

In-Person Meeting Discussion (September/October)

There has been much discussion among the Commission about conducting line drawing sessions in-person. This document contains a proposal to help facilitate a decision on that topic.

If there is sufficient interest and commitment on the part of the commissioners to make this effort worthwhile, then we will discuss the proposal below. If not, we will continue to hold our meetings virtually with commissioners, staff and consultants welcome to attend in Sacramento. I think sufficient interest is at least half of the commissioners commit to attend each set of meetings.

Proposal

- Line Drawing meetings will be held virtually for everyone and in-person for commissioners, staff, and consultants only.
- The in-person meeting location will not host the public. This will:
 - Enable the public to continue to provide input via calling into the live stream
 - Make the logistics significantly simpler
 - Relieve the Commission of responsibility for enforcing local masking requirements
 - Provide a safer and more secure environment for the Commission
 - Is compliant with current and expected Bagley-Keene exemptions
- Commissioners, staff, and consultants will have the option to attend in-person or virtually
- Meeting locations will alternate between Sacramento and Southern California
