

Happy Friday!

I just have a quick question - I seem to be having trouble finding a map of all precincts in San Diego County as well as some shapefiles for all precincts in San Diego County. I'm seeing all sorts of other maps but nothing by precinct. Do any maps detailing San Diego County by precinct as well as those shapefiles exist? And if they do, can you please email me a quick link to that map and those shapefiles?

Thanks!

Marco
