	in our long Legislative, Long-Term Planning in the hands
18	of Commissioners Fernandez and Akutagawa.
19	We had questions coming at this point from
20	Commissioner Kennedy, all of my commissioners and I.
21	COMMISSIONER KENNEDY: Thank you, Chair. Three
22	items in relation to 8253 A1. So first of all, are we
23	I just want to make sure that we're adequately defining
24	public input testimony somewhere if we're not doing it
25	here, because that's part of what's been tripping us up

1 is what does public input testimony mean.

2	Second of all, I would just suggest that we say that
3	meetings held less than three months prior, maybe held
4	with at least three days' notice. Thank you.
5	CHAIR TURNER: I'm just going to give a space to
6	make sure the commissioners could capture that. Good.
7	Okay. Commissioner Sinay?
8	COMMISSIONER SINAY: I'm still not comfortable with
9	the three days' notice for such a large, long period of
10	time, a three-month period. It just is really hard for
11	the community to engage, especially when these are
12	meetings where, you know, a lot of changes take place and
13	then the community has to organize around the changes
14	that we made.
15	Looking at this, though, I was like, Oh, wait, we've
16	always had three-day notice. But I believe that the
17	three-day notice piece of it, you know, was for a shorter
18	period of time. And so you know, I keep thinking that it
19	might make sense to do the three-day notice from after
20	the draft maps are presented till the final maps, you
21	know, to just shorten that time because it just feels
22	like three months is a really long amount of time. And
23	that's what we heard from the community as well.
24	CHAIR TURNER: Thought? Comments?
25	Commissioner Kennedy? Commissioner Andersen?

e

1 COMMISSIONER KENNEDY: Thank you, Chair. I'm happy 2 to support that change. I think that making that three-3 day period operative once the draft maps are out, is 4 reasonable. We know that community attention to 5 redistricting really ramps up once those draft maps are 6 out.

7 And I think our biggest concern was that by the time the three-day notice period came into effect, we were 8 9 pretty much past a point where it would have been useful 10 to us, you know, given the time required to work on the 11 final report and so forth. But I do think that that 12 starting a three-day notice period with the publication 13 of the draft maps is reasonable. Thank you. 14 CHAIR TURNER: Commissioner Andersen? 15 COMMISSIONER ANDERSEN: Thank you, Chair. Т 16 certainly agree with the sentiment here. I'm just 17 wondering how it's going to be presented. And remember, 18 the reason for that three-day is so the agenda would 19 actually be substantive rather than our sort of general, 20 you know, well, we're going to cover all these things. 21 This could actually be almost like a scope of work 22 agenda, which is extremely important. And I -- what I'm 23 considering, though, is if, you know, this was originally 24 written, you know, way back when now, as the three 25 months, the draft maps that could actually be maybe

1	before that, you know, would people be, you know,
2	agreeable? You know, as soon as the draft maps come out,
3	we go to three days'. That's a thought to consider. But
4	I do like that idea.
5	CHAIR TURNER: Subcommittee?
6	COMMISSIONER FERNANDEZ: Okay. So what would I have
7	captured I want to make sure I captured it correctly.
8	Commissioner well, Commissioner Kennedy wanted to make
9	sure we had adequately defined public input testimony
10	somewhere. And he also commented less than three months
11	and at least three months' notice. I believe that was
12	the change that he had.
13	Commissioner Sinay was not comfortable with the
14	three days' notice for three months. And so she was
15	wondering for a shorter period of time, possibly from the
16	draft maps. And it appears that Commissioner Kennedy was
17	also supportive of that. And it sounds like Commissioner
18	Andersen was as well. I will say when we initially
19	talked about it, I was thinking more of between the draft
20	maps and the final, but then the three months came up so
21	that for me personally, my opinion from the draft maps
22	does make more sense.
23	So if there's any additional comments to that, or.
24	Yeah. Please.
25	CHAIR TURNER: Commissioner Andersen?

1 COMMISSIONER ANDERSEN: Yeah. Thank you. You know, 2 rather than saying, you know, taking up three months, I 3 think we might leave that in -- and because there could 4 be other reasons we don't think of that -- we might need 5 that and add the three months, add the note, make a little clarity in there about the draft maps. 6

7 But the item I really want to say is we say, however, and I don't know why we're saying however that 8 9 word is not that it doesn't relate to the first sentence. 10 So I believe it could just say the Commission should 11 comply with that Bagley-Keene. Then the Commission shall 12 provide not less than fourteen days' notice da, da, da, 13 da. But we definitely have to define primary purpose 14 somewhere in there. You know what is public input? But 15 I don't believe we need the word however at all. 16 CHAIR TURNER: Commissioner Sinay? 17 COMMISSIONER SINAY: I just think the reason we 18 need, however, is, if I'm not mistaken, Bagley-Keene says 19 ten days and we are doing fourteen days. So that's why 20 the, however is in there. But the other question, I 21 mean, so I'm going to go back to the three days because I 22 kind of jumped over that last time and check in with 23 everybody. I know three days was there originally, but

does five days -- would we be comfortable with five days?

24

25

I mean, it's still better than fourteen days, but it

1	gives a little more time or this is actually input for
2	first step. And I mean, the public has already said that
3	they would like five versus three. And so I just wanted
4	to put it out there. Again, I'd like to do it from draft
5	map on. And change it to five days versus three days.
6	CHAIR TURNER: Commissioner Akutagawa?
7	VICE-CHAIR AKUTAGAWA: I was just going to comment
8	on ensuring that we define which draft maps. So I think
9	we should say from the first set of draft maps or initial
10	set of draft maps or something like that, so that as
11	I've found through this process, I think adding in some
12	specificity where we can so that there's less
13	interpretation and it's clear for the next commission
14	would be better.
15	So in terms of the three days, I think, I can
16	support both. I think the three days as we found through
17	our process, there were times when we were making some
18	big pivots at times, and the three days was where we
19	thought was somewhat reasonable. But if it's if
20	everybody else is in support of five days, then I don't
21	think it's anything that I for me, I'd be opposed to.
22	Thanks.
23	CHAIR TURNER: Is there any other alternative or
24	contrary thought to the five days?
25	Commissioner Andersen?

1	COMMISSIONER ANDERSEN: Yeah. You know, I'll be the
2	thorn here. You know, we had more time. The next
3	commission probably will not. And if they are also down,
4	oop, we can't do that by five days. Now, you can get
5	around that by having it posted every single day, which
6	is what we've sort of done before. But that's and I
7	understand the public really wants to participate, which
8	is absolutely crucial. But I do not want us to change
9	something and then we prevent a for future commission
10	from not being able to get the work done. So I'm kind of
11	let's why don't we say with three days? Because if
12	they need to get around it, they're going to put just
13	put it down for every single day.
14	CHAIR TURNER: Commissioners Fernandez and
15	Akutagawa?
16	COMMISSIONER FERNANDEZ: Thank you, Chair. And I
17	think I do like the three day and I do understand the
18	five day as well. As we were really getting into it, the
19	line drawing, if we had the three days, the major thing
20	aside from the agenda were the times that we posted. We
21	there were times where we thought, oh, why don't we start
22	earlier so we don't have to end so late? And we couldn't
23	because we were bound by either the fourteen days or the
24	three days at the end.
25	So I think the only difference or one of the major

impacts would be being able to adjust that time schedule of what you've already posted as your start time. Because we know, as we know, we can go past our -- the end time or projected end time, but we can't go we can't start earlier than what we posted if we're not within that time frame.

7 So I think that was a major thing. And the other thing is, yes, we can get around it by posting agenda 8 9 every day. But again, I just feel that we really should 10 be more meaningful with our agendas for the public so 11 that they know this is what we will be discussing on this 12 day and also with the ability of maybe scheduling some 13 days off instead of just like, okay, if we get done 14 early, which Commissioner Kennedy was, so you know, he 15 was hoping that maybe if we had the three days, we can 16 actually let people know that we're not going to meet on 17 a certain day ahead of time instead of waiting until the 18 day before or whatever the case may be.

Just a few thoughts I -- three-day versus five days. Five days is still better than fourteen days, I will grant you that. So it's not something that's critical on my part, but I do believe that we do need to lengthen the time of when the agenda time period is shortened. Thank you.

25

CHAIR TURNER: Commissioner Fornaciari?

	/1
1	COMMISSIONER FORNACIARI: I'll just chime in with my
2	thoughts. I'd rather stick with the three days. And I
3	do like the idea of starting the three days after the
4	release of the initial draft maps.
5	CHAIR TURNER: Um-hum. Um-hum. Thank you. Okay.
6	We have a sense of the room. Subcommittee, please
7	continue.
8	VICE-CHAIR AKUTAGAWA: Actually, if Commissioner
9	Fernandez is okay, I think I've done enough.
10	COMMISSIONER FERNANDEZ: Oh.
11	VICE-CHAIR AKUTAGAWA: She'll take over.
12	COMMISSIONER FERNANDEZ: Well, I'm actually going to
13	backpedal a little bit because we do there was some
14	language posted for the federally incarcerated
15	population, and that was something that Commissioner
16	Turner and I worked on as the Federal Incarcerated
17	Subcommittee. I'm trying to think what was it noted as
18	A1, A2, the amended elections code changes.
19	So this will not be part of this year's Legislative
20	process with the bill with AB 1884, because we haven't
21	finalized the information we have. So right now, it's
22	kind of just there for your FYI. We have sent it out to
23	Karin to make sure that this does encompass what the
24	information that she needs. Another piece of it that
25	we've also shared it with our Legislative committee.

And another thing we want to talk about or consider as a subcommittee of Commissioner Turner and myself is to decide if they can get us all the information, but maybe not the race and ethnicity. Would that still be okay? So I mean, there's still -- we're still working on it, but we've kind of wanted to give you an idea of what we're looking at right now.

8 So it's really not a discussion item per se right 9 now unless you have something major feedback, because we 10 do know it's going to change. We just wanted to give you 11 an idea of what we're looking at right now, and it 12 somewhat mirrors what we as a commission did because we 13 did not get the information from the Federal Bureau of 14 Prisons.

15 What we ended up doing was taking that population 16 out and we were not able to redistribute it to other 17 areas in California. So that's kind of an FYI unless 18 there's anyone has a burning comment or anything that 19 wants to be okay. Okay, it'll come back at some point. 20 Okay. So Commissioner Akutagawa, you did 5 and 7. 21 Okay, so --22 VICE-CHAIR AKUTAGAWA: We're on A6. 23 COMMISSIONER FERNANDEZ: Oh, I see you're getting me 24 6. Thanks, I appreciate that. So at our last meeting, 25 trying to define a day, we actually had two discussions

1	in terms or two different thoughts. And when I say
2	we, I mean the commissioners. One thought was to define
3	a day as right. The twenty-four-hour period starts right
4	after a motion or a decision is made.
5	And then the other, so you're actually going to
6	have there are two separate wordings. One is for
7	it'll happen as soon as a decision is made and the other
8	one would be to implement Black's Laws Dictionary or
9	defining definition of a day, which would start on
10	at midnight of the day that it happened. So if that
11	if we made a decision at eight in the morning, the clock
12	wouldn't start until midnight of that day.
13	So one of them says the start of a day is calculated
14	as a period of elapsed time that begins at midnight and
15	ends twenty-four hours later at the next midnight. And
16	that's the Black's Law definition. And the other one is
17	the calculation of a day starts from the time of the
18	decision and ends twenty-four hours later. So we've got
19	two to choose from or maybe there's a third one out there
20	somewhere.
21	CHAIR TURNER: Commissioner Fernandez, Commissioner
22	Kennedy has a question.
23	COMMISSIONER FERNANDEZ: Okay.
24	CHAIR TURNER: And for this part Commissioner
25	Akutagawa is going to field the questions.

COMMISSIONER FERNANDEZ: Perfect.

2 COMMISSIONER KENNEDY: Thank you, Chair. One of the 3 things that we need to be careful of and I think this is 4 part of what has been or this is what has been part of 5 the confusion is whatever definition we use or whatever 6 definition we put in place needs to be useful, both 7 prospectively and retrospectively.

