

Good Morning,

My name is Manny Rodriguez and I am the new director of CA Policy & Advocacy for The Institute for College Access & Success. We are a research and advocacy organization working towards equitable and affordable access and success in higher education.

We are trying to figure out what zip codes align with the newly redistricted Asm & Sen districts that go into place for this November. My team and I looked throughout your website but couldn't find any data file or pdf that outlined this. Would y'all be able to share this data or information with us please?

The Senate and Assembly website outline the zip codes from 2020 but those are outdated. Here is their link: <https://sdmg.senate.ca.gov/zipcodedirectory>

Any help you could provide would be super appreciated!

Thanks & Best,  
Manny Rodriguez
