

My congressional district has been changed from 10 to 5, taking me out of Representative Josh Harder's district. I am livid regarding this change. I am happy with Rep. Harder's representation; he shares my values. I am now thrust into a district with a republican majority with a republican representative that does NOT share my values. I demand to know why this was done, and who is responsible for this travesty.

Patricia Vargas, voter and life long Democrat.