8 In other words, it's not just, you know, no later 9 than three days later. It's also the no later than three 10 days before. So if you say, you know -- if we're if 11 we're looking at a situation where we're saying, you 12 know, three days' notice for a meeting that has nothing 13 to do with a period starting after the meeting, it has to 14 look retrospectively and tell you where that starts.

15 And this was part of what we dealt with Bagley-Keene 16 and the ten-day and the fourteen-day requirements. Do we 17 need fourteen clear days or do we say, okay, if today is 18 the meeting yesterday -- the day before is one day, two 19 days before, it is two days before, et cetera, et cetera 20 So in that case, if you had a three-day meeting 21 requirement do you -- from the start of the meeting, do 22 you countback one, two, three, which is kind of a common 23 sense, logical counting of days, or do you need three 24 clear days? So if I have to have three days' notice of a 25 meeting on Friday, does that mean notice has to be given

1	on Monday in order to have Tuesday, Wednesday, and
2	Thursday, three clear twenty-four-hour periods available?
3	And my sense all along has been kind of the logical
4	counting is more useful. More people are likely to say,
5	okay, if the meeting's on Friday, three days' notice,
6	Thursday, Wednesday, Tuesday, so notice has to be out on
7	Tuesday. But yeah, then whatever definition has to be
8	suited to calculating both a deadline before something as
9	well as a deadline after something. Thank you.
10	VICE-CHAIR AKUTAGAWA: Thank you, Commissioner
11	Kennedy. Any other comments?
12	Commissioner Andersen?
13	COMMISSIONER ANDERSEN: Yeah. That's a really good
14	perspective, Commissioner Kennedy, that the only bugaboo
15	in that is when if you ask a person to say, okay, so
16	three days before and they would literally do, as you
17	say, Friday, okay, Thursday, Wednesday, so Tuesday. But
18	if you say three days from now, Friday, they would often
19	go the other way.
20	I mean, they might go okay, but they'd often go,
21	okay. So we have done so it can't be we have two, three
22	days', so it wouldn't be Saturday, Sunday, Monday, it
23	would actually be on Tuesday. And that's where I think,
24	you know, you're absolutely correct. That is our
25	bugaboo. As I see it, if we say by midnight to midnight.

1 We are clarifying it is three clear days either way. And 2 if we do the other, it looks -- it works really well 3 going backwards. Going forwards, the issue would be if 4 we're talking in three days, it's not quite as much, but 5 it's really two. And in terms of the public's notification, that's 6 7 where, you know, we're trying to give the public more 8 notice. Like, say, we end something at 5 o'clock. Well, 9 actually, at eight in the morning. So they would have 10 since it's three days, they'd have, you know, say eight 11 in the morning on Monday, they would have Tuesday, 12 Wednesday. And but then on Thursday and before eight the 13 morning they haven't said anything that's that. So and 14 that that's an item to consider, the actual meaning of 15 the difference of the two. But it's an absolute valid 16 point, a consideration, I should say. And now it's which 17 we do want. 18 Thank you, Commissioner VICE-CHAIR AKUTAGAWA: 19 Andersen. 20 Commissioner Kennedy? 21 COMMISSIONER KENNEDY: Thank you for that. Some of 22 this, you know, can easily be cleared up through just additional definitions or additional work on the 23

- 24 definition. If you say, you know, that any decision
- 25 taken during a meeting. The clock doesn't start until

www.escribers.net | 800-257-0885

1 the end of that meeting. You know, and I'm just saying 2 there are ways to provide further clarity.

And you know, I recall a couple of meetings back 3 4 when we were talking about three days. We were also 5 talking about changing within a certain small window around something changing from a definition based on days 6 7 to a definition based on hours to give people that much more certainty. You know, when I've seen that done in 8 9 places where I've worked that, you know, the definition 10 of a day is a little more malleable or you know, maybe 11 it's the Black's Law Dictionary definition of the day. 12 But then when you get down to, you know, the last 13 month or the last week or something, then you count hours 14 so that people have a very clear understanding of what 15 you're doing. And again, you know, all of this can be 16 done by just adding further definition. Thank you. 17 VICE-CHAIR AKUTAGAWA: Commissioner Fornaciari? COMMISSIONER FORNACIARI: 18 Yeah. I appreciate the 19 conversation on this topic. It's kind of a bit of a 20 challenge to figure out. And I do like Commissioner 21 Kennedy's thoughts about, you know, when we're getting 22 towards the end of things, everybody's under an enormous 23 time pressure and an extra day -- having an extra day is 24 helpful. So maybe we ought to consider defining it in 25 hours at that at that time. I mean, maybe for other

1	applications, we can define it in days and try to be
2	clear on that.
3	One thing popped into my head, Commissioner Kennedy,
4	when you said at the end of a meeting, I think we really
5	need be careful with that, because we had meetings that
6	were five days long. And if we made a decision on the
7	first day, we'd be eight or nine days later before we get
8	to something like that. So just something to think
9	about.
10	VICE-CHAIR AKUTAGAWA: Thank you, Commissioner
11	Fornaciari.
12	COMMISSIONER FERNANDEZ: I think that what would be
13	helpful at this point, is to if we can maybe get to a
14	decision point as to which definition. And I understand
15	that, you know, the difference that Commissioner Kennedy
16	and Commissioner Fornaciari said, as we get closer do it
17	to the hours versus days. I think that would probably be
18	a little bit more challenging to get through it. I guess
19	it would be similar to an agenda item, you know, from the
20	draft maps on. Maybe it'd be something similar to that.
21	So is there I'm just trying to see what the
22	general consensus, which Commissioner Toledo always like
23	to get to in terms of is it a starting at the time of
24	a decision or Black Laws starting at midnight. Is there
25	any preference either way or stronger preference?

1 VICE-CHAIR AKUTAGAWA: It looks like Commissioner --2 Chair Turner is back. CHAIR TURNER: No, I'm here. I'm just off camera 3 4 for a bit and wanted you to do the questions. I'm 5 thinking if we go for midnight would provide more consistency instead of the time in the meeting, which 6 7 could fluctuate depending on when it came up on the 8 agenda, how long, you know, how many -- how much of the 9 comment that pushed it overall? A bunch of different 10 things. And so I like midnight. 11 VICE-CHAIR AKUTAGAWA: Thank you, Chair Turner. All 12 right. Now, we're getting. Okay. 13 Commissioner Taylor? 14 COMMISSIONER TAYLOR: Commissioner Turner took the 15 words right out of my mouth, just as a point of 16 consistency I'd go with midnight. It's the next day. 17 Thank you. 18 Thank you. VICE-CHAIR AKUTAGAWA: Commissioner 19 Taylor. 20 Commissioner Andersen? 21 COMMISSIONER ANDERSEN: I concur. I also want to 22 say that that is consistent with -- I've mentioned this 23 before, but in contracts of protest period. Those are 24 clear days the midnight, midnight. So that would be a 25 well-known quantity, midnight to midnight.

1	VICE-CHAIR AKUTAGAWA: Thank you, Commissioner
2	Andersen. I see no other hands right now. I'll just
3	also weigh in on this. And it's similar to what
4	Commissioner Taylor, Commissioner Turner and Commissioner
5	Andersen has just said. I think given the preciseness of
6	what we have to do, I think anything that ensures utmost
7	clarity in terms of what is a day, so starting at
8	midnight, even though in some cases, for example, if we
9	end the meeting at 5 o'clock, we're going to lose seven
10	hours as maybe as could be said that if we're going from
11	a twenty-four-hour clock, I think starting at midnight to
12	midnight ensures consistency and clarity.
13	And I would hate for there to be some type of
14	challenge to a future map, because there is an argument
15	about what time the twenty-four-hour clock started. And
16	so I think if we just keep it clear, I think that would
17	create the best conditions for the least challenge for
18	any future maps. Let's see if anybody else wants to
19	comment. I know that, Commissioner Fernandez, you're
20	looking for some sense of consensus. Anyone else who has
21	not yet weighed in want to weigh in with your thoughts on
22	this?
23	Okay. Commissioner Kennedy?
24	COMMISSIONER KENNEDY: I mean, I'm okay with that.
25	The only thing that I would say at that point is would

1	probably do well to go through the legal framework, see
2	where the definition is relevant, and make sure that the
3	wording of each of those cases is a good solid wording
4	that doesn't in and of itself contribute to any
5	possibility for confusion. Thank you.
6	VICE-CHAIR AKUTAGAWA: Thank you, Commissioner
7	Kennedy. All right, not seeing any other hands,
8	Commissioner Fernandez, I'm turning this back over to
9	you.
10	COMMISSIONER FERNANDEZ: Okay. Thank you. So we'll
11	move forward with the midnight. So we won't do the so
12	that definitely helps. It cuts down and then we will
13	look continue to look at language, the legal
14	framework, as Commissioner Kennedy mentioned.
15	Okay. So the next one, wait, did we have another
16	one? Yes, we did.
17	VICE-CHAIR AKUTAGAWA: A8.
18	COMMISSIONER FERNANDEZ: Oh, okay. So this one is
19	one of the easiest edits we had to do. I shouldn't say
20	we Anthony had to do. And that one has to do with
21	exemption from ability to hire outside counsel without
22	the attorney general's prior approval. And so that one,
23	if you look at Government code section 11041, there
24	already is a Government code section that has other
25	agencies that are exempt from the AG prior approval. And

1	the only edit we made was to add California Citizens
2	Redistricting Commission to the list. Yay. Any
3	comments?
4	I think Commissioner Sadhwani's probably really
5	happy with that one. Right.
6	VICE-CHAIR AKUTAGAWA: Yeah. So is Commissioner
7	Yee.
8	COMMISSIONER FERNANDEZ: Oh that's true. And
9	probably Commissioner Toledo too, probably all three of
10	them. Okay. So I think that's it for what we have so
11	far on the eight that we have moved somewhat, moved
12	forward to come up with language. We will come back
13	again with any changes that we have. And at some point
14	during the next Legislative process, we will find
15	hopefully find an author for the changes for our language
16	for our specific government section as well as one of
17	them is elections code. So we'll look for that as well.
18	CHAIR TURNER: And Commissioners Fernandez and Vice-
19	Chair Akutagawa, do you want to go back to the draft
20	letter, the support letter at this time?
21	COMMISSIONER FERNANDEZ: Sure, we can do that.
22	Oh, Commissioner Sinay, did you have something
23	before we go over the letter?
24	COMMISSIONER SINAY: I know that we had agreed on
25	moving forward that this group, but that we haven't put

1 to bed all the other thoughts we had. We'll just bring 2 that that list back to keep moving things forward. 3 COMMISSIONER FERNANDEZ: Yes, correct. We were 4 going to continue to go through that list today. Go 5 through the next items. Is that what you're asking, Commissioner Sinay? 6 7 Yeah, I mean, that there was a COMMISSIONER SINAY: 8 lot of other -- we never said no to anything completely. 9 We didn't say let's get rid of anything. And so I feel 10 like we still need to say if there's some items on our 11 Legislative changes and I'm using Legislative changes 12 broadly. You know, if there's something that we put on 13 there because it sounded good, but the more we thought 14 about it, we should get rid of that would be great. But 15 I just wanted to make sure that we haven't forgot -- that 16 that list still exists somewhere. 17 COMMISSIONER FERNANDEZ: Yes. And it's posted as a 18 So we were going to discuss it today and we're handout. 19 going to continue to discuss it. And if you looked at 20 the handout -- well, we'll go over to hand out after we 21 do that. 22 COMMISSIONER SINAY: I did look at handouts. I just 23 didn't get one. 24 COMMISSIONER FERNANDEZ: Oh, okay. 25 COMMISSIONER SINAY: Sorry.

