Subject: When will the new district boundaries take effect?

Hi,

I am interested to know when will the 2021 Senate and Assembly district boundaries take effect? For the 2011 redistricting, the new district boundaries took effect with the general election. So all Assembly districts were effective November 2012 as well as half of the Senate districts. The other half of the Senate were effective in 2014. Will this be the process for 2022?