83

www.escribers.net | 800-257-0885

	84
1	COMMISSIONER FERNANDEZ: That's all right.
2	COMMISSIONER SINAY: I'm like, I'm going to be
3	protected. I did prepare.
4	COMMISSIONER FERNANDEZ: So we'll go back to the
5	letter. Chief Counsel Pane, would you mind sharing your
6	screen with the changes that we made during break?
7	MR. PANE: Sure. Let me try to pull it up here.
8	COMMISSIONER FERNANDEZ: And as he brings that up,
9	we did meet during our break and the letter will have the
10	highlighted areas so that will make it easier for our
11	review in terms of the changes some of the wording
12	changes.
13	MR. PANE: Okay. Can everyone see that?
14	CHAIR TURNER: Yes.
15	MR. PANE: Okay. So the first highlighted area is
16	to try Commissioner Taylor, I'm not sure if that
17	captures kind of the sentiment you were you were
18	expressing. Can certainly make further changes.
19	CHAIR TURNER: Commissioner Andersen?
20	COMMISSIONER ANDERSEN: Yeah. Thank you. I really
21	appreciate the idea what we're trying here. I would
22	actually almost like I have also done a quick little
23	modification here. Unfortunately, I don't type quickly
24	at all. So me trying to put it into something into a
25	document that I could also through on the screen did not

1	happen in my fifty minutes. But because what I would
2	like to do is actually just put it actually it
3	mentioned this is to address the issue of prison
4	gerrymandering and then below that actually describe,
5	which is kind of what we're trying to do in this
6	paragraph.
7	But it's we're being very verbose and not kind of
8	getting to exactly what we're trying to say. And I
9	appreciate the inflating apparent sizes is very is
10	accurate. It's just I think we could maybe get it
11	simpler. I know I haven't actually heard. But
12	Commissioner Fernandez has been very eloquent when she's
13	been testifying, saying different things I've heard. And
14	I wonder if we can maybe shorten this a bit.
15	And what I'd like to do is if I could just maybe
16	even read, going back to the beginning, what I have
17	what I'm proposing, and see if the commission likes this
18	idea at all, in which case then I'll sort of stop there.
19	CHAIR TURNER: Okay. Let me ask this before you do.
20	Commissioners Taylor and Sadhwani, do you want to comment
21	on this current writing or should we hear do you want
22	to have just general discussion?
23	COMMISSIONER TAYLOR: My answer was to Chief Counsel
24	Pane. So yes, that addresses my concern, the why we're
25	doing it, how it's a detriment to our to our working

1 hard. Thank you.

2 CHAIR TURNER: Okay, great.

Okay. And Commissioner Sadhwani? 3 COMMISSIONER SADHWANI: Yeah, I think this is good 4 5 as it reads. I would just potentially add an opening -one opening sentence, something loftier, like your fair 6 7 representation is at the heart of our democratic practice or something, something like that. And then go into all 8 9 of this, right? Just something kind of grounding as to 10 why we're doing this. But otherwise I think it's as good 11 as it reads. 12 CHAIR TURNER: Okay. Thank you. 13 Commissioner Andersen, we want to hear your version. 14 Ready? 15 COMMISSIONER ANDERSEN: Okay. Yes, if we go back to 16 the first page. Yeah, here we go. I would start with, 17 you know, we support this letter about da, da, da, da, 18 that would make permanent necessary changes to the 19 election's election code specifically on how incarcerated 20 person or persons count for the purpose of redistricting. 21 Then I would say current law requires local redistricting 22 to, then essentially delete from request to the end of 2.3 commission.

The current law requires local redistricting to count these individuals at their last known address

1	rather than the institution where they currently reside.
2	This is to address the issue known as gerrymander and in
3	parentheses, prisoner gerrymandering. However, current
4	law only requests that the CRC also count these
5	individuals at their last known address rather than at
6	the institution where they currently reside.
7	Then, say, the 2020 Commission did so but believes
8	the law should be made consistent and require for each
9	feature committee would require that the commission, the
10	California Citizens Redistricting Commission also count
11	these individuals at their last known address. And then
12	go into, you know, as you may know, prisoner
13	gerrymandering is and then we can write that second
14	paragraph.
15	So I'd kind of like to shorten to something you
16	boom, boom, boom. This is why we're doing it. This
17	needs to be consistent and then say that we can get into
18	our essentially our advocacy point. And if we want to
19	write that, how we want to write that, that's I have
20	no objection.
21	CHAIR TURNER: Okay.
22	Commissioner Kennedy?
23	COMMISSIONER KENNEDY: Thank you, Chair. I see two
24	additional potential benefits of harmonizing the
25	treatment of incarcerated populations at the State level

1	and at the local level. One is it would reduce confusion
2	among the public as to which version of the Statewide
3	Database's redistricting database to use. Because if
4	they're if harmonized, you run the risk of having two
5	different versions and people are getting into squabbles
6	over which version is being used.
7	And the second is, you know, it reduces the workload
8	on Statewide Database, which at that point in time
9	already has quite a workload. And I think it would be
10	easier for them. So it may make sense for us to mention
11	those two advantages as well. Thank you.
12	CHAIR TURNER: Okay. So I'd like to then suggest
13	Chief Counsel Pane, if you would consider the two
14	additional benefits.
15	And Commissioner Andersen because now we have it in
16	writing and yours was verbal. I didn't see how it was
17	shorter. So if you could take a bit, perhaps, during
18	lunch or what have you, to write out what the suggestions
19	are because you were trying to go through it quickly. So
20	some of it was already there. And so maybe I don't
21	know that we got the full appreciation for what you were
22	lifting to be able to compare so that you could write
23	that out. We can look at it and then perhaps make a
24	determination on how we're going to move forward. But I
25	think we are a lot closer. I think a lot of the issues

1	raised have been addressed. And so I certainly
2	appreciate that.
3	And so Chief Counsel Pane, we ask your indulgence if
4	you would work with that this latest offering and see
5	if we can get a document that we are in agreement on.
6	Okay. Subcommittee, do you want to move to your
7	next part?
8	COMMISSIONER FERNANDEZ: Sure. The next part is
9	going to we're going to go back to the list that has
10	everything. And again, that list will not have, at this
11	point, office space that Commissioner Kennedy brought up,
12	but will add it for the future list.
13	Commissioner Akutagawa, could you share screen?
14	Because you know how technically not advanced I am.
15	VICE-CHAIR AKUTAGAWA: Yeah, hold on. Let me
16	COMMISSIONER FERNANDEZ: Thank you.
17	VICE-CHAIR AKUTAGAWA: I just accidentally closed
18	it, so my apologies. Of course.
19	COMMISSIONER FERNANDEZ: And as a reminder, it is a
20	handout for the public. If anybody's out there watching
21	it. And what we try to do is we left items on there, but
22	we highlight them if we had potentially moved them
23	forward so that we're not discussing it again, but we
24	didn't want to remove it completely. Thank you. So as
25	you can tell, the first four items, 1, 2, 3A and 3B,

1	those we've already moved forward to develop some
2	language, so we won't discuss that one. And then also 4C
3	that's on the second page. At the last meeting. Oops.
4	There we go. There we go. That's a blue.
5	At the last meeting, the chair requested that we
6	move it to a lower priority. So we'll discuss it at some
7	time in the future. And that one had to do with adding
8	language to note nothing impedes the commission from
9	rotating the chair. So at this point, what we'll do is
10	we will go back to 4C. And that one used to be a prior
11	C9 and that one has to do with the strikes by the
12	Legislature are not transparent and should the
13	Legislature be allowed to strike.
14	And the prior discussion that we had was discussing
15	that the entire process from the time that the State
16	auditor conducts this process, gets the application and
17	starts eliminating, I guess, candidates, it's all done
18	publicly. The only part that is not public is when the
19	strikes go to the Legislature and they're given the list
20	and they come back and they've lined out, whichever ones
21	are no longer on the list. So I will say my own opinion,
22	I think this willmay be a difficult one to get through
23	the Legislature, but we'll see.
24	CHAIR TURNER: Commissioner Sinay?
25	COMMISSIONER SINAY: I think this one is one that

1	needs a strategy. It's not just we change the language
2	and we hope someone takes it on, but that we actually
3	work with our community advocates and you know, hear from
4	them why what, you know, why it makes sense and kind
5	of in some ways make sure that we are going in with
6	support from the community and then go to the
7	Legislature.
8	This one is not this is different than the rest.
9	But I think this is one of the more important ones that
10	we can do, because as we learned last time, it has real
11	effects on his on the first part of the ping pong ball,
12	you know, random selection. So that would be what I
13	would recommend is that we really create a strategy,
14	bring in a panel to talk to us at the next meeting and
15	then move forward from there versus just jump right into
16	it.
17	CHAIR TURNER: Okay. Commissioner Sadhwani?
18	COMMISSIONER SADHWANI: Yeah. Sorry. This is on
19	the Legislative strikes.
20	COMMISSIONER SINAY: Yes, yes.
21	COMMISSIONER SADHWANI: I would agree with
22	Commissioner Sinay on that. I mean, in this round in
23	particular that had that seemed to have particularly a
24	detrimental effect on Latino candidates in the pool. So
25	I'd be really curious to see what some of the Latino

1 community advocates might have to say about this concept.
2 The Schwarzenegger Institute also had done a report on
3 the commission and the commissioners very early on, which
4 specifically identified the Legislative strikes as being
5 the place where Latinos were removed from the candidate
6 pool.

7 So I agree with Commissioner Sinay. And I think 8 reaching out to many of the advocates who were very much 9 involved in the result. There was a significant push 10 from community advocates saying, hey, look, there's not 11 enough Latinos on the commission. There were none. 12 Right. Based on the ping pong ball process and really a 13 strong push to make sure that that was improved upon. 14 Those are the folks, I think, that should be involved in 15 this if we're able to move it forward. 16 COMMISSIONER FERNANDEZ: Yeah. I mean, I would 17 agree, I think. Absolutely right. It is a much bigger 18 effort than drafting up some language. 19 Commissioner Vasquez? 20 COMMISSIONER VAZQUEZ: Yeah, I would agree. And I 21 think also if this is going to be a Legislative attempt 22 as opposed to ballot initiative change, we're going to 23 need the support of the Legislature. And this is a 24 particularly -- I bet they're not going to amend that 25 power easily. And so I think if this is something we're

92

1	committed to working with community partners to ensure
2	that we have the concept and the language of our solution
3	really buttoned up, tight and has a groundswell of
4	community support is what we're going to need to actually
5	change this particular component of our of our mandate.
6	COMMISSIONER FERNANDEZ: Okay. I completely agree.
7	I think it I'm thinking it'll be a different
8	subcommittee, not our subcommittee. So that would go to
9	Chair Turner.
10	CHAIR TURNER: So is there interest?
11	Commissioner Kennedy?
12	COMMISSIONER KENNEDY: Just a reminder that in my
13	mind we still have a Government Affairs Subcommittee and
14	this might be appropriately assigned to them. Thank you.
15	CHAIR TURNER: Let's see, who's our Government
16	Affairs I have
17	COMMISSIONER FERNANDEZ: That's Commissioner Toledo
18	and Sadhwani.
19	CHAIR TURNER: How are you feeling about that?
20	Commissioner Sadhwani?
21	COMMISSIONER SADHWANI: I am feeling like I could
22	work on that later this fall, not right now. But only
23	because I'm about to leave for a few weeks. But when I
24	get back, that's something I could certainly start poking
25	around on and see if there was interest in some. My

www.escribers.net | 800-257-0885

1	thought is not to remove the Legislative strikes
2	entirely, but at least to provide the transparency part.
3	Right. That's my explanation of why folks are being are
4	being removed not to take that power away.
5	That being said, of course, as the Supreme Court,
6	and I think we'll probably talk about this later, but as
7	the Supreme Court takes on the State Legislature and
8	whether or not the commission continues to have a role
9	nationally, this this could be a moot point. But I would
10	be happy to look into this and see what the possibilities
11	are to advance something. Is Commissioner Toledo still
12	on? I can't see
13	CHAIR TURNER: I don't see him currently.
14	COMMISSIONER SADHWANI: Okay. Yeah, I could follow
15	up with him and make sure he's comfortable moving it
16	forward.
17	CHAIR TURNER: I think it a great suggestion and
18	would support that for sure.
19	Commissioner Kennedy?
20	COMMISSIONER KENNEDY: Thank you, Chair. The other
21	aspect of this that we're looking at, of course, is
22	whether it makes sense for Legislative leadership to be
23	able to eliminate a full forty percent of the remaining
24	pool or whether twenty percent might be a more reasonable
25	figure for the Legislative leadership to be able to

1 eliminate. 2 CHAIR TURNER: Um-hum. 3 COMMISSIONER KENNEDY: Just seems that 2424 may not 4 sound like a huge number, but when it's twenty-four out 5 of sixty and it's a full forty percent, that can have a huge impact, as we've said, on the outcome. 6 Um-hum. 7 CHAIR TURNER: COMMISSIONER KENNEDY: So I do encourage us to 8 9 consider how reasonable a -- an ability to strike forty 10 percent of the applicant pool is. Thank you. 11 I like that. The forty CHAIR TURNER: Um-hum. 12 percent moving to a smaller amount. But for sure, I 13 think my top priority as well would be just even an 14 understanding and have some sort of accountability to 15 Californians to say why the strikes were given, so. 16 Commissioner, Yee? I'm sorry. 17 COMMISSIONER YEE: Thank you, Chair. Yeah. Yeah. 18 I'm trying to imagine, you know, Legislative staff coming 19 up with publishable reasons why individuals were, you 20 know, struck from that list. It's hard for me to be 21 really optimistic that the reasons will be, you know, 22 fully true and useful. 2.3 CHAIR TURNER: Um-hum. 24 COMMISSIONER YEE: So I'm wondering, you know, as we 25 think about this, just to encourage us to keep a wide

www.escribers.net | 800-257-0885

1	sense of what the possibilities are. So for instance, to
2	at least have the Legislative leaders who do the strikes
3	own them, so who struck whom, to least have that
4	information, you know, as some objective sense of what's
5	going on, some objective transparency. There may be
6	other possibilities. But I'm just trying to think of,
7	you know, how this could actually happen and how it would
8	actually be useful if it did exist.
9	CHAIR TURNER: Okay. And to just give us a sense,
10	we certainly want to have complete and total and robust
11	discussions. We have about twenty more minutes for to
12	get through the potential Legislative changes to stay on
13	schedule and more time if we want to adjust the schedule.
14	So just a time check.
15	Commissioners Sinay?
16	COMMISSIONER SINAY: I think that's just to
17	address what Commissioner Yee was saying. I think that's
18	why we want to invite our community partners in and
19	really think this through and have their input. And then
20	from there come up with what would our suggestion be?
21	Right now we're just saying, let's explore what do we
22	think is reasonable? And we may have, you know, we may
23	have several panels and one of the panels is Legislature.
24	Yeah, some of the legislators there.
25	For instance, Senator Atkins won't you know,

1	isn't running again. So we can invite Senator Atkins to
2	talk to it. You know, there is different options on
3	this, but I think we're exploring, we're not
4	CHAIR TURNER: Um-hum.
5	COMMISSIONER SINAY: we're learning right now.
6	CHAIR TURNER: That's good. It's good.
7	Commissioner Fernandez?
8	COMMISSIONER FERNANDEZ: Okay. So with that 3C, we
9	will note on it on the next update that Government
10	Affairs will continue to work on this and then we'll
11	report back at some point.
12	So thank you, Commissioners Sadhwani and Toledo.
13	And the next one is 4A is to clarify oops.
14	Sorry. Phone's ringing. I have a water heater being
15	replaced today. So here we go. Anyway, the next one is
16	to clarify, provide definition of what public input
17	means. And so that we did have prior discussions. Like
18	some said, liked it to be broad, which allows for
19	community input and other discussion was let's just leave
20	it alone and let each commission decide how they want to
21	define it. So any comments or feedback on that?
22	CHAIR TURNER: I like the flexibility of commissions
23	deciding.
24	COMMISSIONER FERNANDEZ: I have to admit that I like
25	that. I like each commission deciding as well. I

1	thought that was good conversation that we had early on
2	and it definitely helps to see where everyone is on their
3	definitions and hopefully come together on some sort of
4	unified framework.
5	Any other comments? So if there are no comments or
6	any no one's either way, I'm thinking that there isn't
7	a need to amend this particular Government code section
8	at this point. We can move it to the bottom of the list
9	in case maybe we decide differently.
10	CHAIR TURNER: Okay.
11	COMMISSIONER FERNANDEZ: Okay. The next one is 4B
12	in that one is clarify provide definition of what
13	district matters means. As you know, as we are all aware
14	of we did have a good conversation on what we felt that
15	was as a commission. And I think that was really good
16	for all of us to hear each other's thoughts and then come
17	up with a united definition, which is great.
18	So prior discussion is what I just mentioned, and
19	then also maybe just leave it as it is and let future
20	commissions decide for themselves, how they are going to
21	define it. And then there was also another comment that
22	said, if we leave it too vague, then someone else may
23	define it for the commission. So I guess you always run
24	into that issue where somebody else could have their own
25	definition of what it is. Any comments?

Commissioner Akutagawa?

2	VICE-CHAIR AKUTAGAWA: Yeah. I think I understand
3	about, you know, someone else may define it for the
4	commission, but I would also say then who's to say that
5	that couldn't happen for public input either? I felt
6	that us being able to define it for ourselves in the
7	ensuing discussions all around it and it intertwined with
8	public input and other topics that we talked about. I
9	think to I think to impose it on the next commission I
10	think could impact the way they work together.
11	And so for me personally, I like the previous one.
12	I would I would just say, let's, let's leave it as it is.
13	Let the next commission define it for themselves. It's
14	all part of just how they're going to also learn to work
15	together and understand each other as well, too.
16	CHAIR TURNER: Commissioner Sinay?
17	COMMISSIONER SINAY: I was on that comment that
18	someone else may define it for you. At that point, I
19	think the commission would have an opportunity to share
20	their perspective as well. So it would allow the
21	commission to come together, I mean. And so that was
22	just my thought. I don't think anyone can define it for
23	you without the commission being part of it.
24	CHAIR TURNER: Commissioner Yee?
25	COMMISSIONER YEE: Thank you, Chair. Yeah. You

1 know, I mean, the next commission, of course, could, you 2 know, work on this on their own and to it for themselves. 3 But they may not in the fact that we actually got us 4 sued. Now, that suit got dismissed pretty readily, which 5 was nice. But you know, it was a fairly serious and you 6 know, important matter, this question of, you know, 7 subcommittees meeting outside folks. Outreach pairs 8 meeting outside folks, that redistricting matters or not? 9 You know, I mean, that's a I think it's an important 10 question, and I think I would rather see it resolved 11 rather than just leave it open because, you know, it got 12 us in trouble and it can easily get the next commission 13 in trouble as well. 14 CHAIR TURNER: Um-hum. Thank you. 15 Commissioner Andersen? 16 COMMISSIONER ANDERSEN: Thank you, chair. Yeah, I 17 do see Commissioner Yee's point. I do feel, however, it 18 was extremely valuable for us to decide on our own what 19 these were. What I would like to see is this very 20 specifically pointed out in our Lessons Learned for both 21 this and public input, one that we strongly recommend 22 based on previous litigation that the correct every 23 commission defined both of these terms for themselves and 24 give for them very specifically what the 2010 and 2020 25 versions of them were. So they can actually see for		
But they may not in the fact that we actually got us sued. Now, that suit got dismissed pretty readily, which was nice. Yeah, I
19 these were. What I would like to see is this very 20 specifically pointed out in our Lessons Learned for both 21 this and public input, one that we strongly recommend 22 based on previous litigation that the correct every 23 commission defined both of these terms for themselves and 24 give for them very specifically what the 2010 and 2020	17	do see Commissioner Yee's point. I do feel, however, it
20 specifically pointed out in our Lessons Learned for both 21 this and public input, one that we strongly recommend 22 based on previous litigation that the correct every 23 commission defined both of these terms for themselves and 24 give for them very specifically what the 2010 and 2020	18	was extremely valuable for us to decide on our own what
21 this and public input, one that we strongly recommend 22 based on previous litigation that the correct every 23 commission defined both of these terms for themselves and 24 give for them very specifically what the 2010 and 2020	19	these were. What I would like to see is this very
22 based on previous litigation that the correct every 23 commission defined both of these terms for themselves and 24 give for them very specifically what the 2010 and 2020	20	specifically pointed out in our Lessons Learned for both
23 commission defined both of these terms for themselves and 24 give for them very specifically what the 2010 and 2020	21	this and public input, one that we strongly recommend
24 give for them very specifically what the 2010 and 2020	22	based on previous litigation that the correct every
	23	commission defined both of these terms for themselves and
25 versions of them were. So they can actually see for	24	give for them very specifically what the 2010 and 2020
	25	versions of them were. So they can actually see for

1 themselves compare and go, oh, but I think we should put 2 that point that out. I'm kind of glad that we didn't --3 it wasn't specifically defined for us. However, I wish 4 that we had been aware of how important to define it was 5 before we eventually got around to. 6 CHAIR TURNER: Thank you. 7 Commissioner Kennedy?

8 COMMISSIONER KENNEDY: Thank you, Chair. The point 9 about making this a prominent mention in the Lessons 10 Learned. Our report is well taken. That was the first 11 point that I was going to make after raising my hand. 12 The second point, and this goes more to Commissioner 13 Yee's statement is, you know, in political science and 14 not just kind of theoretical political science, but you 15 know, the real world of politics and elections, one of 16 the lessons that we've learned over the decades is when 17 you have critical decisions, it's often better to make 18 them at a point in the cycle where you're not under the 19 gun, where there can be both, you know, serious 20 deliberation as well as, well, I'll leave it at serious 21 deliberation. 22 Because often when you're under the gun, well, you

23 might find yourself trying to make this decision at a 24 point in time where your decision, one way or another, 25 has a very clear known outcome. All right? And when

1	you're trying to set rules for elections and politics,
2	you're usually better off setting the rules at a point in
3	time where you're not pre determining who wins and who
4	loses. So I just wanted to put those considerations on
5	the table for us. Thank you.
6	CHAIR TURNER: Yeah. Okay.
7	Commissioner Fernandez?
8	COMMISSIONER FERNANDEZ: Thank you. And I think
9	Commissioner Kennedy, because he actually did trigger
10	something, a different train of thought is we did have
11	extra time because of COVID and Census. If we were
12	tasked with defining redistricting matters right off the
13	bat, I don't know if we'd be ready to discuss it or if
14	we'd know enough to discuss it. Right.
15	So I guess I am kind of torn as to whether to leave
16	it to the next commission or each commission to decide or
17	maybe alleviate that from happening for the new
18	commission because they won't have the extra time that we
19	had to discuss it. Thanks.
20	CHAIR TURNER: Commissioner Kennedy?
21	COMMISSIONER KENNEDY: Thank you, Chair. And you
22	know, as we've said on a number of other topics, the fact
23	that we decide something, you know, and this comes down
24	to how this is dealt with. If it's dealt with through
25	regulation, it's easier to change than if it's dealt with

1 through a change in a statute. But you know, to whatever
2 extent, you know, there may be a possibility for a future
3 commission.

I mean, but generally, if we if we make it through a 4 5 quote/unquote policy decision, future commission would certainly have the opportunity to make changes to what we 6 7 leave behind. But we will have left something that they can start from. Doesn't mean that it necessarily makes 8 9 their discussion easier because yes, we will have Perhaps 10 narrowed the options or narrowed the opportunity to 11 change somewhat. There's a lot to be unpacked here. А 12 lot to be considered. Thank you.

13 CHAIR TURNER: Yeah.

14 Commissioner Sadhwani?

15 COMMISSIONER SADHWANI: Yes, sorry. I would lean on 16 the side of leaving it vague. I'd like to get Anthony's 17 perspective on whether or not going to the lengths to 18 legally define these terms is actually helpful or not. 19 Sometimes there can be benefits to the ambiguity, and I 20 think leaving the opportunity for the next commission to 21 have that ambiguity could potentially be helpful. We 22 don't know what this is going to look like in 2030. 2.3 And I just wanted to remind us all some of these 24 terms, particularly redistricting matters, were defined 25 for us by our attorney. Early on, Marion gave us a

103

www.escribers.net | 800-257-0885

different definition and her definition, her legal definition of redistricting matters and how to apply it. I think leaving detailed notes on how we use that definition, what that was for us, how it applied, some of perhaps even some of the questions that arose from it are really helpful.

And should issues arise for the 2030 Commission, certainly they could point to our -- the documents that we leave behind as a justification for how they want to define it in the future should they find themselves in court. But I think getting some input from Anthony and our Chief Counsel or others would potentially help guide this conversation.

14 CHAIR TURNER: Okay. Commissioner Sadhwani, if you 15 would just indulge me, let -- since we had Commissioners 16 Taylor and Fornaciari's hand popped up, Fornaciari and 17 Taylor, can we have them comment because their hands were 18 up prior to your request for him and so they won't be 19 swayed or they can still state what they want to before 20 Chief Counsel Pane speaks.

21 COMMISSIONER FORNACIARI: I will just concur with 22 Commissioner Sadhwani's statement. I am apprehensive 23 about codifying a definition, but I very much support 24 forwarding all the information that we have and what 25 definitions we use, why and what our experiences --

	105
1	CHAIR TURNER: Um-hum.
2	COMMISSIONER FORNACIARI: were with to the future
3	commission.
4	CHAIR TURNER: Beautiful.
5	Commissioner Taylor?
6	COMMISSIONER TAYLOR: Oh. Thank you, Chair. Yeah,
7	I think I agree with Commissioner Sadhwani. Oftentimes
8	ambiguity in the law is deliberate and it falls under,
9	you know, especially when I look at it since we had the
10	2010 and us the 2020 not pitting us against each other.
11	Well, we fall under the sides of the coin that is the
12	spirit and the letter of the law, neither one is
13	cancels out the other.
14	And I don't think that we should make it we
15	should forward language that makes the spirit of the
16	law the determinant or the letter of the law, the
17	determinant going forward, I think it's deliberate, and
18	you can interpret that law either side of the coin. So
19	I'm probably I lean more towards leaving the verbiage
20	as it is.
21	CHAIR TURNER: Okay.
22	Chief Counsel Pane?
23	MR. PANE: Thank you, Chair. And I appreciate the
24	conversation from all the commissioners on this. This is
25	certainly defining terms in a statute or is always a

www.escribers.net | 800-257-0885

1double-edged sword. On the one hand, you think you're2providing specificity, but in trying to provide3specificity, you may create new ambiguities. And so it4ends up becoming almost potentially a vicious circle.5And I guess this is how attorneys have employment.6So it's really a very much a policy call for the7commission. I think there's a lot it's strategy. And8I think if you just forecast to a future commission and a9future lawsuit in a future California Supreme Court, what10are they going to have to go on? They're going to have11to go on the same language that the commission at the12time has. They're going to have to go on the same13Constitutional language that the commission has. And14there are going to be legal arguments as to why the15commission's interpretation application is the preferable16one.17I do think regardless of whether there's further18specificity or not, there's going to be somewhat of a19deference. Could be slight, but some deference to the20commission in a future lawsuit because arguably you all21are the future commissioners of the subject matter expert		
3 specificity, you may create new ambiguities. And so it 4 ends up becoming almost potentially a vicious circle. 5 And I guess this is how attorneys have employment. 6 So it's really a very much a policy call for the 7 commission. I think there's a lot it's strategy. And 8 I think if you just forecast to a future commission and a 9 future lawsuit in a future California Supreme Court, what 10 are they going to have to go on? They're going to have 11 to go on the same language that the commission at the 12 time has. They're going to have to go on the same 13 Constitutional language that the commission has. And 14 there are going to be legal arguments as to why the 15 commission's interpretation application is the preferable 16 one. 17 I do think regardless of whether there's further 18 specificity or not, there's going to be somewhat of a 19 deference. <pre>19 sorry. 20 CHAIR TURNER: Chief Counsel. 21 COMMISSIONER SINAY: Chief Counsel thank 22 you Pane brought up one side of it is what is our feel 23 about the future of the Supreme Court? Right. And then 24 there's the other, you know, if we're looking future</pre>	17	Toledo.
CHAIR TURNER: Chief Counsel. COMMISSIONER SINAY: Chief Counsel thank you Pane brought up one side of it is what is our feel about the future of the Supreme Court? Right. And then there's the other, you know, if we're looking future	18	COMMISSIONER SINAY: I think a commissioner
21 COMMISSIONER SINAY: Chief Counsel thank 22 you Pane brought up one side of it is what is our feel 23 about the future of the Supreme Court? Right. And then 24 there's the other, you know, if we're looking future	19	sorry.
22 you Pane brought up one side of it is what is our feel 23 about the future of the Supreme Court? Right. And then 24 there's the other, you know, if we're looking future	20	CHAIR TURNER: Chief Counsel.
<pre>23 about the future of the Supreme Court? Right. And then 24 there's the other, you know, if we're looking future</pre>	21	COMMISSIONER SINAY: Chief Counsel thank
24 there's the other, you know, if we're looking future	22	you Pane brought up one side of it is what is our feel
	23	about the future of the Supreme Court? Right. And then
25 wise, is how do we feel about, you know, the 2010 and	24	there's the other, you know, if we're looking future
	25	wise, is how do we feel about, you know, the 2010 and

1 2020 commissions, really this election, you know we 2 believed in in their maps as and we really use the 3 definition.

You know, VRA became kind of one of our tenants. 4 5 And so one of the questions and I trust the process and I that the 2030 Commission will look like -- yeah, will not 6 7 look like, but it's just one of those questions we have to put out there as we're looking into the future and 8 9 watching what's happening in other parts of the country. 10 Do we trust -- it comes down to do you trust that the 11 future commission and future Supreme Court and future da, 12 da, da will interpret fair maps in the same way that 13 therefore they'll have a good conversation about 14 redistricting matters, all these different pieces. 15 And I guess that's part of what's playing into my 16 mind as I -- I believe I have in the past I've said I 17 completely want to leave it open for the next commission 18 so they can have the conversations and they can grapple 19 with it. But that is based on my assumption that it will 20 be a reflective commission and of the State of 21 California. And so I don't want to walk away from this 22 without being a negative person and saying, you know, can 23 this process be manipulated? 24 CHAIR TURNER: Commissioner Toledo? 25 COMMISSIONER TOLEDO: Thank you. Just if memory

www.escribers.net | 800-257-0885

1	serves me, we our definition of our redistricting
2	matters was very consistent with the previous
3	commissions, the 2010 commissioned definition. And I'm
4	just curious to hear from Anthony whether it would make
5	sense to have to go through the rulemaking process or
6	some similar process, to try to move this sort of thing,
7	to clarify what to essentially codify what's been done
8	for the past two commissions.
9	And I don't given that it's been pretty
10	consistent and something I can't remember if the courts
11	have upheld or even looked at the question in the cases
12	that have gone before it. So just wondering if he can
13	speak to that.
14	MR. PANE: Sure. Thanks. Thank you, Commissioner.
15	Whether to do regulations, I think first the issue would
16	be getting regulatory authority in the first place. I
17	think the commission would need to get that first. Let's
18	assume we do get that. The advantage of a regulation is
19	that it's still an open process transparent process
20	for making changes. I do think no matter which process
21	you go with, whether you go through a regulatory process
22	or a statutory process to further clarify the term any
23	term, frankly, not just necessarily redistricting
24	matters, you but I would say with redistricting
25	matters, you're probably going to get the most probably

1 the most vociferous debate on that because it's so 2 central to what the commission deals with.

And so where do you, you know, maybe what you're 3 4 getting at, Commissioner, is where do you want to have 5 that discussion? Do you want to have that discussion over a regulatory hearing? As you're trying to define 6 7 it, once we have regulatory authority, do we want to have that conversation amidst a potential statutory change or 8 9 do we want to have that conversation as an argument in 10 the courts where the commission is arguing one side of it 11 and the other -- the opposing litigation firm or opposing 12 side is arguing a different interpretation and the 13 California Supreme Court is deciding what that means. 14 As you may know, we've already had one lawsuit 15 interpreting what redistricting means, redistricting 16 matters means. The California Supreme Court agreed with 17 the Commission on what it meant. So you know -- so 18 again, I think it depends where the redistricting 19 commission wants to have this conversation. What's the 20 venue? Different prospect regulation, a statute or a law 21 or a court decision, those are different audiences, 22 different environments. And so that is, I think --23 that's sort of based in your question, Commissioner, I 24 think is where do you want to have that conversation? 25 Because I think you will have the conversation. It will

1	be a very you know, as I said, a very vociferous
2	conversation. But the question, I think, is where you
3	have that.
4	COMMISSIONER TOLEDO: Can I respond to that,
5	Commissioner or Chair Turner? Well, given that the
6	Supreme Court has agreed with our interpretation and
7	previously and we pretty much been consistent with the
8	2010, and now our definition is pretty similar to the
9	2010 definition it may make sense to go through reducing
10	some of the risk to the commission.
11	Ultimately, this is a risk issue. Not having
12	clarity around that may pose a risk to the work of the
13	commission and may make sense to either go through a
14	regulatory process to define that doesn't alleviate
15	all of the risk. But it may reduce it for a future
16	for our current and future commission. Thank you.
17	CHAIR TURNER: Okay. Subcommittee, I'm not sure if
18	you want to kind of test the consensus of the
19	COMMISSIONER FERNANDEZ: Well, it kind of I don't
20	think there is consensus at this point. I think we
21	have and Commissioner Toledo, I just wanted to
22	clarify, when you talk about are you talking
23	regulatory, is us having our own regulatory authority or
24	are you talking about going through the Legislative
25	process and amending the our language, our government

1	code section?
2	COMMISSIONER TOLEDO: I would be in favor of getting
3	regulatory authority so that we can go through the roll
4	making process and us taking the lead on defining what
5	our us interpreting and taking the lead on going
6	through that process. It is a burdensome process because
7	we have to have hearings and such. And I'm sure Chief
8	Counsel Pane can give us a more detailed explanation of
9	how that would work.
10	But it would be us being in the lead of defining our
11	own statute and interpreting our statute and having the
12	public weigh in and then having us be part of that. So
13	instead of having the Legislature kind of frame the
14	conversation, we'd be framing the
15	CHAIR TURNER: Um-hum.
16	COMMISSIONER TOLEDO: conversation. And which I
17	think is appropriate if we wanted to do something like
18	this, because it is the independent commission deciding
19	it's deciding the definition of this of legal term.
20	And so I would have preferred to do it through the
21	rulemaking process. I do know it's burdensome and would
22	require resources to do so. But I just wanted to give
23	that perspective. Thank you.
24	CHAIR TURNER: Thank you for your response.
25	Commissioner Fornaciari?

1	COMMISSIONER FORNACIARI: You know, that's not on
2	our list of things you want to do. I mean, how do we do
3	that, Anthony? I mean, Chief Counsel Pane.
4	MR. PANE: So I would say if we're trying to add
5	terms and the consensus is to do it through regulatory
6	action, the first thing we would need to do is get
7	regulatory authority for making regulations. That I
8	would defer to the subcommittee as to where it falls on
9	this list. And you know, certainly if it's not on a
10	particular list, then I guess there is a question then
11	for the commission, is it important enough to put it on a
12	list?
13	And that's very much a policy discussion for the
14	commission to have. My understanding is the commission
15	is sort of taking sort of there's one list that the
16	commission has already at least edged towards as far as
17	making recommendations on topics and concepts. And then
18	there's another list that could still create topics for
19	discussion that maybe isn't quite as far along, but you
20	know, doesn't prevent further discussion of particular
21	topics.
22	And so I'll leave it up to the commission as to how
23	which list or if it falls into of the topic of getting
24	regulatory reform.
25	COMMISSIONER KENNEDY: So just to be clear, though,

www.escribers.net | 800-257-0885

1	to get regulatory authority, we have to go through the
2	Legislature to get it to us?
3	MR. PANE: We would need
4	COMMISSIONER KENNEDY: That's the process?
5	MR. PANE: Yes, we would need statutory
6	COMMISSIONER KENNEDY: Okay.
7	MR. PANE: authority that allows the commission
8	to promulgate regulations.
9	CHAIR TURNER: Um-hm.
10	MR. PANE: And there's enough departments and
11	enough I mean, the language itself is standard. It
12	wouldn't be unique, but because it is standard, the
13	absence of the commission, having that basic language, we
14	wouldn't be on very solid ground by then saying, well,
15	it's sort of implicit in our statutory scheme when the
16	language itself is pretty clear as to how to have that.
17	So yes, I would say we would need the statutory
18	authority which allows the Commission to promulgate
19	regulations because not every department that exists in
20	the State of California has that authority. So we would
21	want to make sure and clear first that we have that
22	authority.
23	CHAIR TURNER: Um-hm. Um-hm. Okay. I'm not
24	feeling a lot of energy around it right now, but will
25	absolutely support what the Commission decides.

Commissioner Akutagawa?

2 VICE-CHAIR AKUTAGAWA: Yeah. Thanks for this really interesting conversation. If I can make a suggestion 3 4 because to the point that perhaps Anthony just made, 5 could we just put this on the -- I'll call it the parking lot where we'll just table it for right now as something 6 7 that we may want to do. I'm realizing that as we're going through each of these other things that we have not 8 9 had really detailed conversations about yet, there are 10 new things that are being added to our list.

11 And so perhaps we should just go through everything 12 first, and then we could then determine what makes sense 13 around at least this particular one. Because if there's 14 other things in the course of the discussions of the 15 other topics, there is -- let's just say, for example, 16 that there are other things that come up that would meet 17 this kind of statutory authority to be able to create 18 regulations it maybe then something that would make sense 19 for us to then more seriously consider in the pursuit of 20 multiple changes versus just the one.

And then as we go through other things too, we may also decide some other things are going to be more important than other things. Also, remember that we got eight more years. It doesn't have to be all done in the first year. And that's also going to be important

1	because we're clearly going to be different than the
2	previous commission in a sense that we're taking a much
3	more active role in some of these things.
4	That also means that from a budgetary perspective,
5	we will need to think about, you know, the kind of the
6	budgets available for some of the work that we're hoping
7	to enact. For example, if we do hearings and other
8	things like that, obviously it's going to be much more
9	than what we had estimated in our original BCP. So those
10	are also things that I think we'll need to consider and
11	to plan for as well, too.
12	CHAIR TURNER: Um-hum. Okay. And Commissioner
13	Akutagawa, I think your mic is what Commissioner
14	Fernandez said earlier. So you may need to log off and
15	back on.
16	Commissioner Fernandez?
17	COMMISSIONER FERNANDEZ: Glad you said that. I
18	wasn't sure if it was me or my computer. Yeah, similar
19	to what Commissioner Akutagawa said, I believe with this
20	regulatory, I believe it's more staff consuming or
21	intensive. And I just reminder we're only going to have
22	one full time, but I do think it's something that we
23	should look at. And when I say we, that doesn't mean me,
24	the commission should look into if they are interested in
25	obtaining that, regulate the regulatory authority is to

escribers

1	see what it entails in terms of getting the authority,
2	what that entails, after you get the authority and what
3	process you have to go through.
4	CHAIR TURNER: Um-hum.
5	COMMISSIONER FERNANDEZ: And if there is more
6	responsibilities placed on the commissions because
7	another piece of it is we also don't want to add more on
8	to future commissions as well. So I think it's probably
9	good to look into it so that we kind of know what the
10	pros and cons are before we actually make a decision
11	point a decision at that point.
12	CHAIR TURNER: Okay.
13	Commissioner Kennedy?
14	COMMISSIONER KENNEDY: Thank you, Chair. We have
15	discussed rulemaking authority on a number of occasions,
16	so we've discussed it in relation to defining fully
17	functional. In that case, it's probably, though not
18	necessarily, going to be a matter of working with
19	California's state auditor's office, using their
20	regulatory authority to modify the regulations that
21	currently exist. Because CSA does have regulatory
22	authority. We are at least the selection process for
23	redistricting commissioners is already subject to those
24	regulations.
25	And I believe, you know, to the extent that Chief

1	Counsel Pane may wish to offer us some advice on this as
2	to whether it would be better dealt with through CSA
3	regulations or through our potential eventual regulatory
4	authority. But you know, that issue defining fully
5	functional is definitely something that we've been
6	talking about for quite a while. That would be that
7	would go through the regulatory process. Thank you.
8	CHAIR TURNER: Um-hm. Thank you. Okay.
9	Commissioner Fernandez?
10	COMMISSIONER FERNANDEZ: Well, we're at an impasse.
11	How's that sound for this one specifically in terms of
12	one, whether to move forward and define it. There seems
13	to be it's almost like an equal amount number of
14	commissioners that would prefer that future commission
15	define it. And then there's also the other side of it
16	that they're maybe leaning towards defining it to get rid
17	of any ambiguity.
18	So at this point, we're kind of stuck in the middle.
19	So there is
20	CHAIR TURNER: It's not time sensitive, right? We
21	have no
22	COMMISSIONER FERNANDEZ: It's not time sensitive.
23	I'm thinking we could do a couple of things. We could
24	maybe look into the process for to obtain regulatory
25	authority and see what the staff needs would be and what

1	the process would be and whatever else is needed. We
2	could do that. When I say we, it's probably not our
3	subcommittee. That's something that's a different
4	process. But again, we're probably going to have to put
5	this one maybe on the shelf and then continue to move on
6	so we can get through the other ones to see where they
7	land.
8	CHAIR TURNER: Okay. And we're probably going to
9	have to get to the other stuff, too, after lunch, after
10	closed session, into the afternoon. So we are right
11	now yeah. Before we start another one, we're at 12:43
12	now. We're going to go ahead and go to lunch. And once
13	we come back from lunch, we're going to come back from
14	lunch into closed session. That should be for about an
15	hour before we come back again.
16	Commissioners Sadhwani and Fernandez?
17	COMMISSIONER SADHWANI: Thank you. And I know I'm
18	holding us up before lunch, but I just wanted to say
19	apologies I'm not to be able to stay on this afternoon.
20	I don't have childcare this summer, so I have to take
21	kids to the dentist. But I did want to just note before
22	getting off that I am very concerned about the Supreme
23	Court taking up this case around the Legislatures and
24	their potential like extreme authority to oversee
25	elections and what that would mean for the California

www.escribers.net | 800-257-0885

1Citizens Redistricting Commission and whether or not we2could continue to exist. CHAIR TURNER: Okay, so when we come back and we're going into closed session for pending litigation and for personnel possible personnel exemption. So when we come back, then perhaps we'll move on to the next subcommittee. Okay. All right. So we're back from lunch into closed session at 1:45. (Whereupon, a recess was held from 12:43 p.m. until 1:45 p.m.) CHAIR TURNER: Thank you and welcome back from 	4	able to discuss it later and just to register my concern.
 COMMISSIONER FERNANDEZ: Yes, I just wanted to there is no urgency for us to go through the entire list today. I just want to make sure CHAIR TURNER: Okay. COMMISSIONER FERNANDEZ: I put that up because we won't be able to draft up the language and have it to bill until early next 2023. So I just want to make sure that you. CHAIR TURNER: Okay, so when we come back and we're going into closed session for pending litigation and for personnel possible personnel exemption. So when we come back, then perhaps we'll move on to the next subcommittee. Okay. All right. So we're back from lunch into closed session at 1:45. (Whereupon, a recess was held from 12:43 p.m. until 1:45 p.m.) CHAIR TURNER: Thank you and welcome back from lunch. And we are coming back from a closed session 	5	Thank you.

23 CHAIR TURNER: Thank you and welcome back from 24 lunch. And we are coming back from a closed session	21	(Whereupon, a recess was held from 12:43 p.m.
24 lunch. And we are coming back from a closed session	22	until 1:45 p.m.)
	23	CHAIR TURNER: Thank you and welcome back from
25 under pending litigation. And for that, we have nothing	24	lunch. And we are coming back from a closed session
	25	under pending litigation. And for that, we have nothing

1	to report at this time. And then also for a personnel
2	exemption, and we'd like to report that we have received
3	a motion to hire an SSM-1 pending reference checks. So
4	excited about that.
5	We're going to go and finish out our subcommittee
6	readout from the Legislative and Long-Term Planning and
7	go for the third attempt back to the support letter. And
8	when we finish this part, we will be moving to public
9	comment. So for the support letter of approval, Anthony,
10	let's see where we are in our language. And please,
11	Commissioner Fernandez and Akutagawa.
12	MR. PANE: Okay. Thank you, Chair. So the
13	highlights are the edits and additions I have made based
14	on the recommendations that commissioners have made. The
15	first one here, fair representation, is at the heart of
16	fair elections, and appropriate district lines was an
17	addition from what Commissioner Sadhwani had requested.
18	The second highlight, Commissioner Taylor, we had
19	already touched base with him on that. So that sounded
20	like that captured his sentiment. And the third
21	highlight here is Commissioner Kennedy's edits to the
22	first phrase of that sentence. And the fourth
23	highlighted area was a comment that Commissioner Kennedy
24	requested be inserted regarding an additional benefit of
25	the passage of the bill that's specifically as it applies

1	to the Statewide Database and a local redistricting.
2	And then so I wanted to see in light of this, I
3	note, Commissioner Andersen, you had some suggestions as
4	well. I wasn't sure if Commissioner Kennedy's point here
5	fourth one down is capturing at least some of the
6	recommendations you had made. But with that, I wanted to
7	also I know we need to also look at Commissioner
8	Andersen's points as well.
9	CHAIR TURNER: She's here. Let me Anthony, can
10	you put the full on the screen again?
11	MR. PANE: I'm sorry.
12	CHAIR TURNER: I wanted to see the full
13	MR. PANE: All the changes?
14	CHAIR TURNER: Yep. Okay. Because I want to read
15	all of it out loud so I can hear it so we can hear it.
16	So it's fair representation is at the heart of fair
17	elections and appropriate district lines. Counting each
18	incarcerated person at the last known address makes far
19	more sense than the place of incarceration. Doing the
20	latter artificially drives up numbers in a country in
21	a county and a city with a correctional facility.
22	Inflating the apparent size and the political influence
23	of areas with incarceration facilities violates our
24	Constitutional right to equal political power based on
25	population size. This needed change will provide equal

1 and fair representation for all districts in California. 2 Additionally, incarcerated persons do not intend to remain in a correctional facility. An important 3 4 consideration when determining resident status. Because 5 the incarcerated persons last address is known, it is a far fairer determination to count incarcerated persons at 6 7 their last known address rather than at the correctional 8 facility. 9 The harmonization of requirements between state and local redistricting will also ensure that there would 10 11 only be a single version of the official redistricting 12 database. This would reduce both the possibility of 13 confusion among the public and the workload of the 14 Statewide Database, which would already have a 15 significant workload without having to produce two 16 versions of the redistricting database. 17 For these reasons, we support this legislation and 18 urged speedy passage and enactment. Thank you for your 19 consideration. Okay. 20 Commissioner Andersen (Audio interference) oh, 21 Fernandez? 22 COMMISSIONER FERNANDEZ: I think I just received something. Is that online feed is the volume on? 23 24 MR. MANOFF: Yes, it is. 25 COMMISSIONER FERNANDEZ: Okay. Thank you.

23 would make permanent, necessary changes. Just delete 24 that part. Then it says current law requires local	21	behalf of the 2020 California Citizens Redistricting
24 that part. Then it says current law requires local	22	Commission, we write this letter and support a bill that
	23	would make permanent, necessary changes. Just delete
25 redistricting agencies, but only requests California	24	that part. Then it says current law requires local
	25	redistricting agencies, but only requests California

1	Citizens Redistricting Commission count these
2	individual's last known address rather than where the
3	individuals or rather than at the institution where they
4	reside.
5	The 2020 Commission counted them the last known
6	address and believes the commission should also be
7	required to do to do this to not only address what's
8	known as the prison gerrymandering issue oh, I missed
9	that, but make state and local redistricting census
10	databases consistent and reduce the workload of the
11	Statewide Database. And that I didn't and then I
12	didn't so I took the last part out. I didn't change
13	anything from there down.
14	So this last sentence essentially is a short version
15	of Commissioner Kennedy's idea. And essentially, this
16	part here, the switching, as you may know, but just for
17	that and that current redistricting requires this, but
18	only requests us. And I changed the sentence, we should
19	also be required to do so. And then this is a my
20	first was that was my first reasoning prison
21	gerrymandering and then I added in these other two.
22	CHAIR TURNER: Okay. Comments? Questions?
23	Feedback? What are we thinking? Does the addition being
24	offered make it clearer? Does it clarify? Or do we like
25	it the way it is? What's the desire or thought of the

1	commissioners?
2	Commissioner Kennedy?
3	COMMISSIONER KENNEDY: Thank you, Chair. Yeah, I
4	think it improves the letter. I would still add in the
5	bit about having a single redistricting database reducing
6	potential confusion among the public.
7	CHAIR TURNER: Um-hum.
8	COMMISSIONER KENNEDY: I'm fine with this. On the
9	items in yellow on the other version, I think that we can
10	still look at reordering some of those because it almost
11	to me, it's not reading as a logical sequence
12	CHAIR TURNER: Um-hum.
13	COMMISSIONER KENNEDY: the way the sentences are
14	ordered. But I think as far as the elements that we
15	want. You know, I think we're there.
16	CHAIR TURNER: Okay. Great.
17	Commissioner Fernandez?
18	COMMISSIONER FERNANDEZ: Yeah. It's definitely more
19	than I wanted a simple letter of support to have
20	contained. And it's fine we can make the changes to it.
21	We're down to the wire now, and I'm hoping, you know,
22	we'll take the information and probably put it in a
23	different there are sections that I thought weren't in
24	the right order, as Commissioner Kennedy said. So I'm
25	hoping we can just have the authority to make the changes

	127
1	and send it on behalf of the commission at this point.
2	CHAIR TURNER: I'm definitely comfortable with that.
3	Commissioner Andersen?
4	COMMISSIONER ANDERSEN: I think I'm still on you
5	can hear me. I'm totally on board with that. And I've
6	forwarded this to Anthony. So I believe, you know, he
7	has this. And I also like what Commissioner Kennedy said
8	about if they want to use this version and punch up this
9	last part here in the green to make that consistent with
10	what he was intending. I think that would flow it
11	might help us with the flow of that letter.
12	CHAIR TURNER: Okay, great.
13	COMMISSIONER ANDERSEN: I'll stop sharing my screen.
14	CHAIR TURNER: Okay. So with that, what I'm hearing
15	is that we will then give the subcommittee authority to
16	make the last little bit of wordsmithing tweaks in the
17	order and be able to send this forward. Beautiful.
18	Okay. Anything else from the subcommittee at this time?
19	And can we retire?
20	COMMISSIONER FERNANDEZ: I think that's all we had.
21	CHAIR TURNER: Anthony?
22	COMMISSIONER FERNANDEZ: Do we need to vote on this,
23	Anthony?
24	MR. PANE: Yeah.
25	CHAIR TURNER: Where's Anthony?

1	MR. PANE: I'm right here. Hi. If we could,
2	because this is going to be sent in by the commission,
3	even though you've delegated it, it would be helpful to
4	have a vote by the commission to essentially send a
5	letter of support with the changes to be made by the
6	subcommittee, you know, that went on record as a
7	commission supporting this letter.
8	CHAIR TURNER: Okay.
9	Commissioner Andersen?
10	COMMISSIONER ANDERSEN: I so move and I want to say
11	thank you. Thank you to the subcommittee who has done a
12	huge amount of work on all of these items and move them
13	forward and stayed with us and been very tolerant of all
14	our changes and things like that. So but I'm I make
15	the make the motion.
16	CHAIR TURNER: Is there a second?
17	COMMISSIONER FERNANDEZ: I think Commissioner
18	Kennedy seconded.
19	CHAIR TURNER: Okay. Didn't see it. Okay, great.
20	Didn't' see it.
21	COMMISSIONER FERNANDEZ: Put words in your mouth.
22	COMMISSIONER KENNEDY: Seconded.
23	CHAIR TURNER: Beautiful. So it will be the motion
24	in a second. We will go to public comment for this
25	section. And prior to the vote for the Legislative Long-

1	Term Planning. And for the incarcerated populations,
2	Commissioner Fernandez included that in the readout for
3	the Legislative Long-Term Planning. So at this point
4	we'll go then to public comment
5	MR. MANOFF: Sure thing chair.
6	CHAIR TURNER: for these items.
7	MR. MANOFF: And please remind me what are the items
8	again?
9	CHAIR TURNER: P, Legislative Long-Term Planning and
10	incarcerated populations, federal facilities.
11	MR. MANOFF: All right. So Item P?
12	CHAIR TURNER: Yes, P and F.
13	MR. MANOFF: P and F. And are we taking a public
14	comment on the motion?
15	CHAIR TURNER: Yes. Thank you.
16	PUBLIC COMMENT MODERATOR: Sounds good. The
17	Commission will now take public comment on sub item P and
18	item F and the motion on the floor. To give comment,
19	please call 877-853-5247 and enter meeting ID number
20	81170012495. Once you've dialed in, please press star 9
21	to enter the comment queue. The full call instructions
22	are read at the beginning of the meeting and are provided
23	on the livestream landing page.
24	We do have a caller.
25	CHAIR TURNER: Yes, please.

1	PUBLIC COMMENT MODERATOR: Caller 6252, please
2	follow the prompts to unmute. The floor is yours.
3	MS. HUTCHINSON: Thank you. Good afternoon,
4	commissioners. This is Helen Hutchison with the League
5	of Women Voters of California. I am speaking today on
6	behalf of the league and also of California Common Cause
7	and the LEO Education Fund and Asian Americans Advancing
8	Justice Asian Law Caucus. We strongly oppose any
9	reduction in the public notice period for your meetings.
10	Our rationale is outlined in a letter that was sent
11	from the league and Common Cause in May. And we want to
12	also let you know that if this language were to be
13	introduced in the Legislature, we will be actively
14	opposing it there also. Thank you very much.
15	CHAIR TURNER: Thank you.
16	PUBLIC COMMENT MODERATOR: That is all our callers
17	at this time, Chair.
18	CHAIR TURNER: Okay. Thank you so much. Any other
19	discussion before we go to vote? Okay. We are ready for
20	a vote.
21	MR. MANOFF: Yes, Chair. I'll pull that up right
22	now. Okay. The motion is to approve the Commission
23	letter of support with edits for the Assembly Bill 1848.
24	Is that accurate, Commissioner Andersen?
25	COMMISSIONER ANDERSEN: Sorry. Yes. Yes, it is.

www.escribers.net | 800-257-0885

1	MR. MANOFF: Thank you. So the motion was made by
2	Commissioner Andersen, seconded by Commissioner Kennedy.
3	We will begin the vote.
4	Commissioner Vazquez?
5	Commissioner Yee?
6	COMMISSIONER YEE: Yes.
7	MR. MANOFF: Commissioner Ahmad?
8	COMMISSIONER AHMAD: Yes.
9	MR. MANOFF: Commissioner Akutagawa?
10	VICE-CHAIR AKUTAGAWA: Yes.
11	MR. MANOFF: Commissioner Andersen?
12	COMMISSIONER ANDERSEN: Yes.
13	MR. MANOFF: Commissioner Fernandez?
14	COMMISSIONER FERNANDEZ: Yes.
15	MR. MANOFF: Commissioner Fornaciari?
16	COMMISSIONER FORNACIARI: Yes.
17	MR. MANOFF: Commissioner Kennedy?
18	COMMISSIONER KENNEDY: Yes.
19	MR. MANOFF: Commissioner Le Mons?
20	COMMISSIONER LE MONS: Yes.
21	MR. MANOFF: Commissioner Sadhwani?
22	Commissioner Sinay?
23	COMMISSIONER SINAY: Yes.
24	MR. MANOFF: Commissioner Taylor?
25	COMMISSIONER TAYLOR: Affirmative.

	132
1	MR. MANOFF: Commissioner Toledo?
2	COMMISSIONER TOLEDO: Yes.
3	MR. MANOFF: And Commissioner Turner?
4	CHAIR TURNER: Yes.
5	MR. MANOFF: The motion passes.
6	CHAIR TURNER: Thank you. Okay. And also wanted to
7	acknowledge the letter that was sent in from the
8	California Black Census and Redistricting Hub that is
9	posted on our website as well concerning the incarcerated
10	populations federal facilities. I forgot to do that
11	earlier.
12	At this time, we're going to move to the last of our
13	subcommittee updates. And so we'll go to Lessons
14	Learned, Commissioners Kennedy and Yee.
15	COMMISSIONER KENNEDY: Thank you, Chair. The main
16	work that is ongoing at this point is coding of the data.
17	I have my notes, I have Commissioner Yee's notes, I have
18	the letter received from community groups. All of those
19	are being converted into a database, eventually a single
20	database where every single item will be coded as to
21	where it falls in the outline of the Lessons Learned
22	discussion.
23	Each item will be coded as to whether it's a
24	strength, a weakness, an innovation, or a recommendation.
25	Each item will be coded as to the source. I'm thinking I

1	may also code them as to frequency, because one of the
2	things that I'll be doing is eliminating duplicates. But
3	I think it's important to keep track of how often some of
4	these inputs were received. So there will possibly be a
5	field in the database for frequency and then that will be
6	sorted by the outline sub sorted by the type of input.
7	And Commissioner, he and I will be able to begin
8	drafting.

9 We've also been working to ensure that we have the information that we need for the annexes. I reminded 10 11 Director Hernandez that we will be wanting to include a 12 complete listing of all contracting actions, including 13 their start date, how long it took to award the contract 14 so that we can provide a comprehensive picture of the 15 contracting side to the 2030 Commission and anyone else 16 who's interested in that aspect.

We will be including a very comprehensive version of 17 18 the Gantt chart, which will include every single meeting 19 that we had, as well as some other highlights that aren't 20 yet in the current version of the Gantt chart. You know, 21 all of this is going to take time. We recognize that the 22 Legislative issues that we're currently dealing with 2.3 don't need to wait for the Lessons Learned report. 24 There may be further Legislative issues that do 25 arise from the Lessons Learned report. Those would

www.escribers.net | 800-257-0885

1	probably be destined to be brought up with the
2	Legislature next year or further out. So that is where
3	we are on the Lessons Learned report itself. I will also
4	report that I have I had heard back from the chairman
5	of the San Diego County Redistricting Commission. They
6	were one of the commissioners that was initially invited
7	to join us back in March during our Lessons Learned
8	discussions, along with the other commissions.
9	The Chair, at that point in time when I sent my
10	letter, did not have access to his commission email, so
11	he did not get the invitation at that point. We have
12	since then established contact. I have floated with him
13	the possibility that if they do have any Lessons Learned
14	from their experience that they would like to share with
15	us that might inform our Lessons Learned report that I
16	would endeavor to add that to an agenda for one of our
17	future meetings. So he's checking with folks that he
18	needs to check with before getting back to me on that.
19	Thank you.
20	CHAIR TURNER: Nice. Nice. Thank you. Great
21	website, Commissioners Taylor, and Andersen?
22	COMMISSIONER TAYLOR: Good afternoon. Plenty of
23	stuff going on with the website. We've met a few times
24	and we've corresponded back and forth with staff. I
25	guess, I'll try to give you some of the high-level

1	highlights. My team is transferring our website over to
2	a Department of Technology server so that the website
3	will be sitting on a CA dot gov address.
4	The idea behind that is that the website can exist
5	in perpetuity as opposed to it being dissected into a
6	this is the 2010 website and this is a 2020 website and
7	we can just hand this over to the 2030 Commission and
8	everything can sit from this point on, as is on this
9	website.
10	CHAIR TURNER: Nice.
11	COMMISSIONER TAYLOR: The problem that the larger
12	problem with that as we've discussed with Commissioner
13	Kennedy is that the 2010 website is not in compliance.
14	So it doesn't fall under the Government code guidelines
15	or the web content accessibility guidelines. So all of
16	that material has is supposed to be sitting at the
17	State archives. So they're going to be the caretaker for
18	all of those materials to get that information.
19	To get that information to retrieve that
20	information, you'll have to go to the State archives if
21	you want to get information regarding the 2010 the
22	2010 website or the 2010 Commission. That process is
23	still it hasn't been totally vetted yet. So we will
24	have to have a moment where we go through to ensure that
25	all of the 2010 materials have reached that point.

escribers

1	So I think that is the largest issue that is hand,
2	the migration to the CA dot gov the migration of
3	ensuring that all of the 2010 material is on that State
4	Archives website. So it's in hand to the State Archives
5	so that it can be retrieved.
6	CHAIR TURNER: There's a question or comment.
7	Commissioner Kennedy?
8	COMMISSIONER KENNEDY: Thank you, Chair.
9	Commissioner Taylor, if you could remind us what those
10	accessibility requirements are that are impeding the
11	posting of materials from the 2010 website. And I'm
12	wondering if there are key items from 2010 that if there
13	is an expense involved, if we might want to go ahead and
14	incur that expense for key items from the 2010 Commission
15	to be made available in accessible formats that would
16	meet the California Department of Technology
17	requirements. Thank you.
18	COMMISSIONER TAYLOR: So Commissioner Kennedy, to
19	answer your question specifically, the Government code
20	section is 7405 and 1135. And the State follows the web
21	content accessibility guidelines. Now, I don't know
22	verbatim all of the standards that the 2010 website would
23	fall short of. But those are the guidelines that that it
24	falls on 7405 of the Government code, 1135 of the
25	Government code and the web content accessibility

1	guidelines. So I relied on their expertise that the 2010
2	Commission the 2010 website didn't fall to those
3	standards.
4	CHAIR TURNER: Okay. All right. Anything else,
5	Commissioner Taylor?
6	COMMISSIONER TAYLOR: No. Commissioner Andersen?
7	CHAIR TURNER: Oh, thank you.
8	COMMISSIONER ANDERSEN: Yeah. Yeah. Thank you,
9	Commissioner Taylor. You did a great job. The other
10	item that we are still talking about is, you know, should
11	there be some sort of listing even just on our website
12	and what is on the 2010? But so far, we as Mr. Taylor
13	said, there's a vetting process that we sort of said,
14	let's have a look and see what we can actually get with
15	that ends up with.
16	And that's part of the what kind of listing could
17	we even have? But Commissioner Kennedy, you mentioned,
18	you know, key items and it often comes up like what key
19	items would you think we would want? And because that is
20	so easy to see if, oh, those items might actually be
21	compliable, I don't know. But in terms of if you have
22	any sort of ideas of what might be key items, that would
23	really be helpful.
24	COMMISSIONER KENNEDY: I'll take a look.
25	CHAIR TURNER: Thank you.

1 COMMISSIONER TAYLOR: Yeah. The idea is not to 2 eliminate -- to scratch all the history. We know that we'll be able to have tabs. There'll be some reference 3 4 to the 2010 website that in -- for lack of a better 5 example, video may not be compliant or the way the videos posted might not be compliant. 6 7 Because it's not compliant per the Government code. We'll have to you'll have to sit in the State archives. 8 9 It can still be requested. We can have instructions on 10 how to get here. But it would take the current website, 11 the website that we use out of compliance. So just in an 12 effort to follow the Government code, we might have to 13 seat or embed those somewhere else and with a pointer. 14 Thank you. 15 CHAIR TURNER: Okay. Thank you. We're going to --16 Redistricting Engagement. Commissioners Sinay and Fornaciari? 17 18 COMMISSIONER SINAY: Actually, it's Commissioner 19 Sinay and Yee. 20 CHAIR TURNER: Okay. Thank you. 21 COMMISSIONER SINAY: Do you want to start 22 Commissioner Yee? 2.3 COMMISSIONER YEE: Sure. So as Commissioner Sinay 24 mentioned, we continue to meet with Common Cause on 25 noncommissioned team, to stay engaged with their national

www.escribers.net | 800-257-0885

efforts to help encourage and support independent redistricting commission efforts. Most recently, we were on a panel with a group of Minnesota Common Cause folks as they try to do ground work there to pursue an independent redistricting commission proposal they wanted to build there. So that was a good experience. We got to share our experience.

And I have to say personally, wow, it's just so 8 9 daunting thinking about being in their position. It 10 would be like being in California in 2005 maybe, or 11 something like that, you know, and just the long odds, 12 the hard work, the seeming unlikelihood of getting 13 anything done. And yet here we are. It can be done. 14 And so I'm glad we can provide that inspiration to them. 15 It can be done. And you can put a system in that really 16 does work. So I'm very glad to provide that.

17 Commissioner Sinay?

18 Yeah. Just to add to that, the COMMISSIONER SINAY: 19 one piece that's even more daunting on theirs is that 20 they don't have the citizen's initiative process. And so 21 just thinking through how they're going to do that. And 22 we did. So anyway, and then the other piece we've been 23 working with is a conference for all commissioners on 24 independent redistricting commissions throughout the 25 country and at the State level. And a professor at the

www.escribers.net | 800-257-0885

1	law school at Stanford has agreed to host it. We're
2	looking at mid-December, but we're still looking to raise
3	funds to cover the cost of transportation. And then we
4	will create a, you know, transportation as well as hotel
5	and such. And we will create, you know, so we're just at
6	the beginning even though December's around the corner.
7	So the feedback has been positive from funders that
8	we've shared it with. But no one has said, here's a
9	check. But everybody thinks it's a great idea. And to
10	have these, you know, to bring everyone together, to have
11	a conversation. And we will once we know that we can
12	do it because we have the funding, then we'll look at how
13	do we set it up all legally to follow every state
14	equivalent of Bagley-Keene and all that.
15	CHAIR TURNER: Um-hum. Beautiful. And Commissioner
16	Sinay, as you know, that December for all the reasons we
17	struggled when we were going through the process is an
18	extremely crucial time. So even without the money, if
19	you all ever land on a date or time period, I would think
20	it would be important to notify that as soon as possible.
21	COMMISSIONER SINAY: Yup. We also need to figure
22	out how to be equitable to all commissions on how many
23	numbers of people they can invite from their commissions
24	and what they have to cover all that stuff. So yeah,
25	we're working on all four details.

1	CHAIR TURNER: Beautiful. Okay. Thank you, both.
2	Where am I? Okay. Audit, Commissioners Le Mons and
3	Taylor.
4	COMMISSIONER TAYLOR: Good afternoon, again. The
5	Audit Subcommittee function as another set of eyes. We
6	met with staff, corresponded back and forth a number of
7	times. We hope that the work was evident in the more
8	comprehensive financial report in the budget
9	presentation.
10	If there are any concerns or questions that need to
11	be addressed, please direct them to staff. We'll look it
12	over again. Staff did the hard work. Commissioner Le
13	Mons and I were just there to ask a whole bunch of
14	questions and they when they got the answers for us and
15	they presented it in what I thought was what we
16	thought, we hoped that a much better form that the
17	committee could digest and use and you know, sink our
18	teeth into. So thank you. Thank you, staff.
19	CHAIR TURNER: Beautiful. Beautiful. Thank you.
20	And for our Staff Services Manager Recruitment
21	Subcommittee we've reported out already coming out of the
22	closed session.
23	Commissioner Fernandez, did you have anything else
24	to add? Okay, great. So what we'll do at this point, I
25	think we've gone through our subcommittees. We are going

1	to go to closed session go to the public comment,
2	because we've completed this particular section.
3	What I'd like for while we while we prepare for
4	that Kristian, would like to also ask commissioners to
5	kind of just run through your minds real quick. Our next
6	meeting is scheduled for August 3rd and in checking I
7	don't see a lot of pressing information for August 3rd.
8	So give that some thought while we wait for public
9	comment and general public comment and we may not have
10	that meeting.
11	And if that's the case, I'd like to announce it now
12	for public that's here and for your own schedules to have
13	it back, which would mean our next meeting would be
14	August 31st. Kristian, let's go to public comment for
15	our agenda item number three and for general public
16	comment.
17	Mr. Manoff: You got it chair.
18	PUBLIC COMMENT MODERATOR: The Commission will now
19	take public comment on agenda item three and general
20	public comment. To give comment, please call 877-853-
21	5247 and enter meeting ID number 81170012495. Once
22	you've dialed in, please press star 9 to enter the
23	comment queue. The full call in instructions are read at
24	the beginning of the meeting and are provided on the live
25	stream landing page. And for those who are called in, if

1	you'd like to give a comment, please press star 9.
2	We have no raised hands at this time, Chair.
3	CHAIR TURNER: Okay. So let's see. So
4	Commissioners, just kind of a quick discussion, August
5	3rd, we may end up with a quick meeting on the third
6	because of the needing to vote. If we are going to do
7	something on that, an amicus brief. But anyway, so stay
8	tuned. We won't make that determination now. We'll see
9	where we are August 3rd. And the meeting following that
10	is August 31st. So I would just watch our emails and see
11	how we'll be able to move on that. Commissioners, I
12	don't have anything else on the agenda. Anyone have
13	general comment?
14	Commissioner Kennedy?
15	COMMISSIONER KENNEDY: Just a reminder of the note
16	that I had staff circulate, The Future of California
17	Elections Conference is coming up in Burbank on the 25th
18	of this month. I am hoping to be there. I hope to see
19	colleagues there. I've participated in these conferences
20	in the past. It's a great opportunity to see folks and
21	discuss topics of, I think, great interest in our state
22	and how we can continue to improve elections.
23	And as far as redistricting, there is a panel
24	specifically on local redistricting. So even though our
25	work isn't going to be the focus of a specific panel, I

1 think the panel on local redistricting could certainly be 2 useful. And if there are enough of us there and we can split up and attend all of the concurrent panels, then we 3 4 could put our heads together afterwards and make sure we 5 all have a good understanding of what was discussed. 6 Thank you. 7 Beautiful. Okay. We do need to get CHAIR TURNER: our additional meetings scheduled. I think the last 8

9 scheduling meeting -- the scheduled meeting we have is 10 August 31st. And I'm always a proponent for having it 11 marked and saved on the calendar just to ensure that we 12 have the best opportunity for all of us to attend,

13 particularly now that we're remote.

So look for a Doodle Poll of sorts that'll be coming out to make a determination of when our next meetings will take place. And let's see, I guess we'll make one last call for public comment for Section 5, because it's listed as its own about the next meeting. And I don't see any new callers, but we'll still make a call for our last public comment and then we will let you go.

21 Kristian?

22 MR. MANOFF: There are no hands raised at this time.
23 Did you want to read the instructions again?
24 CHAIR TURNER: No.

25 MR. MANOFF: Okay.

1	CHAIR TURNER: I don't think anyone new has joined.
2	So you've read it?
3	MR. MANOFF: Yes. The same folks are here and they
4	have not raised their hands and they gave comment
5	earlier.
6	CHAIR TURNER: Okay, beautiful. Well, with that,
7	we're going to adjourn for the day and we will see you
8	all again either on August 3rd or August 31st. And we
9	will, of course, give you plenty of notification time
10	based on what we'll do. Thank you so much. This
11	meeting's adjourned.
12	(Whereupon, the Citizen's Redistricting
13	Commissions Public Meeting adjourned at 2:24
14	p.m.)

1	CERTIFICATE OF TRANSCRIBER
2	
3	I do hereby certify that the testimony in the
4	foregoing hearing was taken at the time and place therein
5	stated; that the testimony of said witnesses were
6	transcribed by me, a certified transcriber, and a
7	disinterested person, and was under my supervision
8	thereafter transcribed into typewriting.
9	And I further certify that I am not of counsel
10	or attorney for either or any of the parties to said
11	hearing nor in any way interested in the outcome of the
12	cause named in said caption.
13	I certify that the foregoing is a correct
14	transcript, to the best of my ability, from the
15	electronic sound recording of the proceedings in the
16	above-entitled matter.
